

Appendix E
to the
JCNA Concours Rule Book
Jaguar Approved Accessories

Draft to be presented at the 51st AGM, March 2009

**Primary Research by George Camp, Edited by Stew Cleave
Presented by Dick Cavicke**

JCNA has accepted accessories applied to Jaguar automobiles either at the factory or by Jaguar Cars North America under their various names (i.e. British Leyland). These accessories were supported by the parent organization and had part numbers (assigned by Jaguar North America, but not recognized by Jaguar Cars). This was necessary as the corporation extended warranty of these accessories and replacement items were necessary in case of failure or loss. Dealer supplied items were not serviced in this manner unless acquired by the dealer from Jaguar North America.

An extensive search was made through available documents and every attempt was made to acquire input from other sources and JCNA members. Please note that no attempt has been made here to document Factory Approved Accessories. These are well covered in the individual manuals and service/ parts bulletins. This appendix presents a fairly comprehensive examination of approved accessories from the North American corporation as well as popular aftermarket items found on overseas ordered cars that were purchased either by service members or through the popular period tax free delivery program.

While the information is believed to be correct and accurate, JCNA, quoted parties, the author, and editor cannot be held responsible for errors. The final responsibility of presenting a correct Jaguar for judging lies solely with the entrant.

This appendix is “a work in progress”, and as new documented or verifiable information becomes available it will be included. This table lists what was added, changed, clarified, etc., and the area in the appendix where this new information is found.

DATE	DOCUMENT	DESCRIPTION

Comments are always welcome. Please contact George Camp by email at SCJAG@JUNO.COM. Information submitted should be in the form of an official Jaguar North America or similar document. Unless otherwise noted, photos are the author’s or copied, with permission, from official documents.

The purpose of this appendix is to provide judges a starting point to educate themselves to approved accessories and options for Jaguars as sold and delivered for the North American market. Publication numbers are used when available, or an actual copy of the document is presented when a publication number is not available.

Method of Presenting Information

Initial thoughts were to present a copy of each document and the pages contained within. It quickly became clear that this appendix would have run well in excess of 1000 pages. What is presented is a quick reference for the astute judge or enthusiast to enable them to acquire some of these documents. It is believed that club members are in possession of many of these catalogs and dealers and even Jaguar North America might be able to provide some of them if the publication number is quoted.

It was difficult to determine a scheme to present this material. An index by model simply would not work as most of the documents cover every car in a Model Year (MY), but some cover over a decade. Therefore, there is no significance to the document number (i.e. Document #1). Document numbers are simply used for a point of reference. Please also note that some of the sales sheets mention numerous options – only the ones that are non-factory are noted! No attempt was made to place the documents in chronological order, as one never knows when a document may surface, i.e. if a document becomes available in the future re-paging will not be necessary.

Document # 1 Suggested US Retail Prices (Port of Entry) 1965-1967

This sales sheet covers the possible addition of the Webasto sunroof to cars delivered ex factory. Please note the proper factory-sliding roof (see pictures at end of guide) is also listed for the “S” 3.8L and 3.8 Mk2.

MK2 (3.8)

- Webasto sunroof

3.8 “S” (3.8)

- Webasto sunroof

4.2 ‘E’ (Coupe)

- Webasto sunroof

4.2 Sedan (420)

- Webasto sunroof

(Please turn over)

Document #7 Jaguar Approved Accessories (Published 1972 Simax N.Y.) code 8/72 SX NY

This might be the first “approved” catalog of accessories for the North American market. Note it was published in NY. All of the accessories fit both models covered (V-12 E and XJ6/12) with the exception the mud flaps were for the saloon and the luggage rack and Amco bar were for the “E”. Note the (generated) part numbers. Jaguar Cars never recognized them. The Jaguar print seat cover was perhaps good for the period but is particularly hideous.

- Mud flap kit
- Radio AM/FM
- Luggage rack
- Floor mat set (Amco)
- Floor mat each
- Front bumper guard (Amco)
- Rear guard (Amco)
- Seat covers (Shag Natural)
- Seat cover (Shag Dyed)
- Seat cover (Super Shag)
- Seat cover (Jaguar Print)

- Floor mats
- Sheep skin seat covers
- Fog lamp kit
- Mud flaps
- Door edge guards

Document #15 Hoffman Letter Of Feb. 1950 (letterhead)

Offers fog lamps on MkV and 120 (all)

THE HOFFMAN MOTOR CAR CO., INC.
DISTRIBUTORS OF JAGUAR CARS
487 PARK AVENUE - NEW YORK 22, N. Y.

TELEPHONE: PLAZA 9-7036-7-8

CABLE ADDRESS: HOFFCAR, N. Y.

February 11, 1950

Mr. Peter Bellanca
415 Lafayette Avenue
Buffalo 13, New York

Dear Mr. Bellanca:

Thank you for your recent inquiry. I sincerely appreciate your interest in the Jaguar cars, and enclose some literature on their 1950 models. These cars deliver now in New York for:

Jaguar sedan with sunshine roof.....	\$3,750
Jaguar convertible.....	3,850
Jaguar XK-120 Super Sport two-seater.....	3,945

These prices include the Federal Excise Tax, and also the following equipment in the sedan and convertible: heater, defroster, air-conditioning, and two fog lamps. Delivery of these cars, after a cash deposit has been submitted with the order, is at present based on the following schedule:

Sedan: immediately or in 2 weeks
Convertible: as soon as possible (in about 2 to 3 months)
XK-120: as soon as possible (in about 4 to 5 months)

These cars are of the most modern design both in body lines and mechanical specifications. They absolutely dominate the international sportscar field with their extraordinary performance and moderate price.

Please do not hesitate to call on me for any further information you may desire.

Very truly yours,

M. E. Hoffman

Document #21 Jaguar Wheel Options (alloy) XJ XK S-Type (JLM 3576) 05/2000

Color catalog of all wheel options for all models – also offers locking wheel nuts and “splash guards”, but most interesting, it offers the Sports Lattice wheel for S3 XJ6.

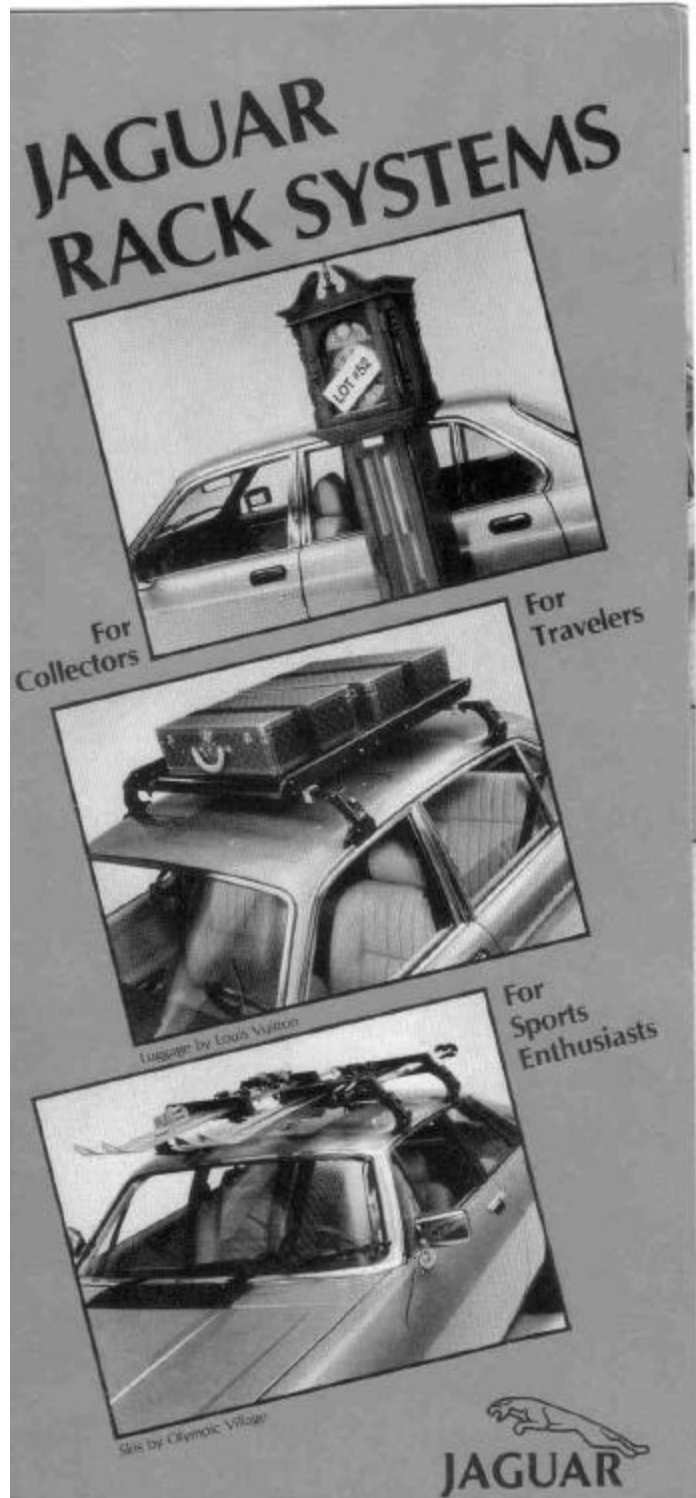

Document #22 Jaguar Alloy Wheel Accessories JMM 2740 May 1995

Offers many optional wheels for X300 and XJS – also offers logo chrome valve caps, dust shields, and locking wheel nuts.

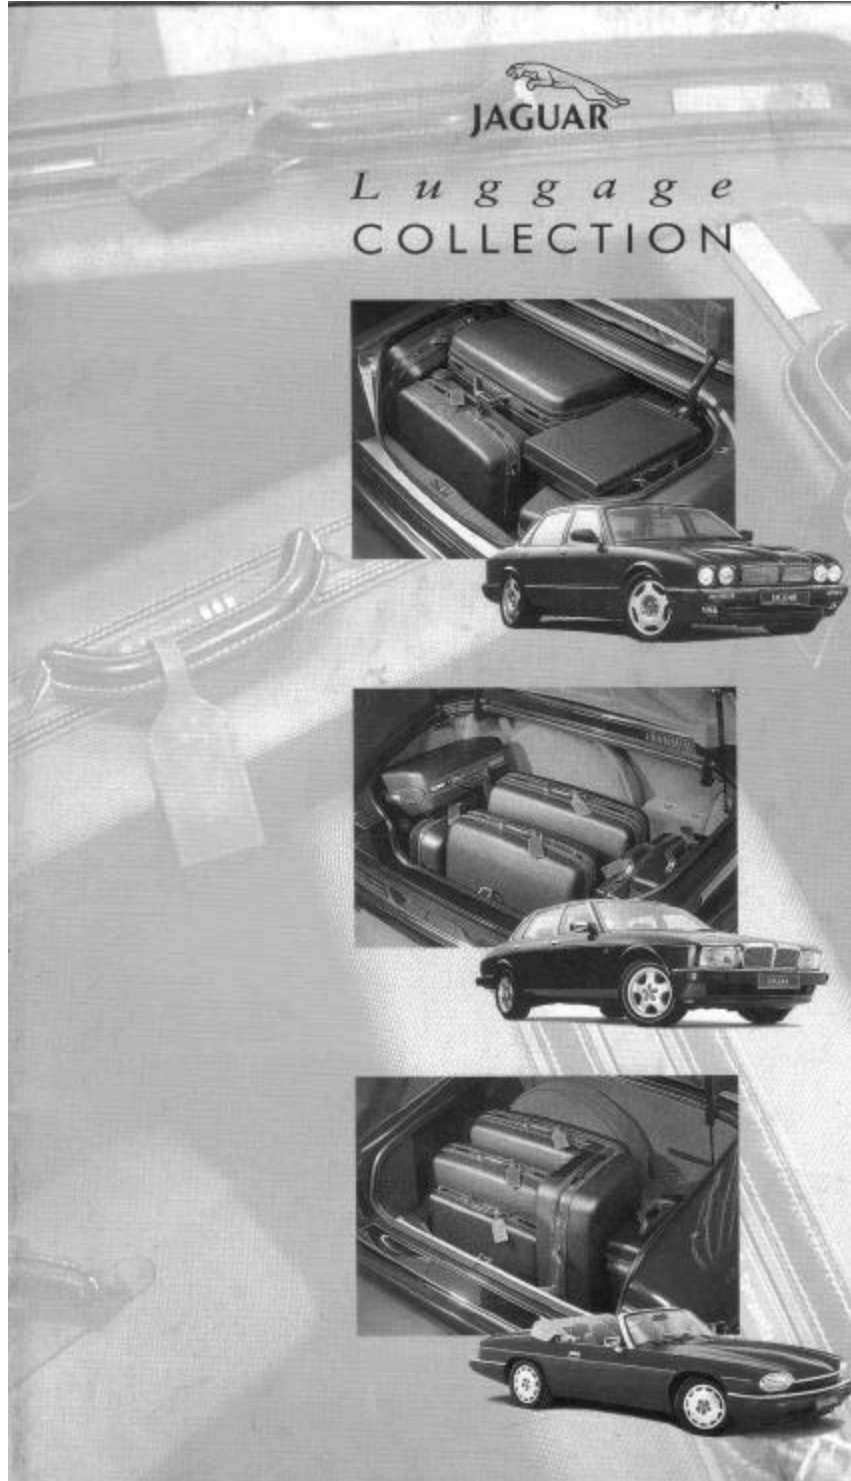

Document #23 Jaguar Rack Systems (no date)

Roof rack systems for S3 XJ6 but states it can be used on XJ6 S1 and S2. Also for use on XJ-S

Document #24 Jaguar Luggage Collection JMM 2782 Jan. 1996

Covers fitted luggage for XJ300, XJ40, and XJS with standard spare and XJS with space saver spare

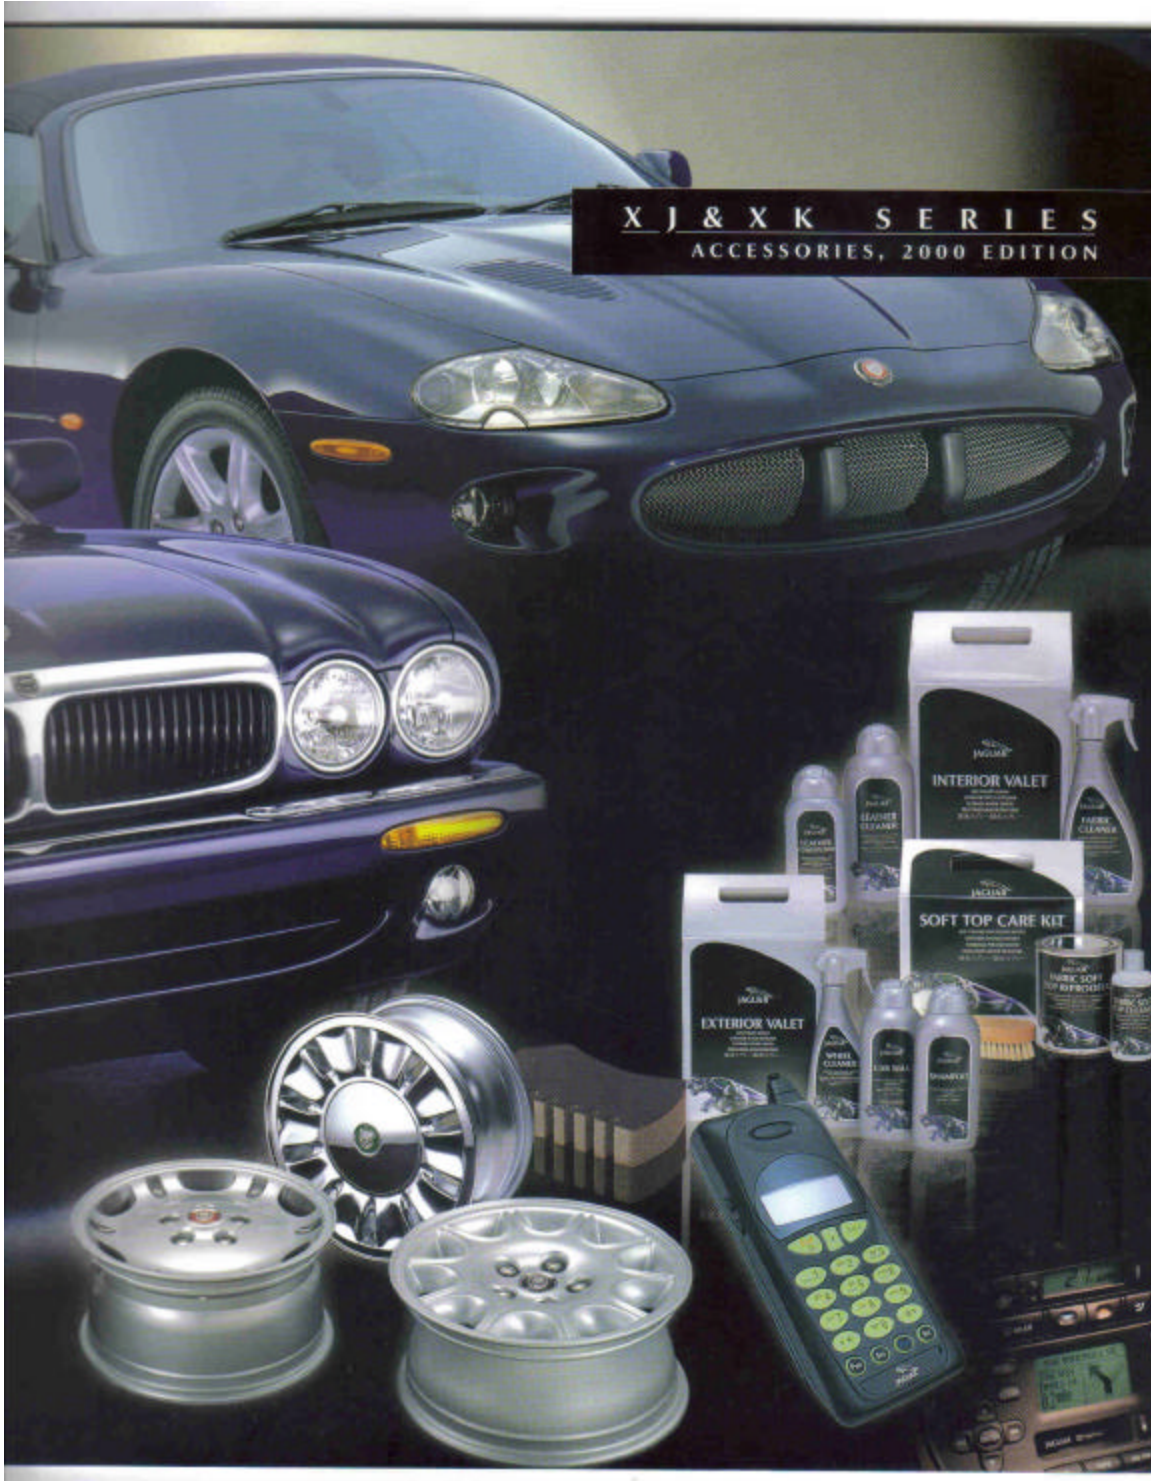

Document #25 SOVEREIGN COLLECTION 1988

This is another problematic document – clearly marked as NOT connected with Jaguar it was sent directly to dealers and this is where dealers gained the options for the XJ40. The options were Jaguar parts sourced from the UK but not available in the US. However once again the dealers ordered and installed! Covers European headlamps, Sovereign badges, carpets, leapers, wheels, seat covers, fog lamps, hand brake covers, sunroof deflectors, rear fog lamps, wheel locks, floor mats, boot mats, mud flaps, license plate frames, steering wheels, 13 different wheel offerings, deer whistle, and more.

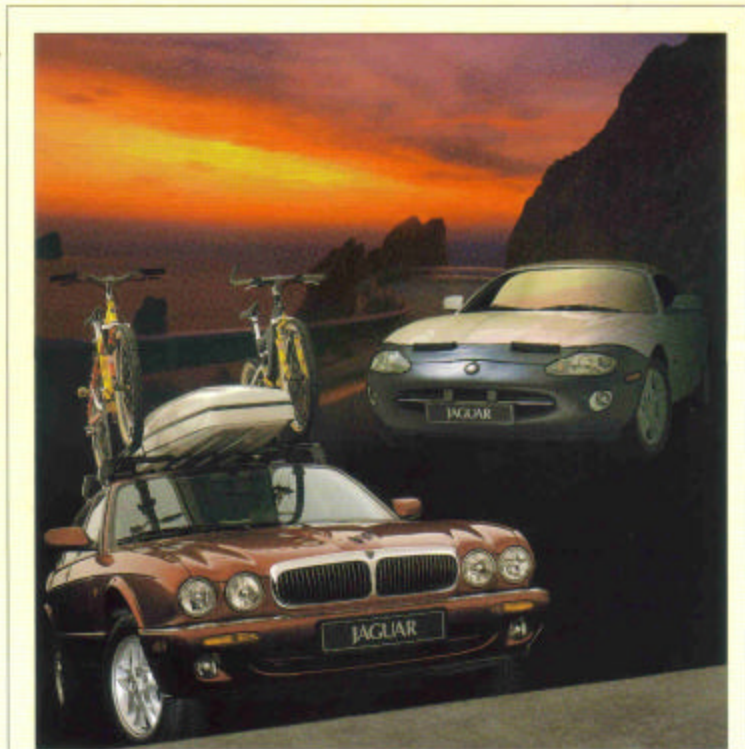

Document # 26 XJ And XK Accessories 2000 Edition JAG 2000/XKJ 9, 1990

Offers 20-pages of accessories from wheels to wheel cleaners, including luggage racks, for the XK8.

Document #27 XJ8 And XK8 Series Accessories 1999 Ed. JAG 8099AA 9/1998

Same as above – watch out it, has a bra for the XK8

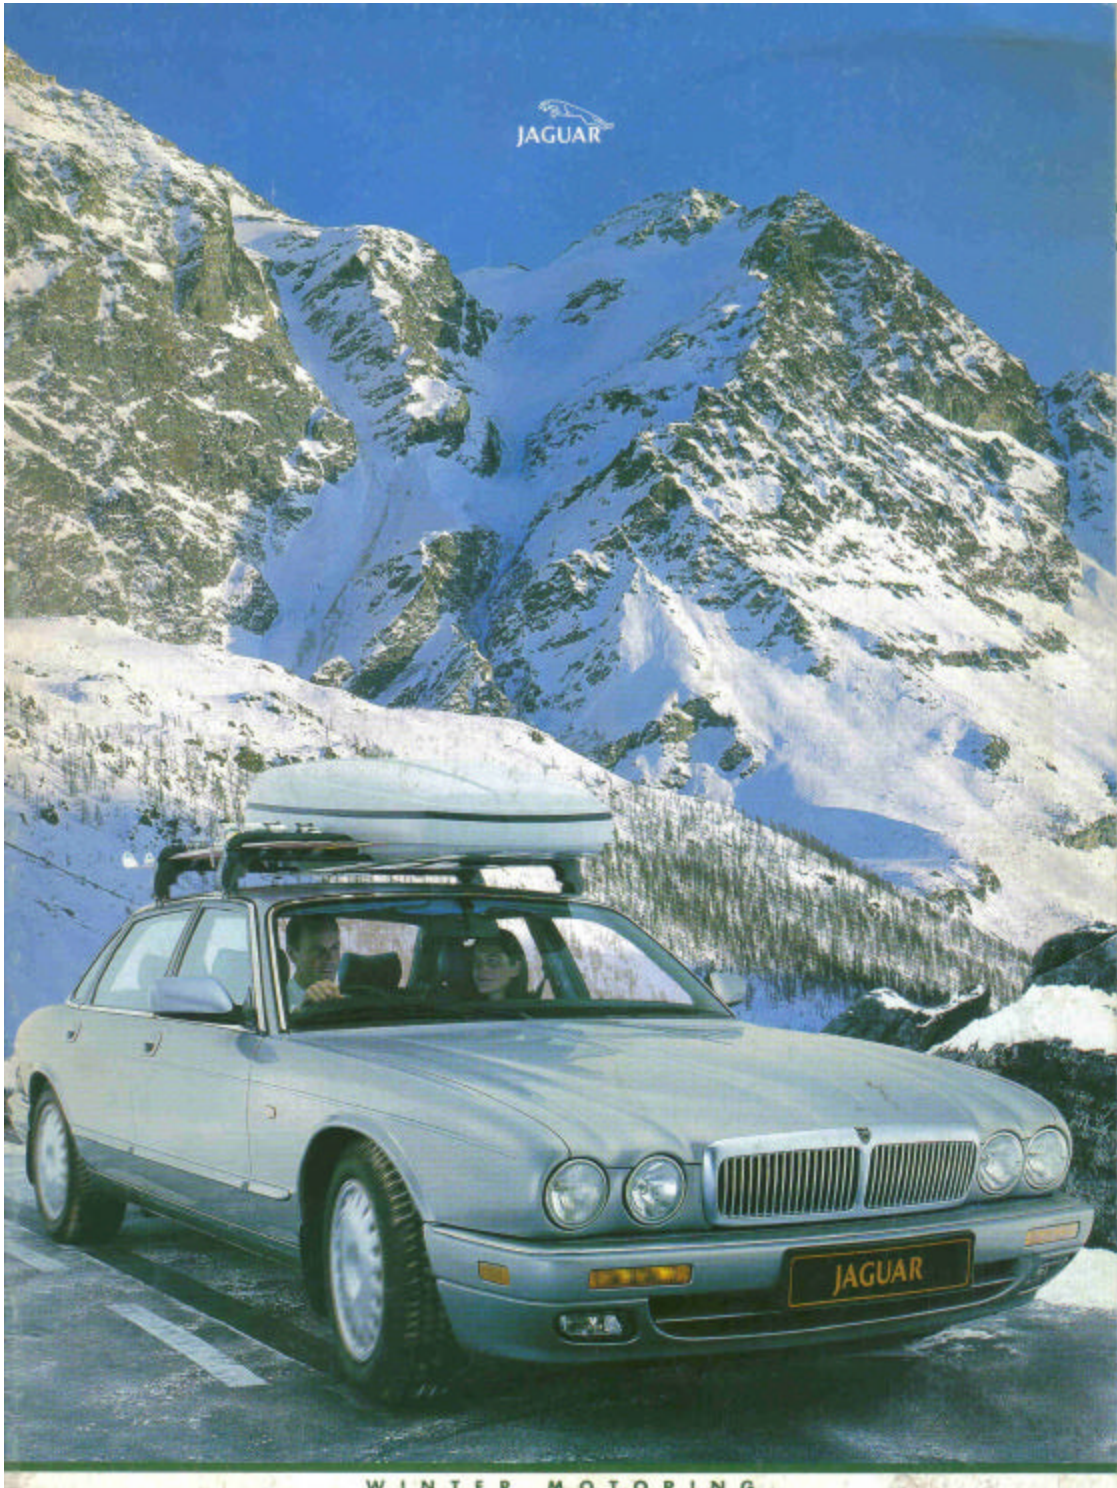

JAGUAR

XJ8 & XK8 SERIES ACCESSORIES
1999 EDITION

Document # 28 “Winter Motoring” JMM2790 Oct. 1995

Covers winter stuff – headlamp covers, rubber mats, and headlamp power washers.

Many, many accessories

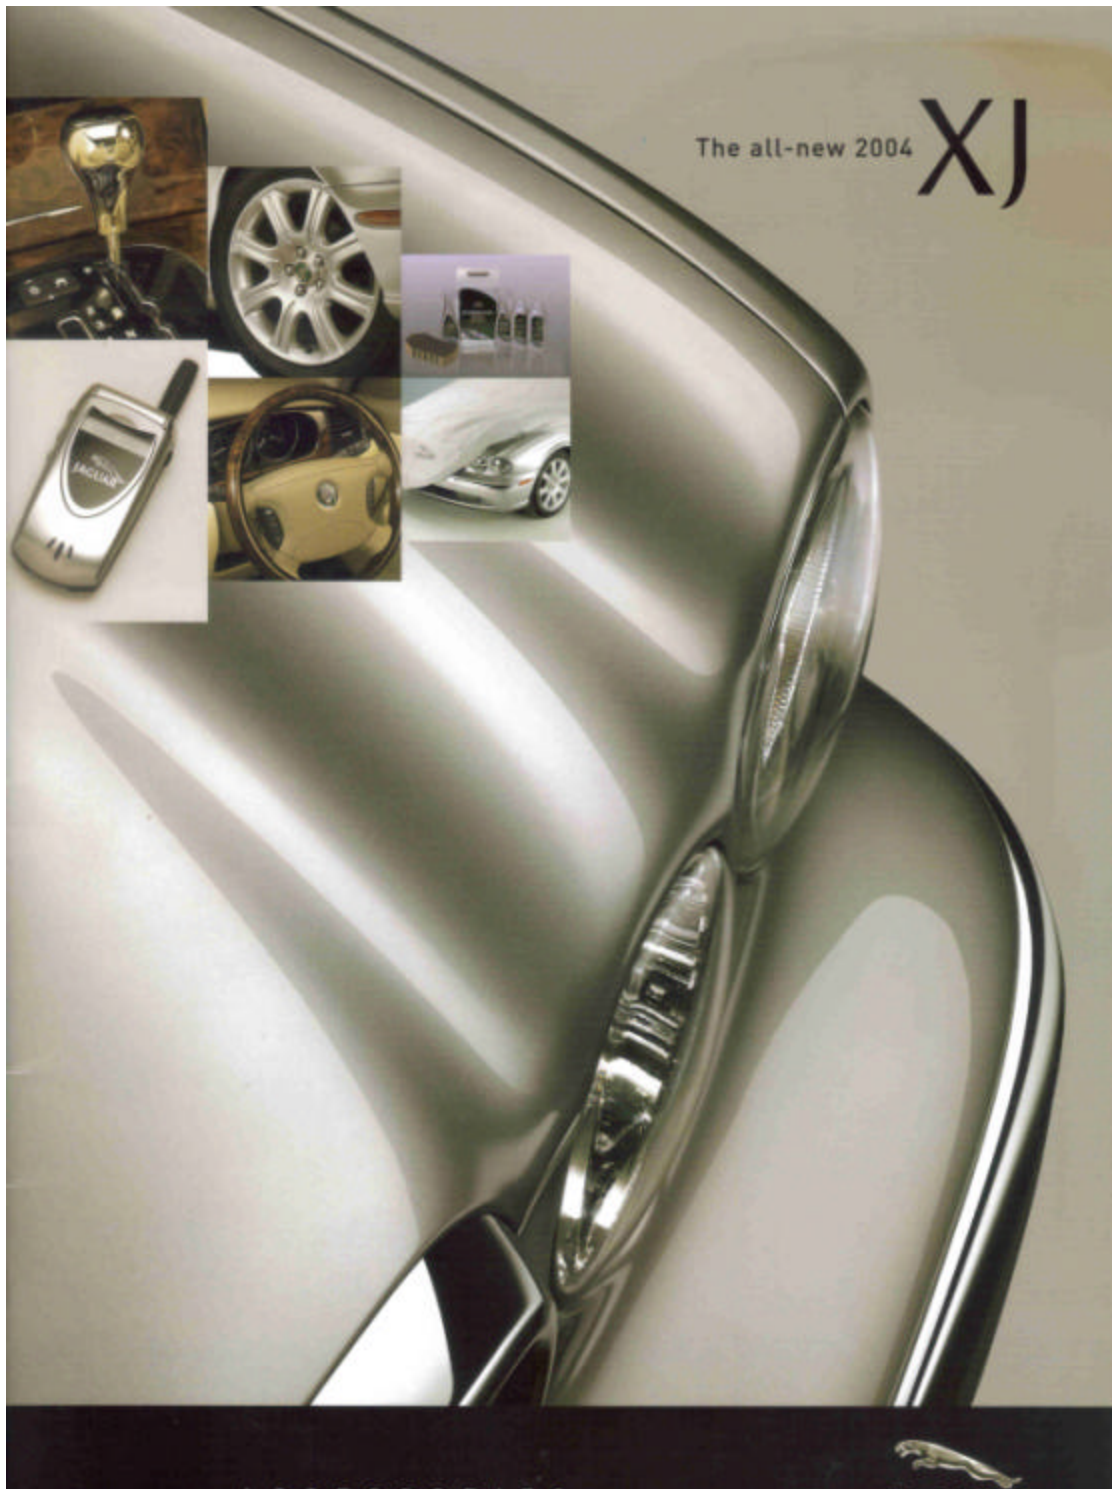

Document # 30 XK Series Accessories JAG 2001/XK 9, 2000

Many accessories, but mostly wheels, gear knobs, floor carpets, etc.

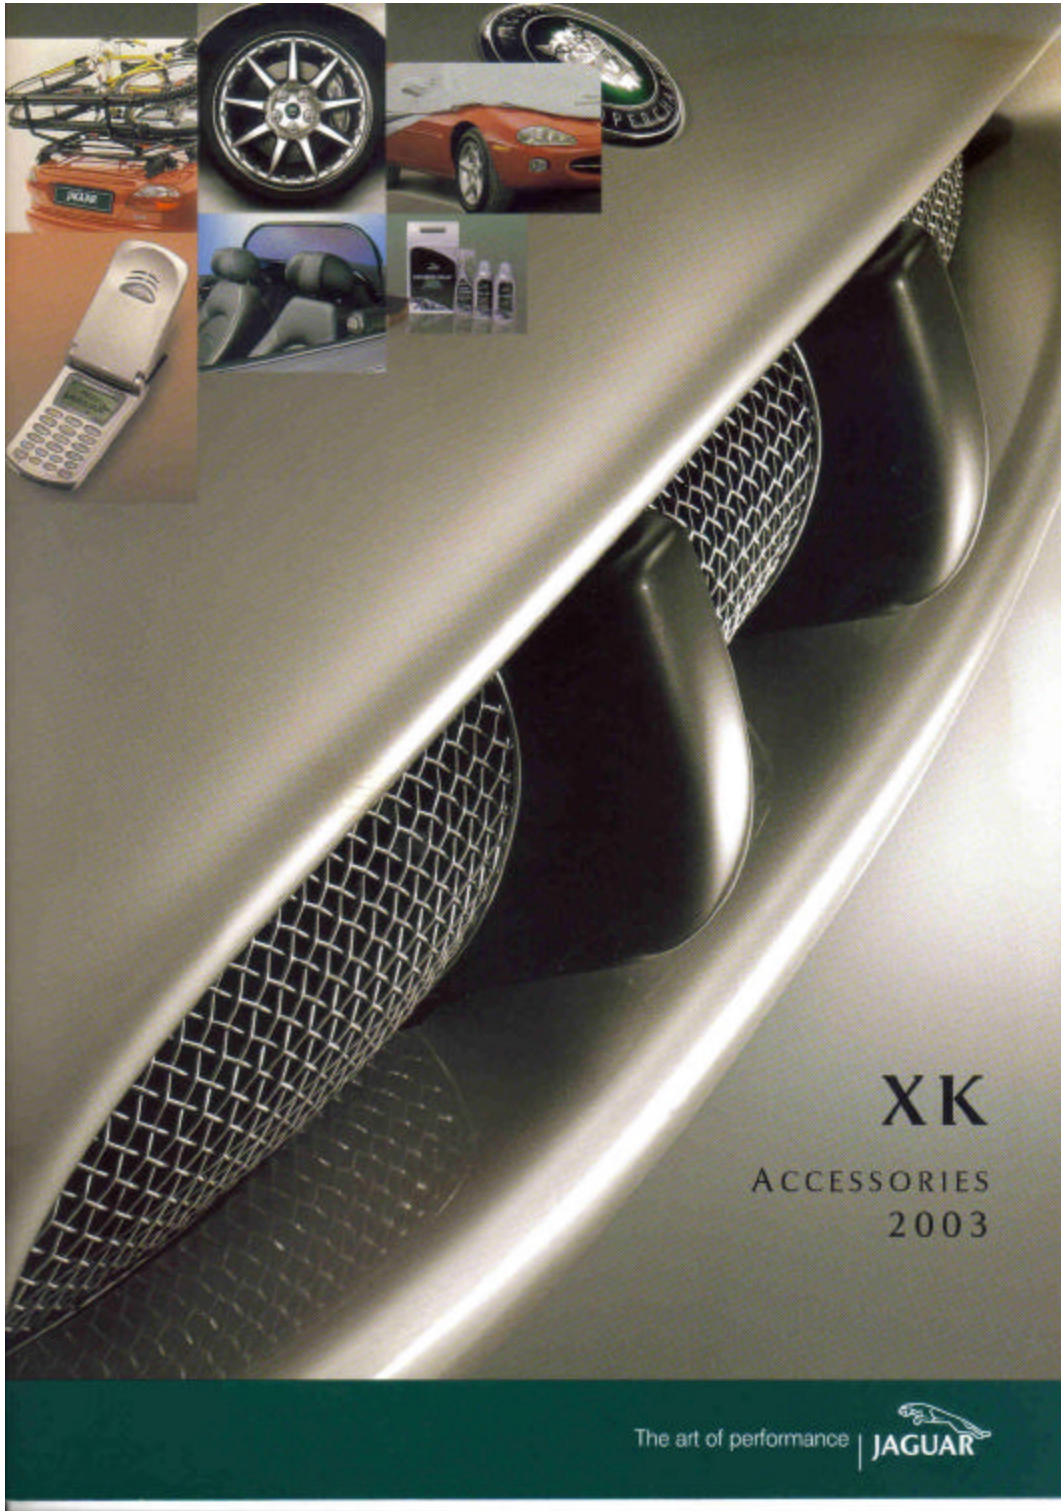

Document #31 The All New XJ Accessories JAG 8100 5, 2003

Many accessories, including wheels

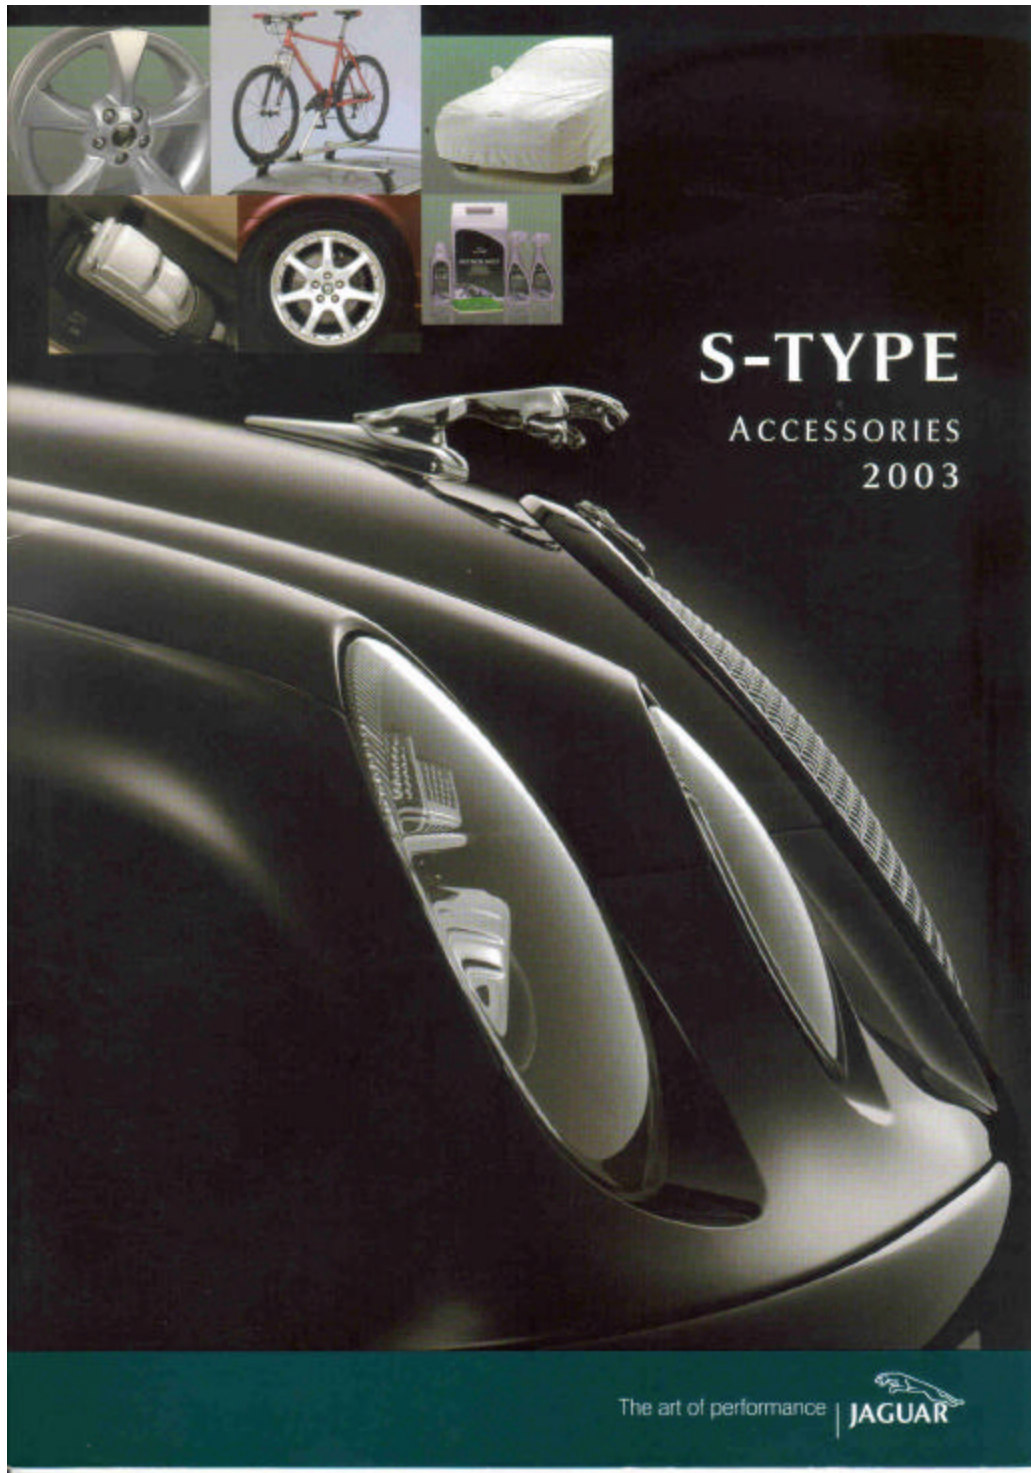

Document #32 XK Accessories 2003 JMM3689 9,2002

Many accessories including "R" options

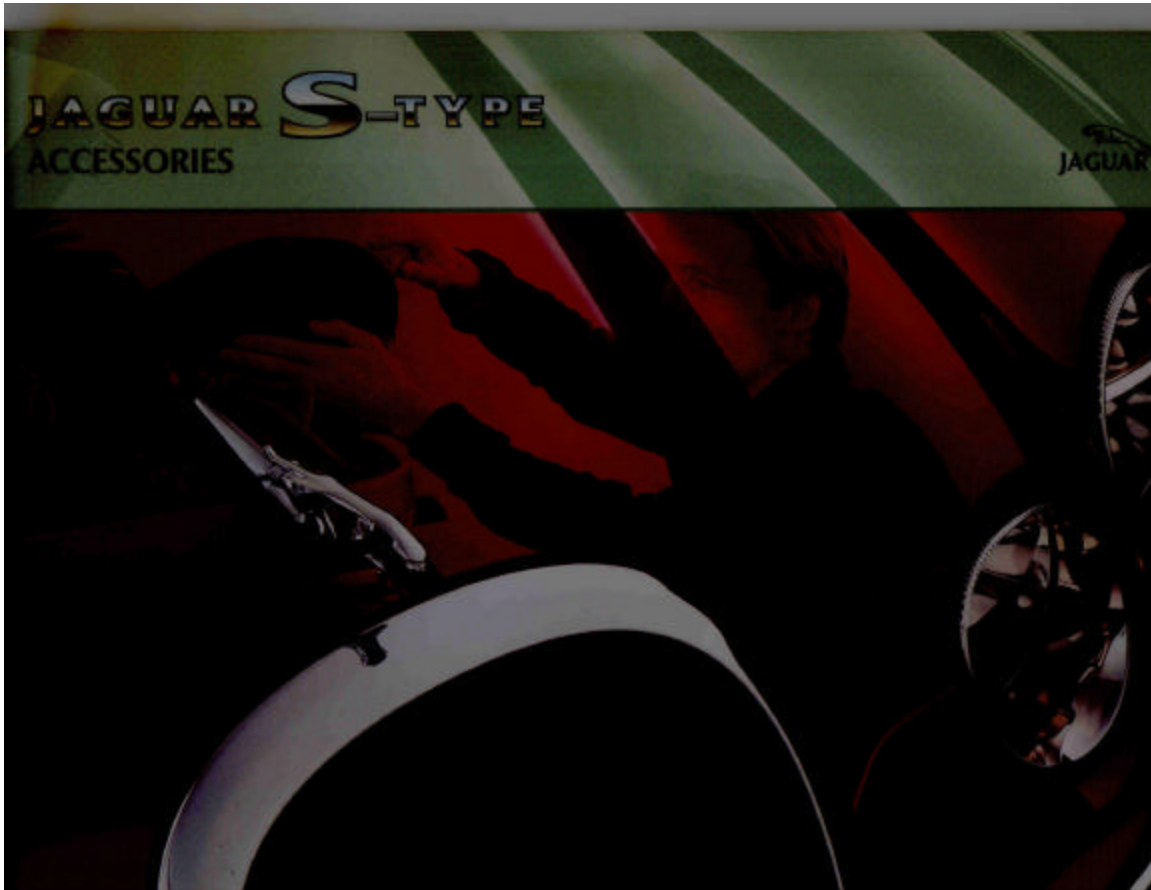

Document #33 S-Type Accessories 2003 JMM 3683 4, 2002

Many accessories including “R”, but no “mesh” grills, which will be a problem in the future. A dealer here in Columbia puts mesh in almost everything! And he has from the start!

Document # 34 Jaguar S-Type Accessories JAG 2000AA/STP 03, 1999

Gear knobs, wheels, floor mats, and lots more – 1st catalog issued by Mahwah, Bramalea, and Mexico. Shows Canadian S-type with a badge instead of a Leaper!

Document # 35 “Jaguar 1969 (2 sided card) “Suggested US Retail Prices POE/ other side is” Overseas Delivery Prices” Dated January, 1969

Useful as all normal options are listed but NO SUNROOF on any model – a further troublesome note is that a “Power” antenna is listed for ALL Models – this predates the power antenna date by several months!

JAGUAR 1969 SUGGESTED U. S. RETAIL PRICES AT PORT OF ENTRY

ACCESSORIES AVAILABLE
See your local dealer for accessory availability and pricing.
Prices do not include inland freight and delivery charges, new car preparation and handling charges, State and/or local taxes.
(Specifications and prices subject to change without notice.)

Issued January, 1969

Document #36 Jaguar Cars North America "Accessories" No date, on letterhead, 2-
pages – Covers XK 120, XK 140, Mark V, Mark VII, and 2.4 Saloon

Covers radio sold via Jaguar NA and is illustrated – covers bumper guards for the XK140, which are hideous, but now "Legal". This was included with the Hornburg Files I have.

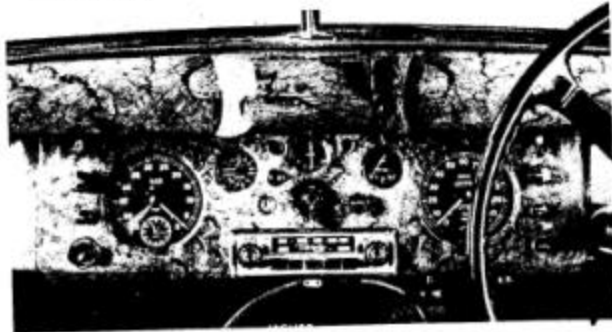

JAGUAR CARS NORTH AMERICAN CORPORATION
42-30 TWENTY FIRST STREET
LONG ISLAND CITY 1, N. Y.

ACCESSORIES

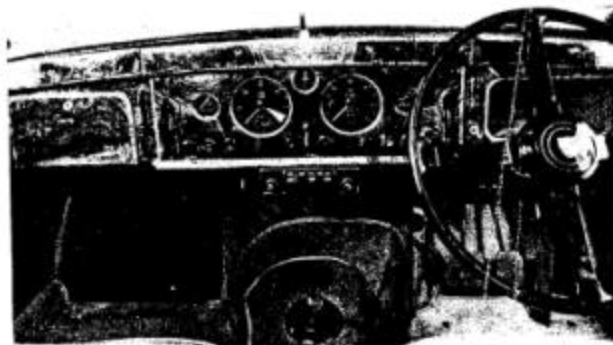

CUSTOM CAR RADIO - ALL JAGUAR MODELS

These radio sets are custom built for all models and the appearance is in keeping with the high quality of Jaguar interior body fittings. The sets are 12 volt, 8 tube, with separate power pack and push button tuning unit and on the face of the dial the word "Jaguar" is engraved. Each set is separately packed with fitting instructions for the appropriate model to which it is to be fitted. Each pack is complete with the exception of antenna which may be purchased locally to suit customer's special requirements as regards type and mounting. Standard tubes, condensers, resistors, and electrolytics are used which may be purchased readily in any part of the Americas.

Installation for Mark V and Mark VII.
XK120 and XK140 Convertible and
Hard Top Coupe models.

Installation for XK120 and XK140
Roadster and 2.4 Litre models.

RETAIL PRICE

Mark V and Mark VII and 2.4 Litre — \$105.00
All XK Models — \$110.00

JAGUAR CARS NORTH AMERICAN CORPORATION
42-50 TWENTY FIRST STREET
LONG ISLAND CITY 1, N. Y.

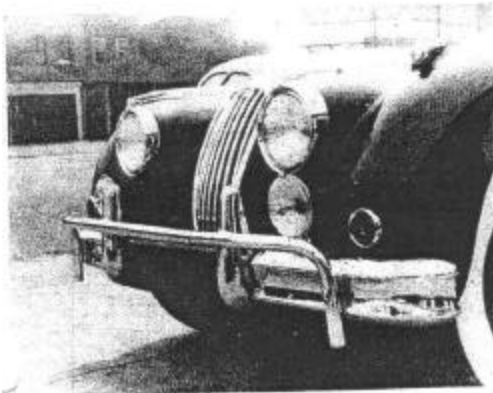

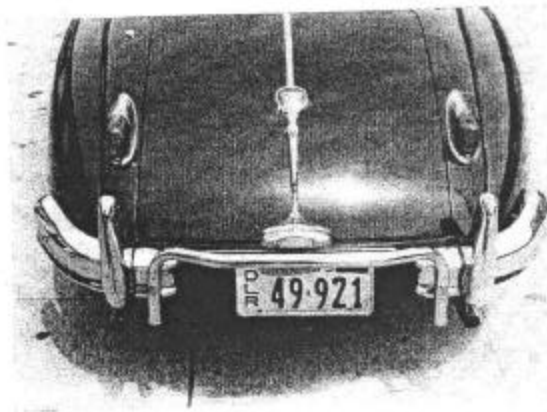

ACCESSORIES

BUMPER GUARDS

Designed for the XK140 but adaptable to the 2.4 Litre the bumper guards are manufactured from tubular steel and finished in high quality chrome. The guards do not interfere with the opening and closing of the hood or trunk and provide added protection to existing bumpers and vulnerable portions of the body. They make an excellent badge bar. Guards are supplied in a kit complete with spacers, chrome bolts and plugs ready for fitting.

Fitting Rear Bar

1. Apply guard to rear bumper, mark and drill two 7/16" holes through bumper bar.
2. File the two round holes in guard square to accept shank of chrome bolts provided.
3. Insert cast aluminum spacers into concavity of bumper and fit chrome bolts to both sides.
4. Insert plugs in guards.

Fitting Front Bar

1. File the round hole drilled in the U-shaped guard square to receive the shank of the chrome bolts provided.
2. Using a hacksaw, cut the U-shaped guard in half.
3. Fit the two halves of the sawed guard into the sleeve.
4. Remove existing bumper bolts.
5. Insert cast aluminum spacers into concavity of bumper and fit chrome bolts to both sides.
6. Insert plugs in guard.

Retail Price \$39.00 per kit

ORDER THROUGH YOUR DISTRIBUTOR AT NORMAL DISCOUNT.

AIR-CONDITIONING UNITS FOR MARK VII

Should you receive enquiries about fitting air-conditioning units in Mark VII sedans, we should be happy to give you technical assistance if required.

An Artic-Kar installation fitted 12 months ago to a Jaguar company car has proved satisfactory, and kits specially tailored for the Mark VII by this concern can be ordered through Charles H. Hornburg Jr., Inc., 9176 Sunset Blvd., Los Angeles 46, or Jaguar Cars North American Corporation 42-50 21st Street, Long Island City I, New York.

The development of this installation has been tried out in conjunction with our organization, and all necessary attachment brackets and other fittings are supplied with the kit, together with full fitting instructions. Under these circumstances, the Jaguar Company guarantee remains valid, which might not be possible under certain circumstances with other installations.

The fitting of air conditioners of other makes to Jaguars may involve much time and expense in experimentation, and you are therefore advised to take advantage of the experience already behind the Artic-Kar kit.

A handwritten signature in dark ink, appearing to read "K. Hickman". The signature is written in a cursive, flowing style.

July 1956

Document # 38 Hornburg Letter of Nov. 1961 Subject Dunlop Racing tires

This covers racing tires being available for E-types!

- Remember at this time there were two distributors in the US Hoffman and Hornburg – while there was a small US office that was rented space by Hoffman in fact Hoffman and Hornburg were Jaguar NA.

November 28, 1961

TO ALL DEALERS:

SUBJECT: DUNLOP RACING TIRES

The Dunlop Tire Co. have recently reminded us of their policy concerning the sale and supply of racing tires. This reminder was forwarded since it is obvious that the "E" Type car will be raced, and a new Dunlop R5 racing tire is recommended by Jaguar.

Should you have owners interested in racing, please inform them that their inquiries should be directed by them to the address given below:

DUNLOP TIRE & RUBBER CO.
Box 2011
Buffalo 5, N.Y.

For your information, it is desired that these tires be supplied to owners at the most reasonable price possible and for that reason they will be supplied direct from Dunlop and not through the usual trade channels.

K. H. McDermott
General Service Manager

THE FINEST CAR OF ITS CLASS IN THE WORLD

Document # 39 Jaguar Journals – All of Them

In looking for the XJS sunroof option I came across the following – I do not have a very good *Jaguar Journal* collection, but someone with a good collection might find more things of interest!

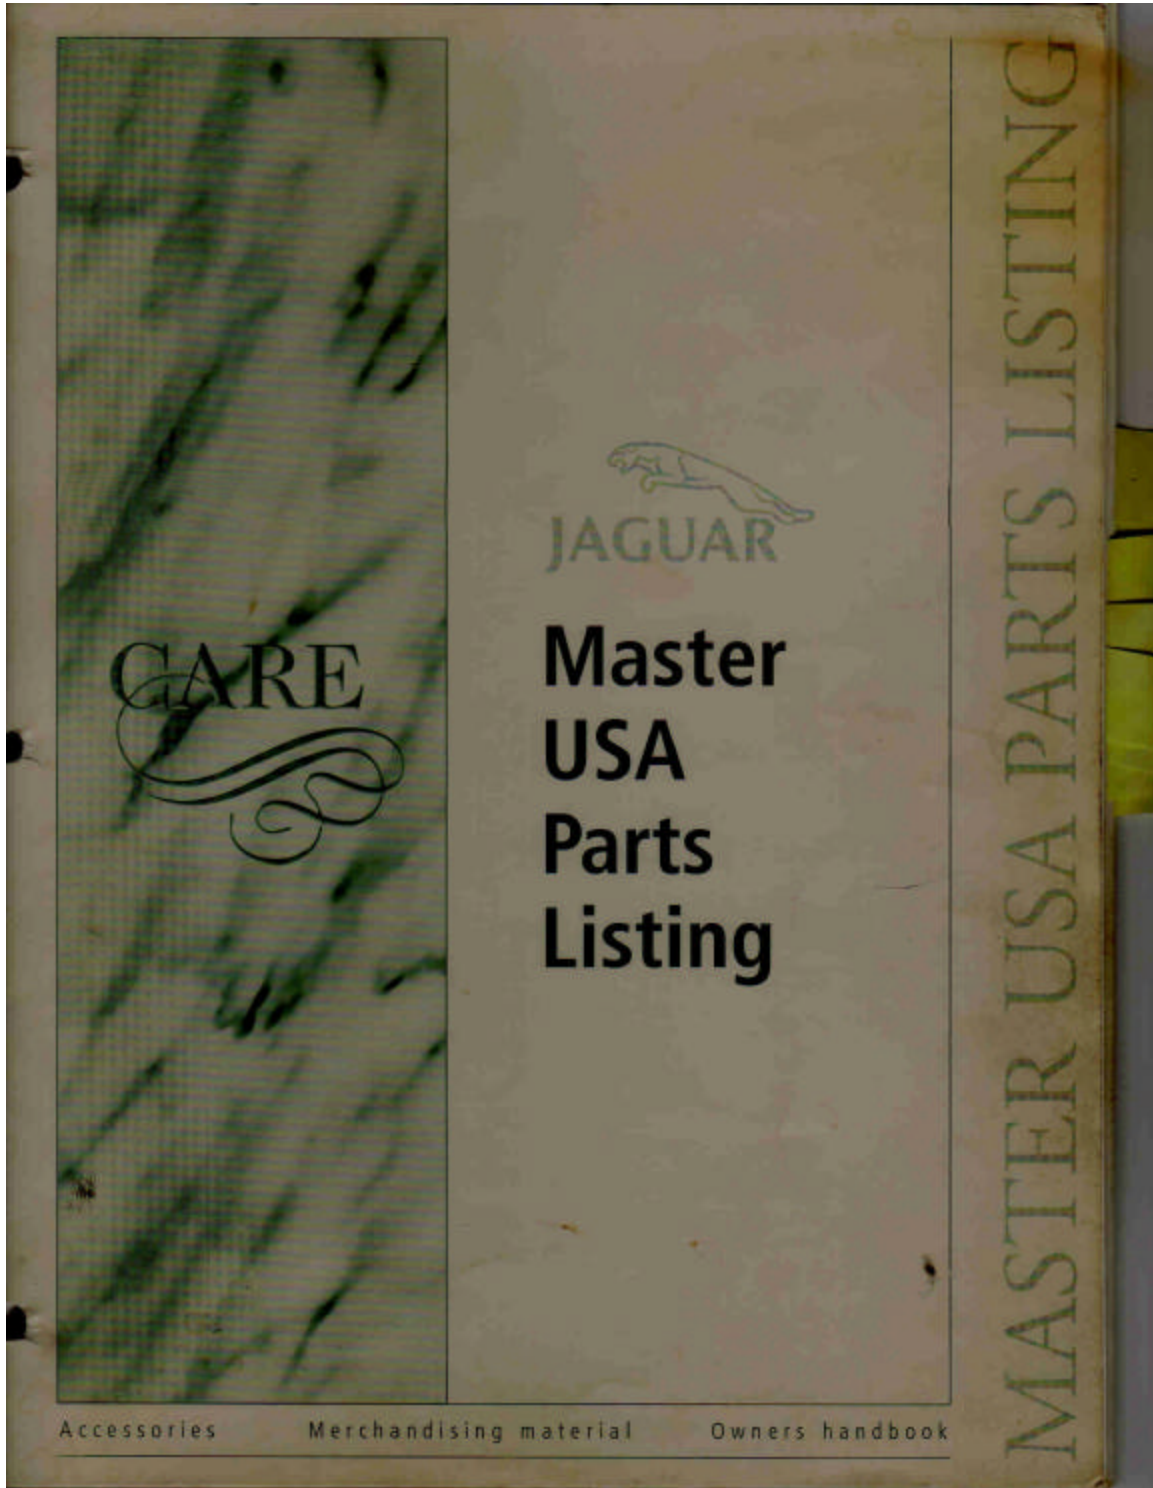

1. *JJ* Nov. 1985, p.83-84, “The XJ-S is now available with an optional sunroof.” And on page 84 there is a picture with a description and the last sentence says “The sunroof option is available as original equipment installed at a US port for \$1,300.00”
2. *JJ* March-April 1994, p.17, shows the accessories catalog that caused the trouble with the side molding in a full-page ad.
3. *JJ* Summer 1982, p.31, shows the accessory floor mats!
4. *JJ* July 1985, p.50, shows the new roof racks and states they are for 1976 onwards!

Document # 40 E-Jag Magazine Dec. 1985 vol. 12 no.12 p.9

While not an official publication they were on the “official” press release list at the time. This issue further confirms the XJ-S sunroof and links it to Hess and Eisenhardt. Furthermore, it confirms the existence of 2 “Burberry” XJ-Ss.

Document # 41 Jaguar Master Accessories Catalog JAG8950/00

This document is perhaps the most interesting and potentially valuable to JCNA Judges. It is some 55-pages long and covers items from early XJ-S and XJ6 up to the 2000 MY.

SUNROOFS

The following pictures are to help determine factory sunroofs from after market. Illustrated is a MK2 sliding roof (factory), a Webasto, and a US installed and US approved H+E sunroof.

SUNROOF NOW AVAILABLE

AS JAGUAR XJ-S OPTION

LEONIA, N.J. -- The Jaguar XJ-S, the sports coupe that blends a powerful V12 engine with classic Jaguar styling and elegance, is now available with a sunroof.

The new sunroof option reinforces the Jaguar XJ-S tradition of combining sportiness and luxury into a single package. Jaguar, which has the distinction of offering one of the most extensive standard equipment packages available on any luxury car, now offers the XJ-S sunroof as the only option, other than color.

The sunroof features an interior sunshade which is automatically retracted when the sunroof is opened. In addition, there is a tilt mode, which allows the driver to create the effect of open air without actually opening the sunroof.

Headroom loss has been kept to a minimum when a sunroof is installed. The sunroof option is available as original equipment installed at U.S. port-of-entry for \$1,300.

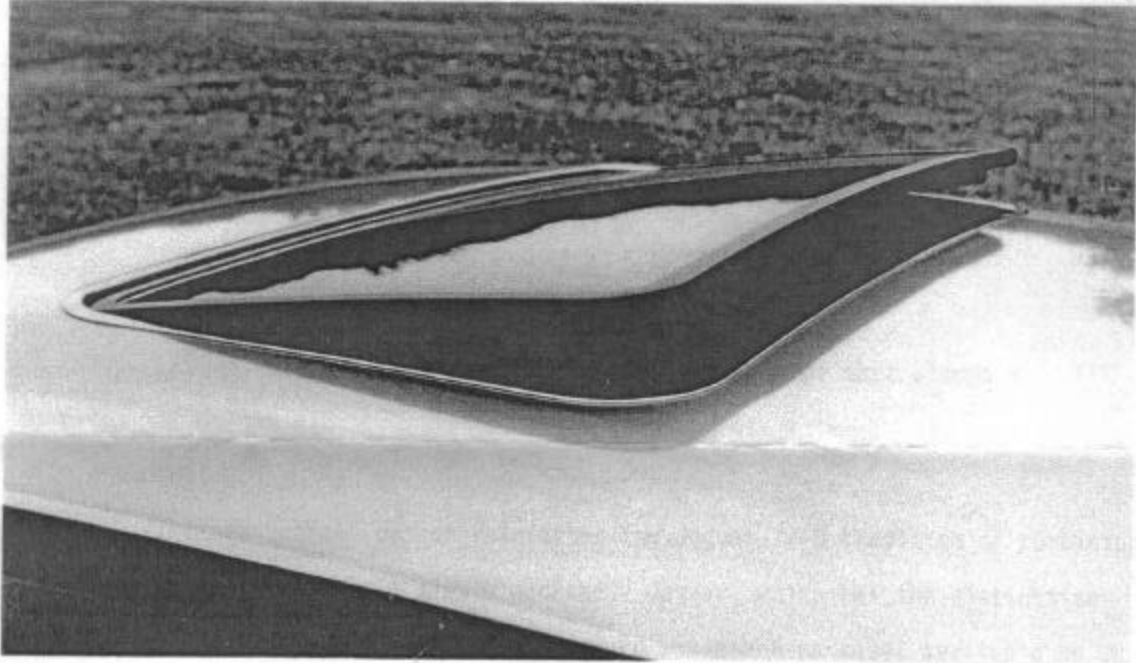

The XJ-S sports coupe is one of the most powerful production cars available in the U.S. It has a 5.3 litre (326 cubic inches) digital fuel injected single-overhead cam aluminum V12 engine, giving the car an awesome amount of well-controlled power.

The XJ-S is covered by Jaguar's 36-month, 36,000-mile warranty. Suggested retail price, P.O.E., is \$36,000. Transportation, dealer preparation and taxes are additional.
