Action:

The footers and other relevant references have been updated for 2014. Other than that, there are no changes for the 2014 Concours d'Elegance Competition Season.

Judges may, but do NOT have to, replace the inside cover sheet with the 2014 date on it.

History of the Jaguar Clubs of North America

JCNA Founding

The Jaguar Clubs of North America (JCNA), founded on January 16, 1958, exists to promote and encourage a spirit of mutual interest and assistance among owners of Jaguar automobiles, to assist in the formation of local Jaguar owners' clubs and to charter these groups, to provide a means for the exchange of information concerning Jaguar automobiles, and to publish periodic bulletins and magazines containing material of interest to members.

The objects and purposes of JCNA are to promote interest in motoring, foster and encourage a spirit of mutual interest and assistance in the acquisition and preservation of Jaguar automobiles among owners; to charter or otherwise enter into agreements with clubs or groups of Jaguar owners desiring to support the objectives and share in the benefits of the corporation by becoming a JCNA member group; to exchange recognition with other corporations, associations or groups in other countries that have similar objects and purposes; to promote enhanced driving standards and to encourage skillful driving on the public highways; to promote interest in motoring activities, classes, exhibitions, publications and motor sports related to the marque.

Club activities encouraged by JCNA include Concours d'Elegance, Road Rallies, Slaloms, Tours and Social meetings. All are at the option of the local club.

Jaguar Clubs of North America's Board of Directors adopted the following VISION and MISSION STATEMENTS in March 1994.

JCNA Vision Statement

The Jaguar Clubs of North America is the friendliest and best association of Jaguar enthusiasts fulfilling the needs and interests of the members.

JCNA Board Of Directors Mission Statement

The Board provides a structure for effective and efficient operation of the Jaguar Clubs of North America in finance, administration, and competition. It communicates effectively with the members.

History of the Rule Book

The complete history of the Rule Book can be found in the Concours section of the JCNA web site.

Members of the JCRC

Dick Cavicke

JCNA Chief Judge

Chair, Judge's Concours Rules Committee

Members of the JCRC:

Dick Cavicke, Chief Judge **Emeritus**, San Diego Jaguar Club, SW Region

Hal Kritzman, Chief Judge, Jaguar Club of Southern New England, NE Region

George Camp, Chief Judge, Jaguar Society of South Carolina, SE Region

Bob Stevenson, Chief Judge, Jaguar Affiliates Group of Michigan, NC Region

Rufus Coburn, Chief Judge, Jaguar Club of Austin, SC Region

Stew Cleave, Chief Judge **Pacific Jaguar Enthusiasts Group**, NW Region,

Steve Kennedy, Rule Book Editor, Rocky Mtn. Jaguar Club, SW Region

**2014 EDITION OF THE OFFICIAL
JCNA JUDGES' CONCOURS d'ELEGANCE RULE BOOK
SUPERSEDES ALL PREVIOUS EDITIONS**

Preface

The Rule Book is written for the enthusiast who is new to Jaguars as well as the seasoned Judge. Each chapter is written to a specific audience.

Chapter I is a guide based on the experience of many clubs' members within JCNA. It will help the individual Jaguar club put on a first-class Concours d'Elegance.

Chapter II covers rules specific to Entry eligibility, divisions, and classes.

Chapter III covers Judging methods, Judges' qualifications, Judges' meetings, Judges' Protocol **Scoring, and Reporting, etc.**

Chapter IV covers Entrant definition, responsibilities, and showmanship. Like other chapters, all information pertinent to the Entrant is presented in one location.

Chapter V is the Judges' Guide to Jaguar Evaluation and covers details on items to inspect while judging Jaguars. Following these guidelines will ensure that the judging teams deal fairly and knowledgeably with the Jaguars.

Chapter VI is the Judges' Guide for scoring Non-Authenticity. It gives excellent guidelines on how to assign the Non-Authentic deduction. It gives the required deductions for Non-Authentic items.

Appendices A, B, C, D & E contain information on production models, tire and wheel sizes, official publications for documenting authenticity, competition classes and factory optional accessories respectively. The Glossary can be referred to quickly clarify terms. Score sheets are included.

As the JCNA website has developed, more and more administrative tasks are being conducted electronically over the Internet, therefore, some forms that have accompanied previous editions of the Rule Book have been deleted. Concours Chairs and others needing forms, and not having Internet access, should contact:

Steve Kennedy, Rule Book Editor
8137 Zang Street
Arvada, CO 80005
303-489-3955
skennedy@jcna.com

These rules have been revised and approved, over the years, by club delegates at the Annual General Meetings (AGM). Beginning in 2003, new rules and/or rule changes were proposed by the Judges' Concours Rules Committee (JCRC) and ratified by the AGM delegates. New or revised rules adopted at an AGM become effective immediately only when passed by a 2/3 majority, (2004 AGM) otherwise they become effective the following year. Reintroduction of failed rule proposals is prohibited for three years. Members wishing to have rule changes considered at the AGM should first propose the change to their regional Judges' Concours Rule Book Committee representative for consideration. These representatives are listed on the JCNA website, www.jcna.com

Members wanting to have rule changes considered at the AGM should first propose the change to their regional Judges' Concours Rule Book Committee representative for consideration. These representatives are listed on the JCNA website, www.jcna.com. The form for presenting such requests is entitled **Request for Competition Rules Change Form** and is found in the Library section of the website.

Introduction

Concours d'Elegance, sponsored by the Jaguar Clubs of North America, Inc. (JCNA) have been operated from the beginning under rules established by the affiliated Clubs of Jaguar Clubs of North America, Inc. at their Annual General Meetings (AGM).

Rules and guidelines for judging in the JCNA sanctioned events have evolved over the last several decades by conscientious trial and error. They are not perfect by any means, but the JCNA Rules have set the owners of Jaguar automobiles on a correct course seeking originality and authenticity.

In order to promote uniformity of judging at JCNA sanctioned Concours d'Elegance, to offer organizational advice to Concours Chairpersons throughout North America, and to make the JCNA Official Concours d'Elegance Rules available in written form to all Jaguar enthusiasts, the 1975 JCNA Concours Committee compiled the first edition of this Rule Book.

Only the most current edition of the Rule Book is to be used in operating and judging any JCNA Sanctioned Concours. The rules are mandatory for all events leading to the North American JCNA Concours d'Elegance Division Championships.

Have a good Concours year,
Dick Maury, *2014 JCNA President*

Chapter I. Organizing a Concours d'Elegance

A. GENERAL

1. Purpose

The foremost purpose of the JCNA Concours is to encourage the owners of Jaguars to preserve, maintain, and present their Jaguars in as clean and authentic condition as possible (see Chapter II for exceptions to authenticity in Special Division Classes). A secondary purpose is to celebrate all Jaguars and their owners by creating an event where people may share all degrees of interest in owning, driving, maintaining, and restoring Jaguars.

2. Concours Year

The JCNA Concours year runs from January 1st through November 30th.

3. Number of Concours per Year

Each JCNA affiliated Jaguar club that has met JCNA judges' training and certification prerequisites may hold only **ONE JCNA** sanctioned Concours d'Elegance per year.

4. Regional Concours per Year

One sanctioned JCNA Regional or Joint Regional Concours may be held in each Region or Joint Region per year without affecting the host club's **ONE** per year rule or the sanctioning of another affiliate's Concours.

5. Concours d'Elegance Divisions

In order for scores to be eligible for annual JCNA Concours Standings, Champion Division, Special Division, and Driven Division competition must be offered at each Concours.

B. SELECTING THE DATE AND OBTAINING SANCTION

1. Selecting the Concours Date

The Concours Chair should carefully choose the date as far in advance as practical. Normally a Saturday or Sunday is best. Saturdays have become popular in recent years, often with an awards banquet in the evening and, occasionally, a rally or slalom on Sunday after the Concours.

2. Avoiding Local Conflicts

Investigate other activities in the immediate area to determine that the date requested will not conflict with other popular local events. Some clubs have been very successful tying their Concours in with other local car related events or local festivals.

3. Obtaining a Sanction

To obtain a sanction, go to the "Calendar Page" of www.jcna.com click on the "Login" link at the top of the page. Using your club number and password, access the "Club Page Main Menu" and follow the instructions to "Post new events in the Calendar and Request New Event Sanction".

The request may be submitted within one (1) year but no less than four (4) months prior to the requested Concours date. This avoids conflict with other clubs and ensures notice of the Concours will be listed as promptly as possible in the *Jaguar Journal's* Clubs Calendar.

Sanction will be granted on requested date subject to:

Priority of request

- a. No same-weekend conflict within the JCNA Region or within 200 miles of other JCNA Concours meets.
- b. No conflict within 14 days of a JCNA major event i.e., Regional Concours such as Western States and Challenge Championship.
- c. The listing of the Chief Judge and club's affirmation that JCNA Concours rules and requirements will govern.
- d. Concours sanctions requested will **only** be granted if the requesting club's JCNA online Judge Roster/List verifies that, it **currently** has listed a Chief Judge, an active Judge Training Program and 5 or more , **beginning in 2014, eight (8)** or more Certified Judges in order to meet or exceed the (2012) JCNA requirement for at least 1-Certified Judge per **Driven Division** Judging Team **and two Certified Judges per team for Champion and Special Divisions.** (See the online sanction request instructions for additional information.) (2013 AGM)

Conflicts will be referred to the appropriate Regional Directors. Avoid commitments involving financial penalties until a sanction is granted.

4. Canceling/Rescheduling the Concours

It is preferable to make the date of the Concours firm. If the Concours must be canceled and rescheduled, it is imperative that the JCNA Regional Directors be notified. Thereafter, a new sanction must be requested through the JCNA Website again taking precaution to avoid conflict with other Concours or a major JCNA event in the Region.

C. LOCATION OF THE CONCOURS D'ELEGANCE

1. Concours Sites

- a. National, State or local parks
- b. Historical sites, such as, stately homes with extensive grounds
- c. Museums or restoration complexes
- d. Hotel, motel, or resort complexes, with a central area for staging events, offering restaurant and banquet facilities
- e. Expositions or local festivals and celebrations

2. Amenities and Facilities to Look For

a. Central Location

Centralize efforts by operating out of one location or a Concours site combined with lodging and restaurants within a reasonable distance

b. Shade & Grass

For people and Entries

c. Water

For washing Entries

d. Food

Available during Concours hours; either a restaurant on or near the Concours site or catered

e. Rain Shelter

In case of rain

f. Rest Rooms

Clean restroom facilities nearby

g. Trash Receptacles

D. JAGUAR CARS NORTH AMERICA SPONSORSHIP

Jaguar Cars, Inc. values the contribution that the JCNA and its affiliates make toward increasing public awareness of the Jaguar marque. The Jaguar Cars North America Sponsorship application form is available on the Concours Page of www.jcna.com. **The application deadline is February 28th.** Should Jaguar Cars Inc. favor your activity with their support, it is important to provide feedback, proper thanks, and evidence showing that their funds were “money well spent”. Download the form and follow the instructions.

E. INSURANCE

Jaguar Clubs of North America, Inc. purchases, as an element of JCNA membership, a blanket coverage for the Corporation, its officers, its members, and all affiliated clubs' officers and members covering General Liability.

Jaguars entered in a sanctioned JCNA Concours d'Elegance must be covered by a current standard motor vehicle liability insurance policy. Each Concours Registration Form shall have a "Release of Liability" statement signed by the Entrant.

Example:

RELEASE OF LIABILITY

JCNA Event Participation: It is an Entrant's privilege to participate in any JCNA sanctioned event held by any JCNA affiliate upon executing proper registration forms and paying published entrance fees. Each affiliate shall be solely responsible for granting entry privileges to each Entrant on an individual basis.

I hereby agree to enter the above described Jaguar(s) in the (*Name of Concours*) Concours d'Elegance. In consideration of the right and privilege to enter and participate and other valuable consideration, and intending to be legally bound, I agree to release the Jaguar Clubs of North America, Inc., (*Host Club Name*) and the Concours d'Elegance committee from any and all liability for injuries, damage, or loss arising from my entry and attendance in the Concours.

Signature of Entrant _____ Date _____

(If the Entrant is not a JCNA Member, then the Special Event Member Registration Form must be filled out and sent to JCNA along with a check for \$5.00.)

You may either incorporate the above statement in your registration form or, for your convenience, you may go to the “Concours Page of www.jcna.com and download the “Entrant Registration Form”, which contains the Release of Liability, and have each Entrant sign.

Clubs using another statement should clear it with the JCNA General Counsel.

A "Request for a Certificate of Insurance" form is also available for downloading by going to the Concours Page” of www.jcna.com and clicking on “Certificate of Insurance”. This form is to be used when there is a requirement by the Concours site owner, or other entity, to furnish a "Certificate of Insurance.” Complete details are included on the form.

SANCTIONED EVENT NON-MEMBER REGISTRATION FORM

Non-JCNA members are permitted to participate in JCNA Sanctioned Events upon executing the Sanctioned Event Non-Member Registration Form, paying the Non-Member Event Membership fee, completing the event’s regular Registration Forms and paying the entry fees. The Sanctioned Event Non-Member Registration Form is available on the “Concours Page” of www.jcna.com.

At the host club's discretion, Non-JCNA members may be awarded JCNA trophies. However, their scores will not count towards Regional or North American championship points.

F. PUBLICITY

1. Host Club Announcements

a. Include:

Date, time, place, registration deadline, entrance fee, and a statement that JCNA Concours d'Elegance Rules will govern. Include an Entry Form listing Champion, Special, and Driven Division Concours Classes and a statement that Driven Division Entries less than 35 years old may not be trailered.

b. Social Activities:

Information on social activities such as reception parties, awards banquets, etc.

c. Travel Information:

Information on travel; maps of the immediate area, lists of available lodging and prices (including addresses and telephone numbers)

d. Parking

Information on general parking facilities, trailer off-loading and trailer and motor home parking

2. Publicity through JCNA

a. Contact Regional Clubs

Send Concours announcements and registration forms to all JCNA affiliated clubs in the Region and nearby affiliated clubs in other Regions. Addresses can be found by visiting the "Club List Page" of www.jcna.com and clicking on the club name, when the club page appears click on "Club Officers and Contact Info".

b. Distribute Flyers

Distribute flyers at local club activities and at neighboring JCNA club activities.

c. Publicity through the JCNA Website and *Jaguar Journal*

Sanctioned events are automatically posted on the JCNA Website and listed in the next possible issue of the *Jaguar Journal* on its Club Calendar Page

d. *Jaguar Journal* Concours Articles

Concours articles should be sent to the *Jaguar Journal* a minimum of four months prior to the Concours itself. Follow-up articles and photos should be sent immediately following the Concours. *Jaguar Journal* can be accessed through the *Jaguar Journal* page of www.jcna.com.

3. Newspapers

A news release featuring the basic journalistic "Who, what, when, why, where," plus day and evening telephone numbers to call for additional information, should be sent at least three weeks prior to the Concours to the managing editor or sports editor of the local newspaper(s).

4. Radio

Most local stations have a free public service announcement policy. Inquire if there is a specific form to be filled out and sent in. Send the Concours announcement to the station manager at least three weeks prior to the date.

5. Automotive Media

Magazines (both weekly and monthly) may present publicity opportunities that should be investigated; each publication will have its own policy and deadline for announcement inclusion; some will be free, others will require a fee. It is up to each club to decide if this type of publicity is worthwhile.

6. Local Automobile Related

a. Local Parts Houses

Flyers can be left at local parts houses and auto dealerships (especially the local Jaguar dealer).

b. Multi-make Sports Car Clubs

Announcements can also be made through local multi-make sports car clubs, in person at a meeting, or by passing out flyers.

c. Repair Facilities

Local service stations or shops specializing in repair of foreign cars will sometimes welcome flyers.

G. OPERATING THE CONCOURS D'ELEGANCE

1. The Concours Chair and the Chief Judge

The Concours Chair is in charge of overseeing every Concours detail including choosing the site, ordering trophies, and selecting, organizing and coordinating all committees and personnel, except the Chief Judge. The Chief Judge is responsible for all matters dealing with Concours judging including preparing a Judging Schedule, scrutinizing score sheets, validating and posting scores on *www.jcna.com*, and mailing score sheets to the Entrants. It is imperative that the Concours Chair and Chief Judge work well together.

2. The Concours Chair's Personnel (minimum suggested)

a. Publicity

Oversees advance publicity arrangements

b. Entertainment

Plans entertainment that may include a pre-Concours party and post-Concours banquet

c. Set-up Crew

Arrives **early** to mark parking spots and access lanes, to place tables and chairs, erect canopies and signs, position sound system, etc.

d. Registration

In charge of registration and handing out registration packets to pre-registered Entries. Responsible for registering day of Concours Entries if allowed, and ensuring that they receive their blank score sheets and any other associated paperwork. Must coordinate with the Chief Judge so that the Chief Judge can assign proper judges to the Entries

e. Parking

Directs incoming Entrants to their proper places

f. Hospitality (Optional)

Provides coffee, doughnuts, water, etc. as appropriate for early Entrants and Concours helpers

g. General Personnel

Plan for people who can be called on for any other duties (the plan B People)

h. Stay Late/Clean-up Crew

Willingly stays on site as long as required to disassemble and remove all equipment associated with the event, to pick up and properly dispose of all trash and to properly secure/close the site as required

3. The Chief Judge's Personnel (suggested)

a. Judges

See Chapter III, Instructions and General Rules for the Judge. It is best to use as many Certified Judges as possible. Using qualified Judges from other JCNA clubs adds to an atmosphere of impartiality.

b. Chief Judge's Assistant

When assigned by the Chief Judge, the Chief Judge's Assistant helps the Chief Judge assure that judges have pencils and current rulebooks or clip boards (rulebooks in three ring binders with binder clips eliminate the need for clipboards) and other duties as assigned.

c. Scrutineers

Select one or two people, depending on the size of the Concours, to act as Scrutineers. The Scrutineers ascertain that the score sheets registration information is completed correctly. The Scrutineers then check each score sheet to ensure each box contains a Judge's entry and the entry is within the specified deduction range. If an Entry has received a non-authentic deduction, the Scrutineers must ascertain that the Entrant has initialed each such deduction.

If the Scrutineers find any discrepancy or any questionable or illegible figures, the score sheet(s) will be returned it to the Judge(s) responsible for clarification or correction.

d. Score Sheet Runners

Assign each Judging Team a Score Sheet Runner; this is a good way to get children and spouses involved in the Concours. Score sheet runners transport the completed sheets between the Judging Teams and the Scrutineers.

e. Scoring Personnel

Select at least three or more non-mathematically challenged people. Find an isolated area where the Scorers can concentrate on tabulating the score sheets.

4. Site Layout

a. Visit the Site

The Concours Chair and the person in charge of parking should visit the Concours site shortly before the Concours date in order to walk the areas and decide how the various Divisions and Classes should be arranged.

b. Determine Class Size

Determine the largest Classes and the smallest Classes of Jaguars in the Concours. Allow ample room for all, including late registrations if allowed. Look at past records to see which classes were well filled.

c. Formal Site Layout

When planning the site layout, allow room between Entries for maneuverability, stowage of personal gear, and simultaneous door opening of the Entry and adjacent Entries.

d. Informal Site Layout

In informal settings, Classes might be grouped to take advantage of shade and the contour of the landscape. Driven, Special, and Championship Division Entries of the same Class are always best grouped together.

e. Sprinkler Head Marking and Shut-off

With or without assistance from the site custodian, in-ground sprinkler heads should be located and marked in order to avoid having them run over and damaging either the sprinkler or the Entry. Positive arrangements should be made to assure that the sprinkler or other irrigation systems will not be operated on the day of the concours, or at any time immediately prior, that would result in the field being soft or muddy.

f. Drive Jaguar to Judging Area

Area size and safety considerations permitting, an interesting site layout is one where the Entries are parked by class and, when called, are driven to a central judging area. This arrangement allows the Judges to work without spectator hindrance and also provides a visible confirmation of the Jaguar's operability.

H. REGISTRATION

1. JCNA Event Manager Computer Program

A program designed to automate the JCNA Concours Registration process is available on the Concours Page of www.jcna.com. Among other features, this program will print registration forms and score sheets with all Entrant and Entry information preprinted. Follow the instructions found on the website when downloading this program. Use of the program is not mandatory, but many report it greatly reduces the time required to administer the JCNA Concours.

2. Registration Form Requirements

Registration forms must clearly state that JCNA Concours Rules will govern. Registration forms must include a space for the JCNA member's membership number and Release of Liability form. A list of the Classes in Champion, Special, and Driven Divisions must also be included on or attached to the registration form (see Appendix D).

3. Encourage Pre-Registration

Encourage as many Entrants as possible to pre-register. As an inducement, a slightly lower fee might be offered to pre-registrants. Pre-registration cuts down on a great deal of paperwork on the day of the Concours.

4. Registration Deadlines

If the Registration deadline is in advance of the date of the event, it should be clearly indicated on all Concours publicity. If on-site registration is allowed, a specific entry cut-off time, in advance of judging, should be established, after which, NO further entries can be allowed. Entries should not be added to Classes after judging has commenced. It is the Entrant's responsibility to be aware of, and adhere to, the published Registration deadline. The Chief Judge has final authority in special circumstances.

5. On-Site Entry Registration

If allowed, those registering on the day of the Concours will be required to complete the appropriate registration forms. It is advisable for registration personnel to assist the on-site Entrants in completely filling in the required information at the top of the score sheets. Entrants in a rush often make mistakes or leave out vital information.

6. Entrant's JCNA Membership Number

The Entrant must list his/her JCNA Membership Number on the registration form in order to qualify for North American Standings. JCNA Numbers will be required when posting scores on the JCNA website.

7. Entrant's Packet

For each pre-registrant prepare an envelope containing:

- Windscreen Placard
- Score Sheets
- General guidance for Entrants who may be new to Concours or not aware of new rules
- Dash Plaques (optional)
- People's or Entrant's Choice ballots (optional)
- Other items (optional)

The envelopes can then be alphabetized and handed out when the pre-registered Entrants check in at Registration.

a. Windscreen Placard

Provide a windscreen placard to identify each Entry. If not using the JCNA Event Manager, these forms are available in PDF and interactive Word[®] formats on the Concours Page at ww.jcna.com. The windscreen placard identifies the Entry, Class, and Entrant. If different colored score sheets are being used to distinguish between the Divisions, windscreen placards may be color coordinated as well.

b. Score Sheets

If not using the JCNA Event Manager, score sheets may be downloaded by going to the “Concours Page” of www.jcna.com. Each of the four (4) score sheets must be downloaded and printed individually. Clubs are authorized to reproduce the quantity of score sheets required for their Concours. Different colored sets of score sheets may be used to distinguish between Divisions. Sheet #4 (Engine Compartment) and the Boot portion of Sheet #3 are not required for judging Driven Division.

When preparing score sheets for use with a specific Entry, be certain that the Maximum Deduction columns on Score Sheet #2 NOT APPLICABLE TO THE PARTICULAR ENTRY have a diagonal line drawn through them, to prevent inadvertent judging in the wrong column.

I. CONDUCTING THE CONCOURS

1. Working Groups

Working groups, including the Concours Chair and the designated Set-up Crew, should arrive at the Concours site approximately an hour and a half before the stated opening time of registration.

2. Class Areas

Predetermined Class areas should be identified with Class signs. A lime base line or a string line will help align the various classes as they arrive.

3. Registration Area

A convenient registration area should be set up near the entrance to the Concours field. Be sure all necessary forms and scoring supplies are available. If sufficient room is available, trophies may be displayed. If late registrations are allowed, have enough money on hand to make change for Entrants paying cash. Be sure to bring a cash box.

4. Loud Speaker/Announcing System

Provide a means of making announcements and paging personnel in order that all present are aware of what's happening. A variety of portable systems are available to rent or purchase.

5. Parking Personnel

Parking personnel should be on hand to safely guide Entrants to their proper Class parking area and to assist in achieving the desired spacing and alignment of Entries.

6. Rags Down

All Entrants must be instructed by the Chief Judge to cease preparation of Entries at a predetermined, published time, referred to as "rags down," before judging begins.

7. Leaving the Concours Site

The Clean-up Crew and the Concours Chair should be the last committee to leave the Concours site, to check for any equipment left behind and to be very particular about cleaning up the area before departing. Many sites require substantial user deposits, which may not be refunded if the area is abused or left cluttered. Make every effort to have your club regarded as one that treated the site with respect and one that would be welcomed back again

J. TROPHIES

1. Official JCNA Trophies

JCNA offers official trophies for JCNA sanctioned Concours in Champion, Special, and Driven Divisions.

a. Ordering Trophies

Order Trophies by going to the "Concours Page" of www.jcna.com and clicking on "Trophy Orders". Follow the Instructions! First, second, and third place Champion and Special Division winners are awarded Champion Division Trophies. First, second, and third place Driven Division winners are awarded Driven Division Trophies.

b. Trophy Engraving

Engraving is not available through JCNA

2. Presenting Trophies

When presenting trophies, it is more suspenseful and interesting to begin announcing the finishing positions from the bottom of the Class first, reading upward to the winner. In good taste, it is recommended that scores of the lower place entries not be read. It is informative and courteous to spectators if, as each class is announced, the models included in the class are announced as well.

As the presenter reaches the top three Jaguars in the Class, the scores should be announced individually and the winning Entrant(s) invited to come forward to receive their trophies and perhaps be photographed.

In order to show appreciation for the Entrant's participation, and possibly the support of a neighboring club, it is recommended that the presenter's announcement include: the placement, the Entrant's name, (if from out of area, the Entrant's city), the Entrant's home club, the car's color, the year, the model, the body style, and the score.

Example: “**Third** place in **Champion Division, Class 2**, goes to **Happy Fellow** from **Scottsdale, Arizona** and the **Central Arizona Jaguar Club**, for his **red, 1950 XK 120 OTS**, with a score of **99.79**.”

3. Club Discretionary Trophies

Additional locally prepared trophies may be provided at the Club's discretion; some Clubs present perpetual trophies, i.e. the trophy (sometimes engraved with the name of the yearly recipient) returns to the club for re-presentation each year.

Clubs may also present trophies (of their own design and at their own expense) in recognition of accomplishments such as:

- Best in Show
- Longest Distance Driven To Compete
- Longest Distance Trailered To Compete
- Oldest Jaguar in Show
- Hard Luck (En Route Damage)
- Display
- Peoples' Choice
- Other

Chapter II.
Entry Eligibility, Awards, Divisions, and Classes

SECTION 1 - GENERAL

A. ENTRY REQUIREMENTS AND ELIGIBILITY

1. "Jaguar" Definition

"Jaguar" is any authorized passenger or race prepared vehicle originally assembled, or modified, at either the Jaguar Cars Works or a Works authorized assembly plant. Subject to the following rules, all Jaguars are eligible.

2. Swallow Bodied Chassis, S.S., & Jaguar Cars

"Jaguar" is used to refer to all models built by the original companies that evolved into Jaguar Cars (Appendix A).

3. Daimlers

Only 1962-On Daimler motorcars, manufactured by Jaguar, sharing production Jaguar bodies and correct engines are eligible. Jaguar engined Daimlers, without production Jaguar bodies, are eligible for Special Division Class S3. Daimler SP250s are NOT eligible.

4. Engine Requirements

All Jaguars, entered for judging in JCNA Concours, must have Jaguar engines installed. Driven Division Jaguars must have Jaguar engines that were available from the factory for that particular model, e.g. Entries originally equipped with 6 cylinder engines should not have 8 or 12 cylinder engines. Likewise, the 1960's Daimler 2.5 Liter V8 engine must be present in all Daimlers so originally equipped.

5. Horn and Light Requirements

a. Entries in Champion, and Driven Division and Special Division Classes S1 and S4 must have horns and exterior lights in the numbers and positions as originally configured. At the Entrant's discretion, lights offered as optional equipment for the specific model, may be added. Horns and all exterior lights must operate as intended.

b. If horns and lights are present on S2 Entries, they must operate.

c. Special Division Class S3, Modified, must be equipped with functional horns, headlights, tail lights, brake lights, parking lights, license plate lights, back-up lights and turn signals appropriate to the vintage.

6. Entries to be Driven to their Assigned Parking Positions

Trailing to the Concours venue is allowed for all Champion and Special Division Entries and for certain Driven Division Entries. The Chief Judge or his designees must confirm that all Entries are driven, under their own power, to their assigned parking positions in the judging area – the objective is to simply prove/observe that the Entry runs and is drivable, i.e. entries shall not be trailered directly to their assigned parking positions and off-loaded. Entries not meeting this rule are ineligible for the day's Concours Competition and shall not be judged.

7. Handicap Points

No handicap points are awarded for the Entry's (or Entrant's) age, the odometer reading, or the mileage driven to a Concours.

8. Division Crossover

An Entrant may choose to "crossover," that is, to place the same Entry in a different Division during a given year. However, scores earned by an Entry in one Division become invalid for year-end championship points upon transferring that Entry to another Division.

9. Incapacitated Entrant

During the Concours Season, if, for any reason, an Entrant becomes unable to present an Entry, an immediate family member may register and present the Entry using the Entrant's Name and JCNA Number. Under such circumstances, all scores received by the Entry, during that season, would count toward Regional and North American Championships in the Entrant's name.

10. Entry Ownership Change

If an Entry's ownership changes during the Concours Season, scores earned by a previous Entrant are NON-TRANSFERABLE to a new Entrant. Theoretically, this could result in an Entry receiving awards under the ownership of more than one Entrant, in a single Concours Season.

11. Award Eligibility

A single Entry in a class is eligible for a trophy. Entries in all classes will compete for first, second, and third place trophies in accordance with their Division Scoring Plateaus.

12. Unofficial Awards

At the host club's discretion, "People's Choice", "Best in Show", "Best First Time Out", or similar awards may be given.

B. CONCOURS AWARDS AND DIVISIONS

1. North American Awards

At the conclusion of each JCNA Concours year, JCNA presents the North American Concours d'Elegance Awards three deep, in each of the Champion, Special, and Driven Division Classes, to members of JCNA affiliates or JCNA Members-at-Large. These annual awards are determined by averaging the Entrant's three (3) highest scores during the Concours year. Scores achieved at the JCNA Challenge Championship or Western States qualify for inclusion in the three (3) score average. **Entries competed in three or more JCNA concours automatically become eligible for a North American award in their particular Division and Class. If an Entry's three (3) highest score average does not position it among the top three places of its class, then the Entrant's highest two (2) scores will be evaluated for a Regional Award as per section 2.** (2013 AGM)

No Entrant may enter the same vehicle in more than one class at a JCNA Concours. (2013 AGM)

2. Regional Awards

Regional Awards are presented in each of the six JCNA Regions. These annual awards are determined by averaging the Entrant's two (2) highest scores achieved at JCNA sanctioned concours within the Entrant's home region during the Concours year. Scores achieved at the JCNA Challenge Championship or Western States qualify for inclusion in the two (2) score average. (2013 AGM)

3. The Official Concours Divisions

Each sanctioned JCNA Concours d'Elegance will provide for Entries in Champion Division, Driven Division, and Special Division Classes.

4. Unofficial Divisions

"Display-only" is not an official JCNA Concours Division. It is a classification given to those Jaguars voluntarily positioned for viewing as pre-planned part of the event. This type of participation is promoted to both add to the number and variety of Jaguars being shown and to encourage future Concours entries.

SECTION 2 - CHAMPION DIVISION

A. CHAMPION DIVISION GENERAL SPIRIT

Champion Division is the most demanding JCNA Concours Division. It challenges its Entrants to research, prepare, and present the judged portions of their cars in their original, authentic, factory-delivered configuration, and condition (see Chapter VI for allowable exceptions). All Entries in Champion Division will have their interiors, exteriors, engine compartments, and boots judged for authenticity, condition, and cleanliness.

B. CHAMPION DIVISION CLASSES

- C1A: Classics (Pre-XK engine) Tourer and OTS: Swallow, SS & SS Jaguar (1927-51)
- C1B: Classics (Pre-XK engine) DHC and Saloons: Swallow, SS & SS Jaguar (1927-51)
- C2: XK 120 (1948-54)
- C3: XK 140 (1955-57)
- C4: XK 150 (1957-61)
- C5: E-Types, Series 1 (1961-67)
- C6: E-Types, Series 1.5 (1968) and Series 2 E-Types (1968-71)
- C7: E-Types, Series 3 (1971-75)
- C8: Early Large Saloons: MK VII, MK VIII, MK IX, MK 10, 420G, (1950-70)
- C9: Early Small Saloons: MK 1 (2.4 & 3.4), MK 2 Series (2.4, 3.4, 3.8 liter, Daimler V8), 240, 340; S-Type 3.4S, 3.8S, & Jaguar and Daimler 420 (1955-69)
- C10: XJ6/12 Series 1 Saloons (1968-73) **Note 1**
- C11: XJ6/12 Series 2 Saloons and Coupes (1973-79) **Note 1**
- C12: Series III XJ6, XJ6 Sovereign and XJ6 VDP (1979-87); Series III V12 and V12 VDP (1979-92) **Note 1**
- C13: XJ6 (XJ40) Sedans (1987-94), XJ12 (XJ40) (1993-94); XJ6/12/R, (X300) (1995-97) **Note 1**
- C14: XJ8/R Sedans (X308) (1998-2003), XJ8/R Sedans (X350 Alloy) (2004- 2009) **Note 1**
- C15A: XJ-S/SC (1976 - 1991 Pre-Facelift) Coupe, Cabriolet, H&E Convertible, Convertible, XJR-S Le Mans, XJR-S Jaguar Sport.
- C15B: XJS (1991 - 1996 Facelift) Coupe, Convertible, XJR-S Jaguar Sport.
- C16A: XK8 Coupe and Conv. (1996-2006), XKR (1999-2006)
- C16B: XK and XKR Coupe and Conv. (2007-On)
- C17: S-TYPE Sedans (1999-2008)
- C18: X-TYPE Sedans and Estate Wagon (2002-2008)
- C19A: Preservation Class (more than 35 years old)
- C19B: Preservation Class (20 to 35 years old)
- C20: XF Sedans (2008-On)
- C21: XJ Sedan (2010 [as 2011 model year] – On)
- C22: F-TYPE (2013-On) (2013 AGM)**

Note 1: Majestic, Daimler, Daimler Double Six, Daimler Sovereign, and Daimler Majestic models are eligible for Champion Division Classes 10, 11, 12, and 13 according to their years, engines, and body styles.

C. PRESERVATION CLASS REQUIREMENTS

1. Entry Age

Preservation Class is for unrestored or near original Entries over 20 years old, well prepared, and in good to excellent condition. Class entry is to be the Entrant's choice.

2. Proof of Originality

In order to validate a Preservation Class Entry's original exterior and interior colors, plus other unique equipment or configuration, the Entrant is required to present the judges a copy of the vehicle's Jaguar Daimler Heritage Trust (JDHT) or Jaguar Heritage Trust (JHT) Certificate.

These certificates are available through the Jaguar Cars Archives, 555 MacArthur Blvd., Mahwah, NJ 07430. Additional requirements and fees associated with the certificates are available in the "Library" section of *www.jcna.com*. (2013 AGM)

3. Vehicle Evaluation and Deductions

Preservation Class Entries shall be judged as all other Champion Division Entries, that is, on the basis of authenticity, condition, and cleanliness, except, restored or reconditioned items will be assessed "non-authentic, wrong, missing, or incorrect" point deductions.

- a. Deductions made for restored or reconditioned items shall not exceed the total Non-Authentic points allowed for the category.
- b. The restored or reconditioned status of any component is limited to the Judge's opinion and shall not require any discussion with, nor initialing by, the Entrant.
- c. Deductions for restored items apply only to this Class. Non-Authentic items will be treated as in other Champion Division Classes. A restored or reconditioned item, found to also be non-authentic, shall be assessed a single "non-authentic, wrong, missing, or incorrect" point deduction.
- d. Deductions should not be made for judged engine-driven and electric motor-driven components that have been replaced with authentic items. (2013 AGM)

4. Preservation Class Championship Eligibility

Preservation Class Entrants are eligible for North American and Regional Championship competition.

5. Preservation Class Protests

Deductions for restored components are based on judgment alone and may not be protested. Protests regarding non-authenticity deductions are allowed as in other Champion Division Classes.

D. CHAMPION DIVISION SCORING

1. Score Sheet Calculations

The 1000-point score sheet permits points to be deducted for areas not up to standard. The total is to be divided by 10 for the competing score; 100 points would be a "Perfect" Champion Division Entry.

2. Champion Division Scoring Plateaus

The following scores are required in order to qualify for a Champion Division Class, first, second, or third place award.

First Place Award, **90.00** points, minimum

Second Place Award, **80.00** points, minimum

Third Place Award, **70.00** points, minimum

SECTION 3 - DRIVEN DIVISION

A. DRIVEN DIVISION GENERAL SPIRIT

Driven Division also challenges its Entrants to research prepare, and present their Entries in their original, authentic, factory-delivered configuration and condition. However, Driven Division is for Jaguars that, regardless of age, are in regular use. In consideration of this usage, Driven Division Entries do not have their engine compartments or boots judged and certain convenience and safety-related authenticity exceptions are allowed. The exteriors and interiors of Driven Division Entries are judged to the same standard as Champion Division. Driven Division Entries are encouraged to be driven under their own power from their normal place of garaging to the concours site and return. Towing or trailering is allowed for 35-year and older Entries.

Authenticity Exceptions

Driven Division Entries are allowed certain authenticity exceptions without penalty. No other items qualify for this exception!

1. **Tires** - Any type or profile tires, of original inside diameter, are acceptable. Road tires must be of matching size, type, and make/brand.

Note: This exception is made for those drivers of early Jaguars who prefer the handling characteristics and superior construction of contemporary tires.

2. **Wire Wheels** - Wide wire wheels are acceptable. Hub style, diameter and spoke count must be as original. All road wheels must match.

Note: This exception is made to safely accommodate contemporary size tires.

3. **Alloy Wheels** - XJ6/12, XJS and XK8 factory-supplied alloy wheels, appropriate for the specific model, may be chrome plated or polished. All road wheels must match.

Note: This exception recognizes that many new car buyers believed that their Jaguar's chrome or polished alloy wheels had been provided by the factory when, in fact, the dealers had altered the original factory finish prior to offering the cars for sale.

4. **Radios, Tape, and CD Players** - Contemporary radios, tape, or CD players installed in the original radio mounting space, utilizing the original speaker locations and external housings.

Note: This exception is made to allow the frequent driver the option of a modern system with improved audio, capable of playing tapes, CD's, or the media du jour.

5. **Aftermarket Window Tinting** - Shiny or mirrored tinting, graphics or logos in the tinting, tinted film on the front windscreen or excessively dark tinting shall receive deductions as non-authentic. The tint should allow the interior of the vehicle to be clearly visible when looking in from approximately one foot away. Flaws in the tinting, such as bubbles, trapped material or damage, shall receive deductions similar to glass defects.
6. **Luggage Racks** - Either factory or appropriate vintage after-market racks are allowed. All racks must be neatly mounted in the prescribed location on the vehicle.
7. **License Plate Frames** - Any allowed; i.e. only judged for cleanliness and condition.

B. DRIVEN DIVISION CLASSES

- D1: All Classics (Pre-XK engine) and XK 120, XK 140, XK 150
 D2: E-Types (1961-67)
 D3: E-Types Series 1.5 (1968) and Series 2 E-Types (1968-71)
 D4: Series 3 E-Types (1971-75)
 D5: Early Large Saloons: MK VII, MK VIII, MK IX, MK 10, 420G, (1950-70); Early Small Saloons: MK 1 (2.4 & 3.4), MK 2 Series (2.4, 3.4, 3.8 liter, Daimler V8), 240, 340; S-Type 3.4S, 3.8S, & Jaguar and Daimler 420 (1955-69)
 D6: XJ6/12 Series 1 & 2, Saloons and Coupes (1968-79); Series III XJ6, XJ6 Sovereign and XJ6 VDP (1979-87); Series III V12 and V12 VDP (1979-92) **Note 1**
 D7: XJ6 (XJ40) Sedans (1987-94); XJ12 (XJ40) (1993-94); XJ6/12/R, (X300) (1995-97) **Note 1**
 D8A: XJ-S/SC (1976 - 1991 Pre-Facelift) Coupe, Cabriolet, H&E Convertible, Convertible, XJR-S Le Mans, XJR-S Jaguar Sport.
 D8B: XJS (1991 - 1996 Facelift) Coupe, Convertible, XJR-S Jaguar Sport.
 D9A: XK8 Coupe and Conv. (1996-2006), XKR (1999-2006)
 D9B: New XK and XKR Coupe and Conv. (2007-On)
 D10: XJ8/R Sedans (X308) (1998-2003), XJ8/R Sedans (X350 Alloy) (2004- 2009) **Note 1**
 D11: S-TYPE Sedans (1999-2008), X-TYPE Sedans and Estate Wagons (2002-2008)
 D12: XF Sedans (2008-On)
 D13: XJ Sedan (2010 [as 2011 model year] – On)
D14: F-TYPE (2013-On) (2013 AGM)

Note 1: Majestic, Daimler, Daimler Double Six, Daimler Sovereign, and Daimler Majestic models are eligible for Driven Division Classes 6, 7 and 10 according to their years, engines, and body styles.

Driven Division Scoring

Sections on the Driven Division score sheet which are excluded from judging should be crossed out, and scorers are to note that **NO POINTS ARE TO BE DEDUCTED FOR NON-JUDGED SECTIONS**

1. Driven Division Score Sheet Calculations

The 1000-point score sheet permits points to be deducted for areas not up to standard. The total is to be divided by 100 for the competing score; 10 points would be a "Perfect" Driven Division Entry.

2. Driven Division Scoring Plateaus

The following scores are required in order to qualify for a Driven Division Class first, second, or third place award:

- First Place Award, **9.00** points, minimum
- Second Place Award, **8.00** points, minimum
- Third Place Award, **7.00** points, minimum

3. Driven Division Eligibility in Consecutive Years

The year's North American Championship, Driven Division award winners are encouraged (but not required) to step up to the Champion Division the following year. Entrants may continue Driven Division competition at their discretion.

SECTION 4 - SPECIAL DIVISION

A. SPECIAL DIVISION GENERAL SPIRIT

Special Division is intended for factory and non-factory-prepared competition and limited production Jaguars; production Jaguars privately prepared for competition; modified production Jaguars, and Jaguar powered vehicles with replica Jaguar bodies. The interior, exterior, engine compartment, and boot of Special Division Entries are judged only for condition and cleanliness, NOT for authenticity.

B. SPECIAL DIVISION CLASSES

- S1: Factory-produced and prepared Competition Jaguars, Factory-sponsored Competition and Limited Production Jaguars **Note 1**
- S2: Production Jaguars privately prepared and modified for competition **Note 2**
- S3: Modified **Note 3**
- S4: Replica (non-production, Jaguar powered) **Note 4**

Note 1: Class S1 Includes:

- a. Ex-works XK 120s, C-Types, D-Types, XK-SS or E-Types
- b. Jaguar automobiles prepared for competition by recognized professional race organizations operating independently of the factory or by Jaguar Cars sponsored teams, including Jaguar powered variants such as those built by Coombs-Jaguar, Cooper-Jaguar, Ecurie Ecosse, Lister-Jaguar, Group 44, Tojeiro-Jaguar, TWR, JaguarSport, or **JaguarRSR** etc. (2013 AGM)
- c. Factory race-prepared XJ220s
- d. Standard XK SS and XJ220s (as Limited Production)

Note 2: Class S2

To be eligible for Class S2, each Entrant must present the Chief Judge at least one of the following:

- a. Documented race history or a **Racing Logbook** for the Entry, or **(Solo race history does not qualify.)** or
- b. Proof that the Entry meets and has passed the **existing road or track wheel-to-wheel race competition safety requirements** of a **currently recognized** road-race sanctioning body, such as FIA, SCCA, etc.

Note 3: Class S3

- a. This Class is for production Jaguar vehicles of any year and model that have been substantially personalized, modified, or customized. Entries must be equipped with functional horns, headlights, taillights, brake lights, parking lights, license plate lights, back-up lights and turn signals appropriate to the vintage.
- b. **To qualify for Class S3, Entries must have 40 points or more of deductions for judged, non-authentic, or missing features or components (hereinafter called the qualifying deductions or items). Advance concours registration is required. The Entrant (using the appropriate form available in the “Concours” section of www.jcna.com) must provide a list of the qualifying deductions, for the Chief Judge’s review and approval. Pictures of qualifying items may accompany the form.**

Subject to acceptance of the qualifying deductions, Entries modified for solo racing events may be eligible for this class.

Custom fabricated items, e. g., one-off wheels, steering wheels, etc., custom body work and significantly non-authentic paint color or schemes may be included as qualifying deductions.

The qualifying items may not include the tire, wheel, or radio authenticity exceptions currently allowed in Driven Division (Section 3.A.1) or items “similar to the original”. This class is not for incomplete restorations or Entries whose modifications consist of the substitution of minor, non-authentic, after-market hardware.

Aftermarket hardware, accessories and poor-quality reproduction components are NOT qualifying deductions and include:

- **hoses, hose clamps, hose covers, nuts, bolts, washers, and other minor hardware**
- **wiring and wire connectors**

If an original judged item is removed, and listed as one of the qualifying deductions, that item must either have been replaced by a non-authentic item or have had all mountings, and traces of the original installation, removed.

Modification workmanship will be judged. Poor workmanship will receive a deduction comparable to a Condition discrepancy. (2013 AGM)

- c. Daimler Exception: Jaguar powered production Daimlers (such as the DS420 Limousine) that are not eligible for any other JCNA class, are eligible for entry in Class S3 without listing non-authentic items.

Note 4: Class S4

Replicas must appear to be an accurate reproduction of the original model Jaguar they replicate.

C. SPECIAL DIVISION SCORING

Sections on the score sheet which are excluded from Special Division judging should be crossed out. Scorers should note that **NO POINTS ARE TO BE DEDUCTED FOR NON-JUDGED SECTIONS**

1. Score Sheet Calculations

The 1000-point score sheet permits points to be deducted for areas not up to standard. The total is to be divided by 100 for the competing score; 10 points being a "Perfect" Special Division Entry.

2. Special Division Scoring Plateaus

The following scores are required in order to qualify for a Special Division Class first, second, or third place award:

- First Place Award, **9.00** points, minimum
- Second Place Award, **8.00** points, minimum
- Third Place Award, **7.00** points, minimum

3. Special Division Championship Awards Eligibility

All Special Division Class Entrants are eligible for North American and Regional Championship competition.

Chapter III.

Instructions and General Rules for the Judge

A. EVOLUTION OF RULES

1. Rules and Guidelines

Rules and guidelines for judging in the JCNA sanctioned events have evolved over the last several decades by conscientious trial and error. They are not perfect by any means, but the JCNA Rules have set Entrants on a correct course seeking originality and authenticity and judges on a course of inspecting and scoring the cars accurately.

2. Apply Rules Uniformly

For this reason, it is important that all Judges apply these accepted rules and standards to each Jaguar in the same way. Similarly, it is equally important that the Jaguars with the same defect, from different classes, appraised by different Judges, and judged in different areas of North America all suffer the same degree of penalty for the same flaw.

3. Approved Judging Guides

When a Judging Guide has been approved by the AGM, its use is mandatory. Judging guides have been developed at great effort to aid judges in determining authenticity and to standardize judging throughout JCNA. One copy of each approved judging guide shall be available for reference by judges and entrants at each sanctioned Concours.

B. ETHICS OF JUDGING

The primary purpose of judging is to determine the outstanding Jaguar in each class. Consequently, it is suggested that the point spread between a well-prepared Jaguar and a poorly prepared Jaguar should be substantial. Scores should reflect the often-considerable differences between Jaguars.

1. Be Objective

Judges must be **OBJECTIVE**. Deduct points for actual flaws found, despite age, mileage, or usage.

2. Be Fair

Of two similarly prepared Jaguars, the most original and/or authentic entry must win.

3. Be Consistent

Above all, the Judge must be consistent in deductions from Jaguar to Jaguar and Concours to Concours. Individuals may have their preference as to a particular Jaguar model, color, or body style but a Judge must not. All models, colors, and body styles are one as far as the Judge is concerned. Favorites are not to be entertained.

4. Be Impartial

Judges have a responsibility not only to Concours Chair and the club hosting the Concours, but to the Entrant as well, to **JUDGE EACH JAGUAR IMPARTIALLY AND WITHOUT BIAS**. Avoid even the appearance of favoritism particularly when judging cars owned by friends or acquaintances.

C. CHIEF JUDGE

1. Designating the Chief Judge

Each club is responsible for appointing the person they deem most suitable for acting as the Chief Judge. The duties of the Chief Judge are to encompass all affiliate concerns about rules, judging and protests. The term of office may be left to individual club discretion; however, a minimum of a one-year term is suggested. **While in the process of developing their own Judge training program, a club may invite the training assistance of an experienced Chief Judge from another club.** (2013 AGM)

2. Chief Judge Qualifications

The ideal Chief Judge will have extensive experience as a concours judge, as a JCNA concours exhibitor and/or as an amateur or professional Jaguar restorer. Lesser experience is acceptable; however, all candidates must have obvious leadership, administrative and management abilities. The Chief Judge need not be an expert in multiple car classes but he or she must know the rules and must be familiar with the judging expertise available within the host club and among the Entrants who have indicated a willingness to assist.

3. Chief Judge Responsibilities

The Chief Judge is responsible for:

- a. Recruiting local club members to be trained and serve as judges.
- b. Conducting Judges' Training Sessions. A Judges' training and **refresher** session **must** be scheduled **and conducted** annually at least two weeks prior to the Concours. The session should include Judges' protocol, practice judging, authenticity, **rule changes**, **lessons learned** and a Rule Book review. The JCNA Judge's Test may be given to those seeking initial certification or certification renewal.

NOTE: Some clubs that do not have a Chief Judge of their own may select a Chief Judge from another club to officiate at their concours and/or to conduct judge training.

- c. Holding the Judges' Meeting the day of the Concours.
- d. Ensuring that the Judges are judging according to the rules set forth in the Rule Book.
- e. Organizing and training judges and administering Judge's certification tests as feasible throughout the year. (Cross training with other clubs is encouraged.)
- f. **Becoming very familiar with the published JCNA rules and protocols.**

- g. Receiving and disseminating to club Judges all JCNA correspondence relating to Concours judging and scoring.
- h. Being responsible for all Concours Judging team assignments. Knowing which club members are the most knowledgeable in each class.
- i. Overseeing score sheet Scrutineers and validating final scores and standings.

NOTE: If the Chief Judge serves as an active Concours Judge, he/she must observe all rules regarding the avoidance of conflict of interest. If the Chief Judge has a Jaguar entered in the competition, he/she should not handle the completed score sheet for his/her own Jaguar prior to the announcement of Concours results.

- j. Resolving, as feasible, day-of-event protests and/or intervening should there be any problems between Entrants and Judges.
- k. Investigating and endorsing all concours protests that may be submitted following the event.
- l. Submitting the required JCNA Concours and Judges' reports. **(See Sections K and L of this chapter.)** (2013 AGM)
- m. Insuring that the completed score sheets are returned to the Entrants.
- n. Maintaining a chronological record of each club Judge's attendance at training sessions, taking the JCNA Judge's Test, judging at JCNA concours, and certification.

4. Chief Judge and Judging

It is recommended that soon after judging begins, the Chief Judge should check the progress of each of the judging teams. This will aid in determining whether a particular Judge or team is having trouble. In this manner, problems may be dealt with early in the judging period when fewer Jaguars are affected.

5. Master Entry List

The Chief Judge or Concours Chair is in charge of preparing and maintaining the Master Concours Report form (available at www.jcna.com) with the Entrant's name, type of Jaguar, Concours division, and class entered. The Concours Chair should closely coordinate with the Chief Judge, making certain that, at the outset of the event; the Chief Judge has a current listing of each and every entry.

6. Judges' Roster and Judges' Report Forms

The Chief Judge must maintain a record of judges' credentials and who judged what in order to complete the required Judges' **Roster** and **Judges' Report Forms**, which have been integrated by the JCNA Web Master with the **On-Line Scoring System**. Follow the instructions found on the On-Line Scoring System page, referring to the help page first.

D. JUDGE CERTIFICATION AND CERTIFICATION RENEWAL

1. Responsibility

Under the direction of their own Chief Judge or a Chief Judge from another club, individual clubs will be responsible for certifying Concours Judges from among their members. **All persons assigned as Judges at JCNA Concours must be current members of a JCNA club or Members at Large (MAL's).** (2013 AGM)

2. The Certification Process for New Judges

- a. Undergo thorough training on the contents of the Rule Book and the content, use and marking of score sheets.
- b. Take the current JCNA Judge's Test. The purpose of the test is best served by taking it as a group, explaining each answer, and responding to all questions (see **NOTE** following D.5 below).
- c. Perform practice judging of one or more components under the supervision of the Chief Judge, and;
- d. Serve as an Apprentice Judge with a judging team during a JCNA sanctioned concours and mark practice score sheets for examination and critique by the team leader at the conclusion of their judging.
- e. As a further step to improve the standardization and quality of JCNA concours Judging, beginning in 2013, Driven Division will still require only one Certified Judge per Judging Team, but Champion and Special Divisions will require two Certified Judges per Judging Team.
- f. **A person may establish paid memberships in two or more JCNA clubs, (paying JCNA dues but once). In such instances, the member will be assigned a single JCNA number (ex.1234) but it will be prefixed by the individual club/Region identifiers, such as: NE00-1234 for the primary club, SE00-1234 for a secondary club, etc.**

(The following assumes membership in two clubs, NE00 and SE00.) If the member completes the JCNA Judge Certification requirements, administered by the Chief Judge of Club NE00, the member should then be listed as a Certified Judge on Club NE00's Judge Roster. If the member's Judge Certification is subsequently confirmed/accepted by the Chief Judge of club SE00, the member may also be listed as a Certified Judge on club SE00's Judge Roster. (2013 AGM)

Note: All of the Judges, listed on a given club's Judge Roster, must have JCNA numbers which confirm them to be members of the reporting club. (2013 AGM)

3. Acknowledgement of Certification

- a. After having successfully accomplished the **steps identified in The Certification Process for New Judges above**, the Chief Judge will notify the club Membership Chairperson to identify the person as a "Judge" when next submitting the club's membership roster to JCNA. (This normally occurs at the beginning of each calendar year.) (2013 AGM)

- b. Thereafter, the letter "J" (for judge **after** the person's JCNA **number on their** Membership Card. (2013 AGM)
- c. If a newly certified judge intends to judge at other than his home club in the current year, the Chief Judge may, if desired, make a one-time endorsement on the back of the person's JCNA Membership Card: "Certified as a Concours Judge for the calendar year 20xx", followed by the date and the Chief Judge's name.

4. Maintenance of Judging Currency

- a. Once certified, Judges are expected to Judge at a minimum of 2 JCNA sanctioned concours every three years.
- b. All Judges must receive annual briefings and/or correspondence describing all changes to the Rule Book that affect the judging process.
- c. Additionally, all Judges are required to educate themselves on the annual changes to the Rule Book that affect the judging process. This may be accomplished at judges' meetings and briefings, through correspondence, through articles published in Jaguar Journal and from notices and summaries posted on the JCNA website, *www.jcna.com*. Judges should also learn as much as possible about the Jaguars they anticipate judging by reading available literature (including the JCNA Judging Guides), examining Jaguars as opportunities arise, and questioning Certified Judges experienced in the model.
- d. **Judges certification must be renewed every three years.**
If all prerequisites have been met, a Judge is certified or re-certified in the year the Judge's Test is taken and passed and for the two calendar years that follow.

Example: A hypothetical judge that takes and passes the Judges Test in April of 2010 would be considered certified for all of 2010, 2011, and 2012. If the test is not re-taken and passed in the intervening years, it would have to be re-taken not later than 2013 to avoid a lapse in certification. (2013 AGM)

In order to retain continuous certification, Judges should anticipate the year in which their certification will expire and undertake timely renewal.

5. Certification Renewal for All Judges

Take the current JCNA Judge's Test, preferably in a group training session (Should hardship circumstances dictate otherwise, the test may be mailed.)

NOTE: The Chief Judge will maintain tests, training, and judge participation records. Should any Judges be unable to meet all renewal requirements, the Chief Judge will decide whether to extend or rescind their certification based on their individual situations and experience level.

E. GENERAL QUALIFICATIONS AND PROCEDURES FOR JUDGES

1. Infallibility of Judges

No matter how carefully Judges are selected, trained, and tested, it must be acknowledged that no one person should be burdened with the weight of infallibility. Nobody can know all things about all cars of a particular marque or era.

2. Qualification of Judges

It is recommended that the Chief Judge approach the most knowledgeable members with, whenever possible, the necessary technical background to act as Judges. Every effort should be made to supply the Judges with as much information as possible on the various models, especially the older ones. Cooperation between clubs in supporting one another with qualified Judges is recommended.

3. Choosing Judges

The Chief Judge should approach club members who are certified judges, those who may have judged in the past, and others who he/she believes are qualified to judge, and invite them to judge in the upcoming concours.

Begin inviting Judges at least two months ahead. Concentrate on those whom you believe will judge the Jaguars fairly, without personal prejudice and will treat the Concours and the Entrant with respect and impartiality. Consider qualified, knowledgeable Judges from other JCNA affiliated clubs as well as those from the host club. This encourages an air of impartiality.

4. Inexperienced Judges

New or relatively inexperienced Judges should be assigned, if possible, to less complex areas such as the exterior until they have acquired some expertise by judging at several Concours.

5. Apprentice Judges

It is recommended that each club consider a system whereby, during their concours, members interested in judging accompany experienced judging teams as Apprentice Judges. This is a means of giving prospective Judges some practical experience. The Apprentices should take notes of any items they may want to discuss later with the Judge(s). **If required, an Apprentice Judge, who has undergone classroom Judge training and testing, may be used as a non-certified member of a Judging Team.** (2013 AGM)

6. Experienced Judges

Attempt to recruit members who have the most practical everyday working experience with many models of Jaguars.

7. Familiarize Judges with Rules

To function effectively a Judge must be informed. Each Judge should have a copy of the current Rule Book and a copy of the current score sheet no less than two weeks before the concours to have time to familiarize themselves with the contents.

8. Judging Own Class

A Judge may not judge his or her own Jaguar(s) or the specific class(es) in which their cars may be entered. Neither may he nor she judge the class in which an immediate family member has a car entered. If a person or firm has performed existing cosmetic restoration on a Jaguar, neither that person nor any member of the restoration firm involved may judge the class in which that Jaguar is entered.

F. JUDGING METHOD AND TEAMS

1. Number of Certified Judges per Team

To judge any JCNA Division at a Concours d'Elegance, there must be at least one JCNA Certified Judge per team, including the OV Team (see Chapter III, Heading D. Rule 3).

Driven Division **and Operation Verification (OV)** require only one Certified Judge per Judging Team. Champion and Special Divisions require two Certified Judges per Judging Team. (2013 AGM)

2. Team Judging

Prescribed teams of Judges (see a. and b. below) will evaluate specific areas of Champion, Special and Driven Division Entries (see Chapter 2, Spirit Statements). JCNA provides 4 score sheets that accommodate the 3 to 5 possible areas to be inspected, depending on the Entry's Division:

- Score sheet #1 - OV
- Score sheet #2 - Exterior
- Score sheet #3 - Interior & Boot
- Score sheet #4 - Engine

Judges should be assigned an area according to their expertise and fully judge the items listed on their score sheet, for all cars in the team's assigned class. More than one Judge must not be assigned to the same area, except when an Apprentice Judge is assigned to the team. Judges are encouraged to share their authenticity expertise and may assist other team members. Operation Verification (OV) is conducted either by the primary team or by a separate OV team (see Chapter V, Heading B. Operation Verification).

a. Number of Champion or Special Division Judges Required per Team

Three or four Judges will be responsible for judging OV, Exterior, Interior & Boot and Engine, excluding Apprentice Judges and the separate OV judging team when used.

b. Number of Driven Division Judges Required per Team

Two or three Judges will be responsible for judging OV, Exterior and Interior, excluding Apprentice Judges and the separate OV judging team when used.

3. Judging Team Leaders

Team leaders shall be assigned to all teams by the Chief Judge. The team leader shall:

- a. Introduce himself or herself and any team members who may not know the Entrant.
- b. Promptly scan all team score sheets as the judging of each Entry is completed. Assure all required fields are completed, Entrant's initials are present where required, and cleanliness and condition deductions are commensurate with local conditions, scoring experience and teaching.
- c. Deliver the finished score sheets to the Chief Judge or Scrutineers in a timely manner.
- d. Critique Apprentice Judge's score sheets and answer their questions on a not-to-interfere basis. Provide Apprentice Judge score sheets to the Chief Judge at the conclusion of your judging assignment.

4. Judging Time Limit

Each Judge must limit their judging of each Jaguar to a total of 15 minutes. This limit applies to each judge's actual time spent EXAMINING THE CAR and recording its discrepancies. Judges must make every effort to avoid exceeding the 15-minute judging time limit (see Section G. Heading 1.a. below). (2013 AGM)

5. Judging Teams Remaining Intact

The Judging teams must remain intact throughout the judging procedure, examining one car at a time **as a team**. Team members may, at times, be required to leave in order to present their own Jaguar(s) for judging. When this occurs the team should complete the car they are judging, then stop and wait for their team member to present his or her car and return. When the team is again complete, they move on to judge the next Jaguar in line. This is fairest to the team and the Entrant.

6. Judging Teams and Substitution

No substitution of Judges is permitted once judging of a specific class has begun. The only possible exception to this rule is in the case of illness of a participating Judge. To assure scoring consistency, all cars in each individual class must be judged by the same team.

G. OPERATION VERIFICATION

(Formerly Mechanical)

1. Conduct of Operation Verification

JCNA clubs may use either the primary Judging Team or separate Operation Verification teams to conduct the Operation Verification portion of the concours evaluation.

- a. **Primary Judging Team.** The primary team, assigned to judge the class, will conduct the Operation Verification as part of their assigned overall judging effort. Where needed, an extra 5 minutes may be allowed to conduct these checks, (20 minutes of judging time, total.).

Note: In order to reduce the possibility of debris entering the car, prior to judging its interior, it is recommended that the Operation Verification be done after the team finishes its other component judging.

- b. Operation Verification Team(s).** One or more 2-person or 3-person teams are designated to conduct the Operation Verification prior to the formal judging. At the completion of the verification, Entrants are allowed to remove any incidental debris, even if "Rags Down" has already been announced.

Note: The following are considered "no exception" requirements when using verification teams:

1. If any light(s) or horn(s) are suspected of being non-authentic, the Operation Verification team leader **must** make an appropriate note in the corresponding Operation Verification non-authenticity section, **without indicating any point deductions.**
2. The primary Judging Team will re-examine the suspect system(s) and, if warranted, **make the mandatory non-authenticity point deductions.** (Only the primary Judging team may assign non-authentic deductions for discrepancies found during the Operation Verification checks.)
3. The Operational Verification team(s) must comply with the same rules governing the make-up and conduct of other JCNA Concours Judging Teams; in particular:
 - Team members are prohibited from judging their own car(s) or judging any car in the class in which their car(s) may be entered and
 - Each team must include at least one JCNA certified Judge as the team leader.

2. Courtesy Repair Time

If light or horn malfunctions occur during the Operation Verification, the **Entrant will be allowed 15 minutes to correct the malfunction.** The Judging Team Leader should note the time when the team completes judging the Entry. If, thereafter, the Entrant corrects the problem within the allotted 15 minutes, the (original) judging team will re-examine the affected light, horn or system and make appropriate corrections or adjustments to the score. If the repair takes longer than 15 minutes or is unsuccessful, the originally assigned deductions will stand. **No member of a Judging Team is allowed to participate in the repair of any car, he or she has judged, while judging of the class is still in progress.**

H. DAY-OF-EVENT JUDGES' MEETING AND GUIDELINES

Judges must be on time for the Concours and the prearranged Judges' Meeting conducted by the Chief Judge. Have extra copies of the most current JCNA Rule Book on hand. Apprentice Judges, if any, should also attend this meeting.

1. Announce and/or Confirm Judging Assignments

Wherever possible, the Chief Judge should make judging assignments well prior to the day of the event in accordance with the known expertise of each judge as well as their JCNA certification. If that has not been possible, the Chief Judge should still see that

each Judge is assigned to evaluate areas with which that Judge is most familiar. Judges must be physically capable of examining the component area assigned (see Chapter III, Heading J, Rules 2 and 3). The Chief Judge should also provide individual teams with lists of cars they are to judge.

2. Review the Day's Procedures

Review the day's scheduled events: close of registration; rags down; judging start; lunch; awards presentation and departure. Settle any questions.

3. Review Basic Rules

Ensure that the Judges are aware of basic JCNA rules, especially those regarding the application of non-authenticity deductions and the Entrant's right to comment on each such deduction. See that such rules are applied in a responsible and reasonable manner. Have at least one Rule Book available per team as well as extra copies of non-authentic deductions and Judging Guides where appropriate.

4. Designate Alternate Judges

It is highly recommended that one or more alternate Judges be available on a stand-by basis the day of the event.

5. Advise Teams to Walk the Site

Judges should have the opportunity to walk the Concours site prior to the commencement of formal judging in order to obtain an idea of the overall quality and location of the entries.

NOTE: The Chief Judge should determine, and announce to all Entrants, whether the Jaguars should be presented with their doors, boot lid and bonnet opened or closed.

6. Announce Lunch Break Procedures

To reduce the possibility of lost time due to lengthy lunch breaks, it is the Concours Chair's responsibility to see that the Judges are provided with sufficient time for lunch and are ready to resume judging ON TIME.

7. Direct Judges - No Eating, Drinking, Smoking, or Touching

Do your eating and drinking before or after judging. Do not smoke around the Jaguars during judging. Remind judges that, when required, they must ask the Entrants to open and close the doors, bonnet and boot lid, etc. and are never to touch the cars without the Entrant's permission.

8. Advise Judges to Remain on Site Until Excused

All judges should refrain from drinking alcoholic beverages and must remain at the concours site until the Chief Judge determines:

- a. All cars that were to be judged, have been judged,
- b. No re-judging is required, and
- c. There are no problems with the submitted score sheets.

I. FIELD PROTOCOLS FOR JUDGES

1. Judges and Spectators

While judging is in progress, all spectators MUST be kept clear of the Jaguars and out of the Judges' way. The parking staff can be of help in this matter.

2. Alcoholic Beverages

Clubs are not to provide alcoholic beverages during judging. Judges are not to imbibe until the Chief Judge determines there is no further need for their services as Judges.

J. THE JUDGE, THE SCORE SHEET AND SCORING

1. Number of Score Sheets

Champion and Special Divisions use four score sheets, Driven Division uses three score sheets.

Each Judge on the team uses one of the component score sheets per Jaguar, filling in only the areas pertaining to the component he or she is judging (e.g. DHC/OTS or Sal/FHC). **The Judging Team Leader will oversee the completion of the OV score sheet.** (2013 AGM)

2. Use Current Score Sheets

BE CERTAIN THE JUDGES USE THE CORRECT, CURRENT JCNA SCORE SHEETS. Score sheets are located in the back of the Rule Book. They can also be obtained from the JCNA Sanctioning Chair or downloaded from the JCNA web site.

NOTE: As a space saver, the score sheets included in the Rule Book have been printed front-to-back. When judging, they should be printed separately. Component areas may be combined on one sheet or printed on individual sheets at the discretion of the Chief Judge.

3. Cross out Non-judged Score Sheet Sections

Cross out sections on the score sheets that are excluded from judging. **NO POINTS ARE TO BE DEDUCTED FOR NON-JUDGED SECTIONS.** The total of the remaining items will equal 100%, and Judges will proceed with the evaluation as usual.

4. Score Sheet Calculations

The score sheet is based on a negative system where the Judge simply writes down the deductions for the discrepancies he or she observes. Judges are not to do ANY calculating or totaling of deductions on the score sheets. The Scorers are responsible for tallying the score sheet figures.

5. Judges' Supplies

Judges should have clipboards, pencils, (with erasers) and perhaps some scrap paper for making notes.

6. Examine the Score Sheet Heading

Before beginning the judging process; it is essential that the Judges examine the tops of the score sheets to determine that all the information (particularly the Entrant's name and Jaguar body style) is complete and correct. Judges should also draw a line through the **MAXIMUM DEDUCTION/BODY STYLE'S COLUMN THAT IS NOT APPLICABLE** to the Jaguar being judged. This will prevent writing deductions in the wrong column.

7. Determine if the Entrant is Present

It is the responsibility of the Judging Team Captain to ascertain that the Entrant or member of the Entrant's family is present and so note on the score sheet in the box provided for this purpose.

8. Minimize Scoring Entry Errors (2013 AGM)

To minimize scoring errors, where less than a whole point is deducted, the judge should place a dash line or a "0" in front of the decimal point, e.g., "-.4" or "0.4". For whole numbers, it is suggested that they be written with a dash line or a "0" after the decimal point, e.g., "4.-" OR "4.0". **Improperly drawn zeros are often mistaken for the numbers 6 or 9.**

9. Fill in All the Blanks

To assure the Scorekeepers that a Judge has not forgotten to evaluate a particular item; all blanks on the score sheet should be filled. Either "line through" or place a slash "/" through any empty portion of the boxes where no deduction is made.

10. Handicap Points

No handicap points are allowed for age, odometer reading, or mileage driven to a Concours.

11. Mandatory Penalties

Mandatory penalties **must** be deducted for items or materials judged to be non-authentic. Mandatory deductions for specific items are covered in Chapter VI, Judges' Guide for Scoring Non-Authenticity.

12. Points Per Defect

The Points Per Defect shown on the score sheets are **minimums**. If a Judge considers a particular defect to be more extensive than the minimum allows the Judge may take off more points than the minimum. **Do not deduct less than the minimum required deduction, e.g. deducting 0.05 when the minimum is 0.1.**

13. Noting the Location of Cleanliness and Condition Deductions

A new section has been added, to each component judging sheet where the Judge **should** note the location and describe each of the major cleanliness and/or condition discrepancies where deductions have been given. This section is of great interest and importance to Entrants who wish to correct every discrepancy prior to the next concours.

14. Score Sheets During Judging

Except for the Entrant's initialing non-authentic deductions at the time of judging, score sheets are not to be made accessible to the Entrants for examination for any reason at any time on the day of the Concours d'Elegance. Judges are cautioned that unnecessary discussion with the Entrant, regarding condition and cleanliness deductions, can lead to unpleasant disagreements.

15. Score sheets After Judging

Score sheets submitted by the Judges at a Concours as final and complete shall not be subject to any substantive alteration except by the Chief Judge after consultation with the individual Judges or the Judging Team involved. The Chief Judge may, however, correct mathematical errors, tallying errors, and/or deductions that are not in accordance with the prescribed minimum or maximum deductions. (2013 AGM)

16. Scorers

Scorers should be prepared to begin calculating about fifteen (15) minutes after judging begins. Insure that the Scorers have a quiet area to work in. **UNDER NO CIRCUMSTANCES** are spectators and/or Entrants to be allowed near the Scorers. It's a good idea to staple the score sheets together as soon as they arrive at the Scorer's area.

17. Score Calculations

All scores should be calculated twice independently by the Scorers for accuracy and by a third Scorer if the first two calculations disagree.

18. Completed Score Sheets

As the Scorers finish their calculations score sheets should be arranged by Class, from lowest to highest score on top. This will allow the Chief Judge to keep a constant check on how quickly judging is progressing. Cross-referencing the Judging Schedule will reveal if any score sheets are missing.

19. The Entrant and the Score Sheets

NEVER, NEVER release score sheets to the Entrants at the conclusion of the event. Unless the scores are transcribed elsewhere, there may be no way to double-check the scoring, nor will there be a record of scores to post on www.jcna.com. In addition, if score sheets are released, arguments may develop between Entrants and the Chief Judge or other Judges.

20. Score Sheets after the Concours

At the conclusion of the Concours, the score sheets are retained by the Chief Judge, who should review them again and, if necessary, correct any additional mathematical or administrative errors. If this review process changes the standings, that were announced at the Concours awards ceremony, the Chief Judge and the Concours Chair will have to exercise the utmost diplomacy in notifying the Entrants affected and, if appropriate, arrange an exchange or return of trophies.

Entrants, competing for Regional or North American standings, are very eager to receive their score sheets in order to correct discrepancies prior to the next event. The Chief

Judge **MUST** send the **ORIGINAL** score sheets to the Entrants, as soon as practical but not later than 21 calendar days following the Concours. Score sheets, from concours held after November 9th, must be sent to Entrants no later than December 1st. The Chief Judge may retain copies for club records. Scores shall be posted on www.jcna.com as soon as possible, but no later than 21 days after the Concours and no later than December 1st. (2013 AGM)

K. FORMAL SCORE POSTING AND CORRECTIONS

The Chief Judge is responsible for correctly posting the scores on the JCNA web site. Two reports are required: The Concours Scores Report and Judge Report. Scores are posted by going to the “Concours” page of www.jcna.com and clicking on the “Online Scoring System” login. Enter the club number, password and follow the instructions. Further assistance may be found under the “help” section. The Judge Report may be completed by clicking on “edit Judge Report.” As with the Concours Scores Report, follow the instructions. When all entries are complete, print copies of the Concours and Judge reports for your records and notify the JCNA Concours Archivist that the reports are ready for review and approval (contact information is shown at the bottom of the page). In approving the event, the Archivist will verify entries are correctly classed and scored and all vehicle information correctly listed. Through the Judge Report he will also verify the correct number of certified judges in each class. To be considered certified each judge must be listed with a certification date within 3 years of the Concours date. If any errors are detected the Archivist will notify the club Chief Judge and Concours Chair. Once the report is complete the system will show it as “provisional.” When the Archivist approves the report it will be marked “official” and be eligible for regional and North American standings. While in “provisional” status, the report can be changed should errors be detected. Changes cannot be made to “official” reports without the Archivist’s permission. All Concours reports must be completed and approved by November 30th of each year. The only score or standing changes allowed after December 1st are those resulting from the official JCNA protest process.

Note:

JCNA Numbers are required when posting scores on the JCNA website. If numbers are not available when posting results, they must be looked up using the Online Scoring System “look up” function. For new members, leave the JCNA number blank. The club is responsible for logging back on and filling in all new members’ numbers once assigned by JCNA; the “look up” function cannot look up missing numbers. Concours Entrants listed without JCNA numbers will be considered non-members and clubs must forward JCNA the Non-Member Event Membership Fee. JCNA reserves the right to bill clubs for fees not received. (2013 AGM)

L. JUDGES’ ROSTER AND JUDGES’ REPORT

The Chief Judge is responsible for updating the club’s Judges’ Roster as soon as possible after your mandatory Judges’ School and prior to posting scores. After posting the scores, fill in the online Judges Report; the system will ask who judged each class. (2013 AGM)

M. THE JUDGE AND THE JAGUAR

ALL JUDGES SHOULD KEEP IN MIND THAT JAGUARS WERE CONCEIVED AND BUILT TO BE DRIVEN. THERE ARE DEFECTS IN THE MANUFACTURING PROCESSES AND DEFECTS CREATED THROUGH USE. THEREFORE, IT IS ESSENTIAL THAT PENALTIES BE APPLIED IN PROPORTION TO THE IMPORTANCE AND SCOPE OF THE DEFECT.

1. Competitiveness of the Jaguars

The competitiveness of the Jaguars being entered, throughout North America, in the JCNA sanctioned Concours d'Elegance has risen considerably in recent years. The judging teams face the enormously difficult task of competently and quickly scoring exceptionally well restored and prepared Jaguars, some of which may be separated by less than a tenth of a point in scores.

2. Judge's Posture

Judges are permitted to stand, bend over at the waist, or kneel to inspect judged items.

3. Judge Touching the Jaguar

While judging is in progress Judges are forbidden to touch the Jaguar without the Entrant's permission. Due to liability considerations, Judges are forbidden to sit inside the Jaguar at any time during judging.

4. Dress Accordingly

Judges should avoid wearing large belt buckles or articles of clothing with metal trim or zippers. These items may damage paint or upholstery as the Judge bends over to examine an item. Pendants or other such jewelry should be removed during judging.

5. Exterior Judge's Authority

The Exterior Judge has the authority to require the bonnet, doors, windows and boot be open or closed in order to properly evaluate the fit and finish of the bodywork

6. Confer with Fellow Judges

a. Confer on Technical and Authenticity Points

Judging teams must confer among themselves on technical points and share their individual knowledge to validate authenticity or non-authenticity wherever it is noted. Confer with fellow Judges or request assistance from the Chief Judge or his delegate where personal knowledge is lacking.

b. Comparing Entries

Judges should never compare one entry with another within hearing of any participant. This sort of conversation should be held privately.

c. Care in Assessing Large Condition and Cleanliness Deductions

Judges should take advantage of the expertise and experience of all team members by conferring with them before assessing large (1.0 point or greater per item) cleanliness or condition deductions.

N. THE JUDGE AND THE ENTRANT

1. Responsibility of the Judge and the Entrant

It is the responsibility of the Entrant to present an authentic well-prepared Jaguar; it is the responsibility of the Judges to recognize and confirm the Jaguar's authenticity. It is incumbent upon the Entrant to furnish proof of authenticity when the Judge questions any point of authenticity. The role of the Judge should not be to prove the facts, but to assess the claim of authenticity based on the evidence submitted.

AT ALL TIMES REMEMBER THAT, AS A JUDGE, YOU ARE EVALUATING THE JAGUAR, NOT THE ENTRANT.

2. Authentic Options

Authentic options are those items listed in Jaguar Parts Books or official Jaguar sales literature. Only written proof from those sources, from Jaguar Cars or from JCNA approved Judging Guides is acceptable. **Factory items offered as standard must be correct for the year and model presented** (see Appendix C and E).

3. Entrant Documentation

If an Entrant anticipates that a Judge may question the authenticity of particular features or components of their Jaguar, that Entrant should, where feasible, bring official documents to validate those items. If there is some aspect of their Jaguar that is unusual or difficult to imagine being authentic, it is incumbent upon the **Entrant** to prove its authenticity beyond a doubt. If the Entrant does not provide a convincing document or explanation, the Judge is free to draw his/her own conclusion (see Appendix C).

4. Entrant Showmanship

No credit will be given or points deducted for an Entrant's showmanship in displaying the Jaguar, such as decanters, glasses or flowers in vases on the trays of the saloon models, horizontal alignment of the word "Jaguar" on hubcaps or any other special efforts or displays. Factory shop manuals and spares catalogues, along with introductory advertising brochures, are not to be judged, although they may be used for authenticity reference.

5. Required Conversation Between the Judge and the Entrant

Judge's questions may arise concerning originality or authenticity that **MUST** be discussed with the Entrant **BEFORE FINALIZING THE ACTUAL DEDUCTION** on the judging form.

6. Extraneous Conversation Between the Judge and the Entrant

However well intended, Entrants must not engage in extraneous conversation with Judges during judging; such conversation slows the judging process. Some Entrants may see conversation with the Judge as an opportunity to "sell" the Jaguar or to excuse the appearance of an item. A vocal, persuasive, and persistent Entrant should be politely warned about disrupting and extending the process. If such behavior continues, judging should be suspended and the Entrant's conduct reported to the Chief Judge.

7. Judge Non-Authenticity Notifications and Entrant Acknowledgement

- a. Each team Judge who believes a certain feature(s) or item(s) to be non-authentic **must inform the Entrant and give him or her the opportunity to present documentation proving the authenticity of the feature(s) or item(s) being questioned.** If the Entrant does not or cannot prove authenticity to the Judge's satisfaction, the Judge must list it/them and the mandatory deduction(s) on the score sheet (in the Non-Authenticity box) and **HAVE THE ENTRANT INITIAL EACH ENTRY.**
- b. **Failure to inform the Entrant of a deduction and/or secure the Entrant's initials will result in the deduction being invalidated. If the Entrant chooses not to initial the deduction, the Chief Judge should be informed immediately.**
- c. Refusal by the Entrant to acknowledge a non-authentic deduction by initialing it is grounds for the Entrant's disqualification. If the Entrant does not agree with the non-authenticity deduction, he or she should be informed that their initials do not constitute agreement with the judge's assessment but instead, only that they were given the opportunity to document the authenticity of the item. Advise the Entrant that he or she has the right to lodge a protest and to present facts and/or documentation for the JCNA Protest Board's consideration. The Protest Board Chair's address is listed in the Jaguar Journal's club page and on the CONTACTS page of the JCNA web site.

8. Serious Entrants

A Judge must keep in mind that an Entrant in a Concours is generally very serious about the Jaguar being shown and will welcome the benefit of the Judge's knowledge.

9. Entrant Who Argues

Judges should avoid confrontations with an Entrant who is prone to argue about all deductions. If the Entrant persists, they should be referred to the Chief Judge and/or be politely reminded of their prerogative to file a formal protest (see Chapter IV, Heading I).

10. Judge's Decision is Final

The decision of the Judge(s) is **FINAL**. No Judge should be subjected to any pressure because of his or her scoring and application of the JCNA rules.

11. Influencing Judges

ANY ENTRANT, OR HIS/HER REPRESENTATIVE, WHO INTENTIONALLY TRIES TO INFLUENCE A JUDGE OR JUDGES BY OFFERING VERBAL OR WRITTEN INFORMATION OR BY DISPLAYING MATERIAL WHICH WOULD DISCREDIT ANOTHER ENTRY DURING THE CONCOURS WILL BE DISQUALIFIED FROM THE CONCOURS.

O. REJUDGING

1. Reevaluating the Jaguar

Rejudging of one or more classes, individual Jaguar(s) or individual component areas may be warranted under circumstances such as:

a. Resolving Complaints

An Entrant or Entrants lodge on-site protests or complaints relating to the consistency of judging. The Chief Judge and the Judges involved may choose to settle the issue with or without re-judging. In any case, the local club option as to procedure will prevail and the Chief Judge will make the final decision.

b. Resolving Ties

If two Jaguars in the same class are awarded identical scores, the cars may be re-judged; however, JCNA will accept tie scores.

c. Resolving Protests

Every effort should be made to resolve an Entrant's protest on-site. Protests that cannot be resolved should be dealt with according to the rules as set forth in Chapters I and IV.

2. Leaving the Concours Field

Except in unusual circumstances, competing Jaguars should not be allowed to leave the Concours field until the conclusion of the Concours or until judging and scoring have been completed in the class entered. Entries that leave the field prematurely (for whatever reason) **will be eliminated from the competition** if those entrees or the class in which they were entered require re-judging.

P. COMPLAINTS AND PROTESTS

(Note: This section is also presented in the Entrant's chapter, Chapter IV)

1. Protests

The protest process is intended to allow Entrants to question the manner in which their Entry was judged and/or the deductions made during the judging. Depending on its nature, the protest may be made on the day of the event or as noted in item 4 of this section.

2. Settling On-Site Complaints or Protests

If, during a Concours, an Entrant voices a protest or complaint relating to any aspect of the judging of the class or of his or her Entry, the Chief Judge and the Judges involved must strive to settle the issue courteously and fairly on-site, prior to the awards presentation. If warranted, re-judging the Entry, or the entire class, is an option. Local club procedures will prevail and the Chief Judge will make the final decision. Complaints or protests that cannot be resolved may be dealt with through the Protest Procedures that follow.

3. Formal Protest

An Entrant's protest or judging dispute, that cannot be satisfactorily resolved at the local level, may be appealed to the JCNA Protest Committee for a decision.

4. Filing Protests

- a. An Entrant's protest must be filed with the JCNA Protest Committee Chair **within 30 days of receipt of the score sheets or the protest** will not be considered. The address for the JCNA Protest Committee Chair is listed in the Jaguar Journal's Club Page and on the CONTACTS page of www.jcna.com (2013 AGM)
- b. When an Entrant files the protest with the Protest Committee Chair, a copy must also be sent to the Chief Judge of the event. Following this procedure will help expedite the protest resolution process. **Where possible, investigation and resolution of the complaint by the host club is encouraged.** (2013 AGM)

5. Concours Protest Committee and Unresolved Protests

Only the JCNA Protest Committee has the authority to rule on unresolved Entrant procedural or administrative protests. Only Entrant protests regarding scoring, procedural, and administrative problems will be considered. The Protest Committee cannot change the Judges' scores if a rule was not broken.

6. Protest Committee Responses

As soon as the Protest Committee reaches a decision, the Entrant filing the protest is notified of the ruling by e-mail (if possible), followed by a formal letter from the Protest Committee Chairman. If the ruling results in a concours score change, the person in charge of Concours Scores Recording will be notified. The Editor of the Jaguar Journal is also notified in order for the results of the protest to be published in the Journal.

7. Non-Entrant Questions

Any JCNA member (not participating as an Entrant or representing an Entrant) with a question regarding the conduct of a JCNA Concours or the application of Concours Rules, should address that question directly to the event Concours Chairperson or the Chief Judge. If the question is not answered to the member's satisfaction, it should be forwarded to the JCNA Vice President. The Vice President may answer the question directly or refer it to the appropriate committee for a response.

Notes:

Chapter IV.

Instructions and General Rules for the Entrant

This chapter contains rules for the presentation of Entries and guidance for the interaction between the Entrant and the Judges during the Judging process. Entrants are especially encouraged to familiarize themselves with the contents of this chapter.

A. REGISTRATION AND ENTERING THE CONCOURS

1. Entrant Spirit

The Entrant is the person who registers the Entry. The Entrant must be:

- a. An individual or joint title holder of the Entry, or;
- b. An employee of a business or institutional title holder of the Entry who has been assigned its regular use, or; (See Note 1 below.)
- c. A lessee of the Entry, or;
- d. An immediate family member of one of the above.

Note 1. This circumstance applies specifically to a business or institution that leases one or more Jaguars and assigns each (by a legal document) for extended custody and regular use by an individual employee. (2013 AGM)

Under whichever of these categories the Entrant qualifies, ALL requirements of legal ownership or entitlement must have been met by the Entrant in his or her state or province of residence or in the state or province of the Entry's registration. If requested by a concours official, that ownership or entitlement must be proven by presenting either the Entry's title or registration. Dealers and professional restorers may register their personal Entries for judging; however, they, too, must be prepared to show title or registration documents, proving their ownership of the Entry.

The Entrant, or an immediate family member, must present the Entry for judging and answer the Judges' questions. In the historical spirit of Concours d'Elegance, Entrants must refrain from registering Entries solely for economic or commercial gain. "For Sale" signs will not be allowed.

At the discretion of the host club, Jaguar dealers and professional restorers may be encouraged to present new, rare, or historically significant Entries and register them for Display Only Division. Display Only Jaguars shall not be judged as part of the JCNA competition.

2. Entrant Requirements for Score Qualification

In order for Concours scores to qualify for year-end awards, the Entrant must be a member of a JCNA affiliated club or a Member-at-Large at the time the scores are earned. Non-JCNA members may enter JCNA concours and, at the host club's discretion, may be awarded JCNA trophies. However, their scores will not count towards Local, Regional, or North American championship points.

3. Registration Timing

Entrants are encouraged to register as early as possible. Early registration reduces paperwork and facilitates orderly planning for Entry placement and judging assignments.

4. Registration Cut-off and Late Entries

It is the Entrant's responsibility to be aware of, and adhere to, the published registration cut-off time. Neither the Concours Chairperson nor the Chief Judge is under any obligation to allow latecomers to compete. Certain venues will absolutely prohibit late entry. The Chief Judge has final authority and must weigh the potential safety hazards and inconvenience of moving one or more cars through a crowded judging area. When allowed, Entries granted late access, must be driven cautiously and escorted, on foot, by a safety observer.

5. Entrant's JCNA Number

Correct JCNA Membership Numbers are very important for crediting concours scores to the proper Entrant and Entry for the calculation of both Regional and North American Championship standings. Entrants will normally be asked to provide their JCNA Membership Numbers on the Concours Registration Forms. Use the name as shown on your JCNA Membership Card.

6. Score Sheet Verification

Prior to the commencement of judging, Entrants should fill in the required information at the top of each score sheet or verify that all pre-entered information is correct, including their JCNA numbers.

B. ENTRANTS DURING THE CONCOURS

1. Rags Down

Entrants will be reminded by the Concours Chair or Chief Judge to cease preparation of cars at a predetermined, published time, referred to as "rags down".

2. Score Sheets During the Concours

Except during the required initialing of Non-Authentic deductions, completed score sheets are not to be made accessible to Entrants, for any reason, on the day of the Concours. Entrants are also restricted from entering the scoring area.

3. Entrants Presence During Judging

It is the responsibility the Judging Team Captain to ascertain that the Entrant, or member of the Entrant's immediate family, is present while the Entry is judged.

4. Providing Documentation

If an Entrant anticipates that a Judge may question the authenticity of particular features or components of their Entry, that Entrant should, where feasible, bring official documents to validate those items. If there is some aspect of their Entry that is unusual or difficult to imagine being authentic, it is incumbent upon the Entrant to prove its authenticity beyond a doubt. If the Entrant does not provide a convincing document or explanation, the Judge is free to draw his/her own conclusion (see Appendix C).

C. PRESENTING THE JAGUAR FOR JUDGING - ALL DIVISIONS

1. Doors, Bonnets, and Boot Lids

The Chief Judge will decide and announce whether Entries should initially be presented with their doors, bonnets, and boot lids opened or closed.

2. Soft and Hard Tops, Windows, Tonneaus, and Boot Covers

Champion and Driven Division Entries with open or drophead configurations must have their soft tops erected when presented for judging. (Special Division Classes S1, S2 and S4 are exempt from this requirement.) Windows should be in the shut position and, where applicable, side curtains, tonneaus, and boot covers should be displayed nearby for judging. Hardtops, either factory optional or aftermarket, except as fitted to the XJS Cabriolet, are NOT acceptable for judging.

3. Floor Mats and Seat Covers

After-market floor mats and seat covers ARE NOT judged. Carpets, factory installed floor mats and primary seat coverings ARE judged. **Entrants should remove all floor mats and seat covers** in order for the judges to examine the authenticity, condition and cleanliness of the carpeting and seats.

4. Small Compartments

Gas cap lids, glove boxes, and similar covered compartments shall remain closed. The interiors of these compartments are not to be judged. The interiors of uncovered compartments, "cubbies" and under-dash shelves (as found on XK150s and Series 1 E-Types and MK 2s) are subject to judging.

5. Authentic Options

Authentic options are those items listed in Jaguar Parts Books or official Jaguar sales literature. Only written proof from those sources, from Jaguar Cars or from JCNA approved Judging Guides is acceptable. **Factory items offered as standard must be correct for the year and model presented** (see Appendix C and E).

6. Entrant Showmanship

- a. No credit will be given or points deducted for an Entrant's showmanship in displaying the Jaguar, such as decanters, glasses, or flowers in vases on the trays of the saloon models, horizontal alignment of the word "Jaguar" on hubcaps or any other special efforts or displays.
- b. Factory shop manuals and spares catalogues, along with introductory advertising brochures, are not to be judged, although they may be used for authenticity reference.
- c. Entrants who wish to display previously won trophies must refrain from doing so until judging of their class has been completed. Trophies or awards won at the event may, at the Entrant's discretion, be displayed on the field after the awards ceremony.

D. PRESENTING THE JAGUAR FOR JUDGING - CHAMPION DIVISION

1. Tools and Owner's Manuals

Tools (if appropriate to that model), jacking equipment, associated rolls, pouches, and containers plus other factory original accessories (grease guns, tire pumps, etc.) must be displayed. **If tools were optional for the model, they need not be displayed; however, if they are displayed, they will be subject to judging.** Owner's Manuals and any associated stowage pouches or sleeves shall also be displayed for judging.

2. Spare Tire

Spare tires may remain in their normal stowed locations. Where necessary, the Judge will request that the spare tire cover be removed in order to compare the tire size, type and make/brand with the road tires and examine it and the wheel's condition and cleanliness. The judge may NOT request that the spare be removed to inspect the compartment.

E. PRESENTING THE JAGUAR FOR JUDGING - DRIVEN DIVISION

Engine verification

Before formal Driven Division judging begins, the judges must verify that it has the proper engine.

F. PRESENTING THE JAGUAR FOR JUDGING - SPECIAL DIVISION

Fire Extinguishers

All competition cars must be equipped with fire extinguishers.

G. ENTRANT - JUDGE INTERACTION

1. Responsibility

It is the responsibility of the Entrant to present an authentic well-prepared Jaguar; it is the responsibility of the Judges to recognize and confirm the Jaguar's authenticity. It is incumbent upon the Entrant to furnish proof of authenticity when the Judge questions any point of authenticity. The role of the Judge is not to prove the facts, but to assess the claim of authenticity, based on the evidence submitted.

JUDGES MUST REMEMBER THAT THEY ARE EVALUATING THE ENTRY, NOT THE ENTRANT.

2. Serious Entrants

A Judge must keep in mind that an Entrant in a Concours is generally very serious about the Jaguar being shown and should welcome the benefit of the Judge's knowledge.

3. Exterior Judge's Authority

The Exterior Judge has the authority to require the bonnet, doors, windows, and boot (depending on the Division) be opened or closed to properly evaluate fit and finish of bodywork.

4. Judge Touching the Jaguar

While judging is in progress, Judges are forbidden to touch the Jaguar without the Entrant's permission.

5. Required Conversation Between the Judge and the Entrant

Judge's questions may arise concerning originality or authenticity that **MUST** be discussed with the Entrant before finalizing the actual score sheet deduction.

6. Non-Authenticity Notification and Acknowledgement

a. Judges who believe a certain feature(s) or item(s) to be non-authentic **must inform the Entrant and allow the Entrant the opportunity to present documentation proving the authenticity of the feature or item being questioned.** If the Entrant does not or cannot prove authenticity to the Judge's satisfaction, the Judge must list each such feature or item, and it's corresponding mandatory deduction, in the Non-Authenticity box of the score sheet and **HAVE THE ENTRANT INITIAL EACH ITEM.**

b. **Failure to inform the Entrant of a deduction and/or secure the Entrant's initials will result in the deduction being invalidated. If the Entrant chooses not to initial the deduction, the Chief Judge should be informed immediately.**

c. Refusal by the Entrant to initial a non-authentic deduction is grounds for the Entrant's disqualification. The Entrant's initials **do not constitute agreement** with the judge's assessment but **do acknowledge** that information regarding the deduction was received, and that the opportunity to document the authenticity of the item was given.

7. Extraneous Conversation Between the Entrant and the Judge

However well intended, Entrants must not initiate extraneous conversation with Judges during judging; such conversation slows the judging. Some Entrants may take every opportunity to try to "sell" the Entry to the Judge or to excuse the appearance of an item. Judges should politely caution assertive, outspoken, or persistent Entrants that they are disrupting and extending the process. If such behavior continues, judging of the Entry should be suspended and the Entrant's conduct reported to the Chief Judge.

8. Influencing Judges

If, during the concours, an Entrant, or a person acting on behalf of a particular Entrant, intentionally offers a Judge or Judges unsolicited information, or displays material that would clearly discredit a competing Entry, the Entrant in question will be disqualified.

9. Entrant Who Argues

Judges should avoid confrontations with an Entrant who is prone to argue about actual or perceived deductions. If the arguing persists, it should be referred to the Chief Judge; otherwise, the Entrant should be politely reminded of the prerogative to file a formal protest.

10. Judge's Decision is Final

The decision of the Judge(s) is **FINAL**. Judges should NOT be subjected to pressure because of his or her scoring assessment and application of the Concours rules.

11. Resolving Ties

JCNA accepts tie scores within a class. Re-judging is not required unless the judging team or the Chief Judge determines that circumstances warrant it.

H. THE ENTRANT AFTER THE CONCOURS

1. Reviewing the Jaguar with the Entrant

An Entrant who is seriously concerned and interested in improving his or her Entry and knowledge of the marque may request a Judge to review the Entry with them following the completion of the day's judging.

2. Leaving the Concours Field

Except in unusual circumstances, competing Entries should not be allowed to leave the Concours field until the conclusion of the Concours or until judging and scoring have been completed for the class in which the vehicles are entered. If an Entrant leaves the field prematurely (for whatever reason) and their Entry, or the entire class in which they were entered, requires re-judging, **they will be eliminated from the competition.**

3. Returning Score Sheets to the Entrant

The Entrant will be told his or her Entry's score but will not receive the score sheets at the end of the Concours day. The Concours Chair or Chief Judge **MUST** send the original score sheets to the Entrants, no later than 21 days after the Concours. Copies of the score sheets may be kept for club records.

I. CONCOURS AWARDS AND DIVISIONS

1. North American Awards

At the conclusion of each JCNA Concours year, JCNA presents the North American Concours d'Elegance Awards three deep, in each of the Champion, Special, and Driven Division Classes, to members of JCNA affiliates or JCNA Members-at-Large. These annual awards are determined by averaging the Entrant's three (3) highest scores during the Concours year. Scores achieved at the JCNA Challenge Championship or Western States qualify for inclusion in the three (3) score average. Entries competed in three or more JCNA concours automatically become eligible for a North American award in their particular Division and Class. If an Entry's three (3) highest score average does not position it among the top three places of its class, then the Entrant's highest two (2) scores will be evaluated for a Regional Award. (2013 AGM)

No Entrant may receive both a North American and a Regional Award in any given year, in the same Class, for the same Entry. (2013 AGM)

No Entrant may enter the same vehicle in more than one class at a JCNA Concours. (2013 AGM)

2. Regional Awards

Regional Awards are presented in each of the six JCNA Regions. These annual awards are determined by averaging the Entrant's two (2) highest scores achieved at JCNA sanctioned concours within the Entrant's home region during the Concours year. Scores achieved at the JCNA Challenge Championship or Western States qualify for inclusion in the two (2) score average. (2013 AGM)

3. The Official Concours Divisions

Each sanctioned JCNA Concours d'Elegance will provide for Entries in Champion Division, Driven Division, and Special Division Classes. (2013 AGM)

4. Unofficial Divisions

"Display" is not an official JCNA concours division but is a classification given to those Jaguars voluntarily positioned for viewing as a pre-planned part of the event. This type of participation is promoted to both add to the number and variety of Jaguars being shown and to encourage future concours entries. Display entries are not formally judged, scored or given any competition points. However, Display participation (along with other specific JCNA competition events) qualifies as credit towards the Fred Horner Sportsman Award. For record purposes, member Display Entrants must be included when reporting concours results on the JCNA Competition Results web page, with the annotation "Disp" in the Class field. (2013 AGM)

J. COMPLAINTS AND PROTESTS

1. Protests

The protest process is intended to allow Entrants to question the manner in which their Entry was judged and/or the deductions made during the judging. Depending on its nature, the protest may be made on the day of the event **or as noted in item 4 of this section.** (2013 AGM)

2. Settling On-Site Complaints or Protests

If, during a Concours, an Entrant voices a protest or complaint relating to any aspect of the judging of the class or of his or her Entry, the Chief Judge and the Judges involved must strive to settle the issue courteously and fairly on-site, prior to the awards presentation. If warranted, re-judging the Entry, or the entire class, is an option. Local club procedures will prevail and the Chief Judge will make the final decision. Complaints or protests that cannot be resolved may be dealt with through the Protest Procedures that follow.

3. Formal Protest

An Entrant's protest or judging dispute, that cannot be satisfactorily resolved at the local level, may be appealed to the JCNA Protest Committee for a decision.

4. Filing Protests

- a. An Entrant's protest must be filed with the JCNA Protest Committee Chair **within 30 days of receipt of the score sheets or the protest** will not be considered. The address for the JCNA Protest Committee Chair is listed in the Jaguar Journal's Club Page and on the CONTACTS page of www.jcna.com (2013 AGM)
- b. When an Entrant files the protest with the Protest Committee Chair, a copy must also be sent to the Chief Judge of the event. Following this procedure will help expedite the protest resolution process. **Where possible, investigation and resolution of the complaint by the host club is encouraged.** (2013 AGM)

5. Concours Protest Committee and Unresolved Protests

Only the JCNA Protest Committee has the authority to rule on unresolved Entrant procedural or administrative protests. Only Entrant protests regarding scoring, procedural, and administrative problems will be considered. The Protest Committee cannot change the Judges' scores if a rule was not broken.

6. Protest Committee Responses

As soon as the Protest Committee reaches a decision, the Entrant filing the protest is notified of the ruling by e-mail (if possible), followed by a formal letter from the Protest Committee Chairman. If the ruling results in a concours score change, the person in charge of Concours Scores Recording will be notified. The Editor of the Jaguar Journal is also notified in order for the results of the protest to be published in the Journal.

7. Non-Entrant Questions

Any JCNA member (not participating as an Entrant or representing an Entrant) with a question regarding the conduct of a JCNA Concours or the application of Concours Rules, should address that question directly to the event Concours Chairperson or the Chief Judge. If the question is not answered to the member's satisfaction, it should be forwarded to the JCNA Vice President. The Vice President may answer the question directly or refer it to the appropriate committee for a response.

Chapter V. Judges' Guide to Jaguar Evaluation

A. OVERVIEW

1. Judging to the Standard

In order for Concours scores to be meaningful in establishing North American competition standings, Judges throughout North America must judge each JCNA Concours Entry on the basis of a recognized **standard**.

That **standard** is, “**The Entry’s configuration and condition shall be as it was officially documented or intended to have left the factory.**” JCNA challenges its concours Entrants, using original or authentic replacement parts and materials, to prepare and present their Entries to that **standard** (see Chapters II and VI for allowable exceptions). The ultimate goal is to achieve a level of judging standardization such that any given Entry, judged by any JCNA Affiliate in North America, would receive an identical score.

This Chapter provides guidelines as to what Judges should look **at** and generally what to look **for**. Items not up to the established **standard** must be assessed appropriate deductions (a review of the Chapter VI listings will provide reminders of other items subject to judging).

Entries are judged “as presented”. There will be no allowances or exceptions for “en route damage”.

Clubs and individual Judges are prohibited from lowering the standards set forth in these rules. Choosing to ignore discrepancies and/or not perform required inspections does a disservice to those Entrants who have taken the time and expense of preparing their Entries for an examination that would reward their attention to detail and distinguish them from any competition prepared to a lower standard. Evidence that a club is judging to a lower standard, or is deliberately excluding certain judged items from the judging process, can result in the voiding of the results of the affected classes. (2013 AGM)

2. Cleanliness and Condition

With certain specific exceptions, each visible item on all Entries should be judged for condition and cleanliness.

3. Authenticity

a. Items on Champion and Driven Division Entries will also be judged for authenticity.

Authenticity will be determined by judging individual components for:

- original materials or authentic replacement materials
- correct fasteners (e.g., bolts, screws, latches, etc.) of the correct size and type
- correct patterns, shapes, fit, and positioning
- correct colors, finishes, and plating
- correct applicability to the model

Note: A single item may be assessed both a non-authenticity deduction and Cleanliness and Condition deductions. (2013 AGM)

b. Replacement Parts

Replacement parts, regardless of the manufacturer, are considered authentic only if they meet the **exact** specifications and appearance of the original item or material. "Almost correct" items are non-authentic.

Exception: Replacement parts, still available from Jaguar Cars under their original Part Number but now having a different color or configuration than the original, will be accepted as authentic.

c. Logos, Labels, Decals, and Dash Plaques

Parts and accessories which, when properly installed, normally allowed the manufacturer's cast, engraved or imprinted name or logo to be plainly and easily observed, are considered non-authentic if the original brand name or logo is missing. Decals, stick-on labels, and metal tags are judged separately and may not affect the authenticity of the item to which they're attached. Decals, labels, or permits required for legal operation, access, or like purposes, may be neatly affixed to the vehicle's glass or bumpers without deduction. An Entrant may also display a maximum of two window or bumper stickers or decals issued by JCNA or its affiliates or by organizations which promote automobile preservation, exhibition, or restoration.

Dash plaques commemorating JCNA concours or similar events, are allowed in Driven and Special Divisions only. Plaques should be neatly affixed to the dash or console.

d. Non-Authentic Deductions

Specified deductions must be assigned for non-authentic items; Judges must be aware of exceptions to the authenticity rules as they apply to certain components and Divisions.

Preservation Class

Deduct for condition and cleanliness as in other classes. Components on Preservation Class entries that have been restored, refinished, or replaced will receive "Wrong" or Non-Authentic deductions. The words "Restored" or "Reconditioned" shall be synonymous with the words "Wrong", "Missing", "Incorrect" or "Non-Authentic" and cause the same numerical deductions. Items and areas that have only been partially restored should receive a percentage of the required Non-Authentic deduction.

4. Items Excluded From Judging

- a. Front and rear suspension components
- b. Brake drums, discs, and calipers
- c. The underside of the vehicle
- d. Inner sidewalls of road tires (2013 AGM)

5. Items Common to All Component Areas

a. Rubber Seals, Pads, and Weather Stripping

Judge the authenticity of all rubber moldings, mounts, seals, pads, and weather stripping. Weather stripping and rubber moldings should fit uniformly and be clean, black, and not cracked or split. Generic after-market rubber seals **should not** be found in place of original molded seals.

b. Nuts, Bolts, Studs, Washers, Screws and Miscellaneous Fasteners

Judge the authenticity of all visible fasteners, including number, type, size, length, plating, finish, bolt head markings, nut style, washers, etc.

c. Striker Plates, Latches, and Support Rods Chips and Stains

Do not deduct for paint chips, plating wear, or stains caused by latch mechanisms, rubber bumpers, or support clips where metal or rubber contact is made. This includes bonnet, door, and boot lid latches, striker plates, and support rods. The finish or plating on other portions of the item should be of good quality. This does not include chipping or rubbing caused by parts or assemblies that are misaligned.

B. OPERATION VERIFICATION (FUNCTIONAL ONLY)

This verification deals exclusively with the functional qualities of the individual items and systems listed. **Do not judge the condition or cleanliness of any of the components being tested during this process.** (Condition and cleanliness of these items are the responsibility of the Exterior Judge.) **All of the exterior lights mounted on the Jaguar must work.**

Note: Some models must have the **ignition key on** for electrically powered components to function correctly. Prompt the Entrant to turn the ignition on if some of the OV items fail to operate. **The courtesy repair time is 15 minutes, see Chapter III, G2.** (2013 AGM)

1. Horns

Two electric horns were supplied on all models, one high note and one low note. Ask the Entrant to operate the horns as long or as often enough to determine that both horns are working and to confirm that both a high and low note are heard. If one or both horns do not work, the appropriate **non-functional** deduction should be made. If non-Jaguar horns are heard, or if both horns work, but sound the same note, the appropriate **non-authentic** deduction should be assigned by the appropriate judging team.

2. Headlights-Inspect High-Low Beams

Verify the operation of high and low beams.

Note: On pre-war models and postwar 2½ and 3½ (MK IV) Jaguars the headlamps may dip to only one lamp.

3. Driving Lights

Verify the operation of the driving lights.

4. Fog Lights (front and rear)

Verify the operation of all fog lamps. Several models have two red fog lamps mounted in both the front and rear rubber bumpers

5. Parking, Tail, Side, and License Plate Lights

Verify the operation of all parking, tail, side, and license plate lights. There may be as many as 10 or more lamps involved in this check.

Note: On 1968 and early 1969 US Export model E-Types, the sidelights **are not** fitted with bulbs; they are reflectors only.

6. Brake Lights

Verify the operation of the brake lights; check that all associated lamps function.

7. Back-up Lights

Verify the function of the back-up lamp (the transmission must be in reverse and the ignition must often be ON for this system to work). Models equipped with only a single back-up lamp will only receive a 1.0-point deduction if it does not work. Models with two back-up lamps will receive a 1.0-point deduction if a single lamp fails to work and a

6.0-point deduction if neither lamp works. Certain early models were not equipped with back-up lights and therefore incur no deductions.

8. Turn Signals

Verify the operation of the turn signals, check that the correct front, side (when fitted), and rear lamps come on and flash correctly. Certain models were equipped with trafficators (flipper-type turn signals located in the center door posts) when selected, the appropriate trafficator extends and the light within it comes on. Models **not** equipped with turn signals or trafficators incur no deductions.

C. EXTERIOR

1. Body, Doors, Bonnet, Sun Roofs and Boot Lid

Body Panels

Individual body components should fit well, with a uniform gap between them and adjacent panels or structures. Check panels for authenticity of shape and material (i.e., no fiberglass). Look for excessive misalignment, protrusion, or contact around doors, bonnet, and boot lid. Check for rust and dents and determine if the body has been altered from the original design in any respect. Inspect for items, which have split, cracked, or separated. Check welded, brazed, or leaded body panels, for separation or stress fractures.

Note: Many early XK and prior series Jaguars were manufactured with a certain amount of misalignment between the doors, the fenders, the bonnet, the boot lid, and the adjacent body panels. Judges must learn how much misalignment is considered acceptable. Deduct for excessive misalignment.

2. Paint Finish

a. Paint and Body Work

Judge the exterior finish for runs, sags, orange peel, nicks, blisters, ripples, dents, stone chips, scratches, checking, or crazing of the paint. Consider the overall appearance while judging for authenticity of color. **There is no deduction for type of paint.** Colors must be reasonably close to production standards for year and model. Metallic colors or two-tone color schemes must adhere to factory standards. Non-production colors must be documented by the car's JDHT certificate, as having been an original factory-applied color. Check for overspray on chrome trim, weather stripping, mounting pads, moldings, and doorjambs, etc. Observe and deduct for mismatched body colors. Protective clear bras are non-authentic. **Visible touch-up or other obvious repair of chips and paint damage should be given appropriate deductions.** (2013 AGM)

b. Body Stripes (Coach Lines)

Determine whether body stripes are appropriate for the model.

- If body stripes (coach lines) are appropriate and present on the car, evaluate the authenticity of their position, color and composition.
- If body stripes should be on the model but are **missing**, assign the mandatory non-authentic deduction.
- If body stripes are NOT appropriate for the model but are present on the car, assign the mandatory non-authentic deduction.
- **All authentic Jaguar body stripes are applied as tape, NOT painted and have Jaguar Cars part numbers.**
- **See Pin Stripe Table Chapter VI, Section F, Exterior, Pages VI-10 and VI-11.** (2013 AGM)

Preservation Class - Fit and Finish

Restored paint (percentage of restoration shall be determined by the Exterior Judge) shall be treated the same as "Wrong Color". Body stripes should be evaluated as in C. 2 b) above. New body stripes shall receive a non-authentic deduction.

3. Glass and Plastic/Plexiglas[®] Windows, Lamp Lenses and Covers

Any brand of window glass that meets or exceeds the requirements of the original specifications on form, fit, or function (color/tint) is acceptable.

Note: Glass manufacturer's logos are **not** judged.

a. Glass and Plexiglas[®]

Judge all glass for clarity and authentic tinting. Look for scratches, pits, discoloration and separation of laminated layers, particularly in the corners of the windscreen. Normal operation and handling of convertible tops and OTS side curtains may cause minor blemishes on the plastic rear windows and side curtain Plexiglas[®].

b. Headlamps and Glass and Plastic Light Lenses

Judge headlamp covers on closed headlamp E-Types and contemporary models. Judge the condition of the lenses and reflectors of all lamps. Where visible, judge modern headlamp bulbs for original color and style. Each set/pair of sealed beam lamps, fog lamps, and driving lamps must be identical in make.

4. Chrome and Stainless Steel Components

(including accessories, emblems, badges, antennas, window trim, tailpipes and resonators)

a. Chrome

Judge all chrome for common flaws such as discoloration, wear, pits, scratches, blisters, and peeling. Deduct for grinder marks, major changes in coloration (e.g., nickel showing through), and loss of definition through over-working. **To be considered authentic, alternative grilles and/or grille inserts and add-on trim must have been offered for the specific model and model year in official publications** (see Appendix C).

Preservation Class - Chrome Work

Judge in the same manner as paint, e.g. restored chrome receives the same deduction as "Wrong" or "Missing". Scratches on restored chrome will receive additional deductions.

Note: Original British chrome work tended to have more of a bluish tint than its North American counterpart. **No deduction** should be taken for slight color differences.

b. Leapers

Check for leapers. Leapers on Series 1, 2 and 3 XJ and XJ40 Style Saloons are considered acceptable North American Jaguar Cars accessories. In 1994, X300 model saloons, exported overseas, were the first to be offered with the Jaguar Cars Ltd. redesigned "safety" leapers. **Leapers were never officially offered for XK 120s, XK 140s, E-Types or XJSs and should be judged as non-authentic when present.**

c. Tailpipes, Extensions, Resonators and Hangers

Judge the visible tailpipes for correct location and configuration, and correct resonators, extensions, hangers, and finish.

d. Windshield Wiper Arms and Blades

Judge the wiper arms and blades. Early Jaguars with flat windshield glass should have single-piece stiff-backed wiper blades rather than the flexible-type used with multi-pieced blade supports on later curved windshields. Wiper blade brand names are not judged.

5. Hood, Hood Envelope, Side Curtains, & Tonneau

Judge the appearance, frays, punctures, and tears. Check for correct materials.

a. Hoods

Check the hood for correct fit, style, and fasteners and the presence and correct installation of special trim such as pin beading (pin beading attached by visible screws is non-authentic). Judge the rear windows of OTSs and DHCs for correct size, configuration, fit, and material. The original OTS and DHC rear window and zipper configurations were often compromised on after-market hoods. Deviations from original should be assigned non-authenticity deductions.

b. XJ6C, XJ12C and XJ-SC (Cabriolet) Vinyl Tops

Judge the vinyl tops of XJ6C and XJ12C coupes for correct fit, color, and secure attachment.

c. Hood Envelope and Tonneau

Judge the tonneau and hood envelope for correct style, fasteners, and zipper configuration.

6. Electric Horns

Two electric horns were supplied on all models. If non-authentic horns are visible during judging or heard during Operation Verification, the appropriate judging team shall assign a non-authenticity deduction.

7. Wheels

Using Appendix B as a reference, judge the road wheels for correct style, size, type, and finish. Judges must be aware of the authenticity exceptions allowed for Driven Division Entries (Champion and Special Division Boot Judges will judge the spare wheel and tire).

a. Fully and Partially Painted Wheels

Check that the correct sections of the wheels are painted and that authentic colors have been used.

b. Wire Wheels

Judge the wheels for correct hubs, knock-offs, rim style, and numbers of spokes. Check the spokes, the wheel rim and hub for rust, grease and damage. Look through the outer spokes and check the wheel hub for cleanliness and condition. **Do not** judge the brake discs, calipers, brake drums, or axle hubs that may also be visible through the spokes.

c. Chrome and Alloy Wheels

Most contemporary Jaguars are offered with a large number of wheel options; official accessory brochures may be required to document their authenticity. Many dealers chrome plated or polished wheels, which were never offered in chrome or polished by Jaguar Cars. Judges must be alert to this situation and, as necessary, ask the Entrant to validate the authenticity of the wheel finish.

d. Wheel Lug Nuts, Hubcaps, and Emblems

Judge the lug nuts, hubcaps, and wheel center emblems. All wheel trim must match. Mismatches shall be assigned non-authentic deductions.

8. Gas Cap Lids and Doors

Gas cap lids and doors **are not** opened nor are their interiors judged.

9. Tires

a. Champion Division

Using Appendix B, the Entrant's Owner's Manual, or the Entry's Tire Data Plate, judge Champion Division tires for authenticity (see Chapter VI. Heading F. Note m.). Any brand is acceptable. **Cars less than 15 years old must have tires whose speed ratings are equal, equivalent, or superior to their original tires** (see Appendix B). All judged tires' brand, size, construction, tread pattern, sidewall, and speed rating must match (an exception to this rule occurs with some of the newest cars, where the front and rear tires may be a different size). It is the responsibility of the Exterior Judge to judge the road tires. For Champion and Special Divisions, the Boot Judge checks the spare tire. Both judges should work together to verify their findings.

b. Driven Division

Tires of any brand, type, or profile, having the original inside diameter are acceptable. Road tires must be of matching brand, type, and profile. Cars less than 15 years old must have tires whose speed ratings are equal, equivalent, or superior to their original tires (see Appendix B).

c. Condition and Sidewalls

All tires subject to judging should be judged for weather checking, excessive tread wear and blemishes. Depending on the era, many Jaguars were available from the factory with either white wall or black wall tires. There shall be no deduction for an Entrant's choice of white or black sidewalls provided they are in keeping with the vintage of the Jaguar. **Redline sidewalls were never offered by Jaguar and are considered non-authentic in Champion Division only.**

Note: Acceptable tread wear may be determined by observing the tread wear indicator bands or by using a coin or other device to measure that the most shallow tread groove is at least 1/16" deep. **Inner sidewalls of road tires are not judged.** (2013 AGM)

d. Tire Valve Caps

Tire valves should have valve caps appropriate to the vintage. Pre-'60s Jaguars should have metal valve caps. Logo valve caps must be shown to have been an authentic Jaguar Cars accessory.

10. License Plate Brackets and Mountings

All models delivered to North America were provided with a prepared bumper location or specific devices necessary for mounting a front license plate. If an Entry **does not** have a front license plate mounted, and is a model originally delivered with separate license plate mounting devices, those devices must be displayed either on or off the car. Check the license mounting devices for authenticity. If an official license plate is not required, a "Jaguar" or club plate may be displayed without a non-authentic deduction. License plates will only be judged for cleanliness, **NOT** condition.

11. License Plate Frames and Plate Clear Covers

Champion Division: Plain license plate frames or those advertising current or past Jaguar dealerships, JCNA, JCNA Affiliates, or promoting the Jaguar marque are accepted. Frames may be of any material. All other license plate frames will be scored as non-authentic unless the Entrant can document that Jaguar Cars Ltd., Jaguar Cars Inc., or Jaguar Canada Inc. offered them for that specific model and Model Year.

Clear plastic or glass license plate covers are allowed and, if present, will be judged for cleanliness and condition.

Driven Division: License plate frames and/or covers will only be judged for cleanliness and condition.

D. INTERIOR

1. Door Shut Panels, Hinge Panels, Hinge Panel Switches, Conduit Protectors and Sills

The Interior Judge shall check the edges of all doors; the door shut faces, hinge panels, sills, their attachments, and components for authenticity, condition and cleanliness. Be alert for excess hinge lubrication, sill and shut panel damage from door misalignment, and damaged or incorrect rubber wire conduits.

2. Woodwork, Vinyl and Leather

a. Woodwork

Finishes on actual and simulated wood trim should be shiny without mars or scratches. Check for peeling, cracking, and separating of the laminated layers of wood or simulated wood. Refinished surfaces that appear to have heavy, plastic-looking coatings are non-authentic on early models.

b. Interior Trim

Judge leather, fabric, or vinyl trim, piping, and panels for wrinkles, scuff marks, correct fit, and secure attachment. Fasteners should be present in the original number, style, size, and finish.

3. Headliner/Underside of Hoods

Judge headliners and the undersides of DHC, OTS, and convertible hoods for smooth fit and secure fastening. Check saloon and coupe headliners for areas that may have detached from their backing and have sagged or formed bulges or blisters. Check for correct fabric and leather straps. Judge the hood frame, hood stick finish and covering and the securing hardware. Judges must be knowledgeable of areas on the underside of hoods that, under normal use, are subject to mild wrinkling, creasing, compressing, and rubbing and **not** deduct for them.

4. Door Panels and Arm Rests Door

Check for authenticity of replacement materials, colors, and designs. Look into the open-topped map cases on the doors and, when fitted, judge the underside of the armrests. Judge panels for wrinkles; scuff marks, correct fit, snug attachment, and correct fasteners. Check whether the appropriate sound system speakers and grilles are present and intact.

5. Carpeting and Pedal Pads

a. Carpeting

Judge carpeting for uniform, authentic, unfaded color. Judge all carpet sections, carpet binding, and heel pad inserts for correctness of materials, pattern, stitching, size, color, cut, and fit. Check whether carpet fasteners are present in correct numbers and locations.

b. Overmats (Footwell Rugs)

All Series III XJ Vanden Plas and Sovereign (6 and V12) were fitted at the factory with (3) “fleece” overmats for the passengers; modern XJ, XK, S-Type, and X-Type models were factory fitted with either fleece or carpet overmats for the driver and passenger(s). All factory fitted overmats shall be presented for cleanliness and condition judging outside the Entry and shall be assigned a non-authentic deduction if missing. The Entrant must remove non-authentic overmats; they are not judged, but they shall be assigned a non-authentic deduction if not removed.

c. Pedal Pads and Footrests

Judge pedal pads and footrests for wear and authenticity.

6. Hardware, Steering Wheel and Instruments

a. Consoles Front and Rear

Judge the fascia, shift lever, shift lever boot, and knob. Check the console finish, fasteners, configuration, and color.

b. Instrument Panel and Dash Area

Jaguars were supplied with Jaeger, Lucas, and Smiths gauges. Check for complete instrumentation. Are the instrument faces and numbering clean and clearly legible? Are any items missing from the fascia, such as switches, knobs, decals, bezels, etc.? Switches for extra driving lights or other accessories, when allowed, must be mounted neatly and unobtrusively. Judge the panels covering the underside of the dash and the kick panel areas. Judge the knobs on the heater and air conditioning outlets. Are the louvers in the air outlets clean and intact?

Note: Some XK and MK 2 models are allowed extra (authentic) driving lights and similar accessories that require the installation of separate switches.

c. Steering Wheel

Check whether the steering wheel is correct for the model; is it the original diameter or has the diameter been altered? If its rim is made of wood, look for separation of the laminated layers and cleanliness of the aluminum spokes. If the wheel rim is made of other material, look for chips, nicks, cracks, or scratches. If the wheel is wrapped, is the wrapping a factory accessory or after-market?

d. Door and Top/Hood Latch Hardware

Judge door and window handles, locking knobs, bezels, and top latches

7. Radios, Tape and CD Players, Alarms, Phones, Radar Detectors, GPS Systems, Displays and Miscellaneous Electronics.

(See Chapter VI, Heading G. Notes b. and g.)

a. Champion Division

Judge the electronic devices in all Champion Division Entries for authenticity.

b. Driven Division

Inspect the electronic devices in all Driven Division Entries for neat installation in the original mounting space, utilizing the original speaker locations and external housings and grilles (see Chapter II, Section 3.Heading A. Rule 1.d. for exceptions allowed).

8. Seats, Squabs, Head Rests, and Belts

a. Seats and Squabs, Head Rests

Check for correct color, design, and material (e.g., number of pleats, smooth or perforated, leather or vinyl). Look for tears, discoloration or fading, cracks, and peeling. Judge the seat backs as well.

Note: Under normal operations, some hood sticks, seat rails, seat belts and other protrusions may leave impressions in carpeting, seat backs, or other adjacent soft materials. Such depressions **should not** be judged as flaws unless the material has been punctured or permanently damaged.

b. Seat Frames

Judge exposed seat frames and adjusting levers for correct paint color, plating, or protective caps.

c. Seat Belts

Judge factory-installed seat belts for correct hardware, fasteners, and retractors as appropriate. It is acceptable for seat belts to be installed on models not originally equipped with them; however, the belts must be neatly installed and their hardware appropriate to the vintage, i.e. early cars **should not** have automatic belts or large mechanical retractors.

9. Small Compartments

Glove boxes and other interior compartments with doors shall remain closed. The insides of these compartments **are not** judged (XK 120 battery compartments are an exception). Storage areas without doors **are** judged.

10. Batteries and Battery Compartments

(Batteries are not judged in Driven Division.)

a. XK 120s

The Interior Judge should ask Entrants to open XK 120 battery compartments, **located behind the seats**, to judge the general area, the configuration of the two 6-volt batteries, the LUCAS bakelite covers, the visible cables, and the battery hold downs. The battery cable ends of XK 120s **are not** judged unless the battery covers are missing. (2013 AGM)

b. Other Models

Entrants should be asked to remove the covers from the batteries of all other Jaguars (except XK 140s and XK 150s, whose batteries are **not** inspected because they are in the wheel well). Judge the general area, the configuration of the battery, the visible cables, the battery hold-downs, and the cable ends.

Note: See additional battery inspection criteria under the Engine Section F.5.e. of this Chapter.

11. Tool Kits

MK VII, MK VIII, and MK IX Jaguar saloons had tool kits in both the driver and the passenger door panels. When judging cars with this configuration, the Boot Judge will judge the tools.

E. BOOT

(Judged in Champion Division for condition, cleanliness, and authenticity. Judged in Special Division only for condition and cleanliness. Not judged in Driven Division.)

1. Paint, Side Panels, Mat or Carpet, and Miscellaneous Fasteners

Judge trim panels, carpeting or vinyl matting, spare tire well, and painted components (e.g., underside of boot lid, gas tank, etc.). Check materials, patterns, and colors. Some models may be fitted with optional luggage. Judge tool clips, straps, and miscellaneous boot lid and tire compartment hardware.

2. Tool Kits, Containers, and Pouches (Jack, Hammer, and Owner's Manual)

a. Completeness and Condition

Judge the completeness and condition of both tools and fitted tool container or pouch. Check to see that the kit as well as the jack and the hammer (or lug wrench) are correctly mounted or displayed.

b. Tool Kit Variations

Some Jaguar tool kits look similar, but the contents vary greatly from model to model. Judges should share their tool authenticity knowledge before deducting points. Some MK Jaguars have their tools in the front door panels rather than in the boot; in such instances, it is still the responsibility of the Boot Judge to locate and judge them.

Preservation Class - Tools

A repainted jack or other tools will receive the same deduction as "Wrong" or Non-Authentic.

Note: Jaguar often fitted the same tool container to several models, omitting unnecessary tools. Examples of this are the 420 saloons, fitted with the MK 2 style tool container. Because the 420 jacks had built-in handles, the jack ratchet was omitted from the tool container thus leaving an empty tool slot. It is the responsibility of the Entrant to prove the authenticity of missing tools.

c. Jacks and Jack Handles

The Entrant should display or, otherwise, make the jack and jack handle visible for judging. In those instances where the jack and jack handle are stowed behind the spare tire, the Entrant may either remove them beforehand or, when the Boot Judge is present, loosen the spare tire hold-down and raise or tip the tire in order for the tools to be viewed and judged.

d. Optional Tool Kits

Some models, particularly the XJ series and MY '68 E-Types and after, were not delivered with tool kits; however, kits were available as an option. If an Entrant chooses to display an **optional, authentic** tool kit, it will be subject to judging.

e. Owner's Manual and Additional Paperwork

Judge the owner's manual and its pouch for authenticity, condition, and cleanliness. The vinyl and plastic stowage pouches can become very brittle with age. The Judge **should not** handle the manual; its authenticity is judged by its size, its color, and its cover. If the manual is in a pouch, and its cover cannot be clearly seen, the Entrant should be asked to remove it for judging. Additional paperwork originally supplied with the Jaguar may be displayed, but additional paper work, including, but not limited to, factory shop manuals, spares catalogues, and advertising brochures, **are not** judged; however, if required, the Entrant may use them as authenticity references.

Note: Refer to model specific Judges' Guides for further information on judging Owner's Manuals.

3. Spare Tire, Wheel, & Cover

The Boot Judge checks the authenticity of the spare tire and wheel independent of the road wheels. If Appendix B indicates that the spare wheel and/or tire should match the road wheels, they may be compared. On some models, it is possible for the spare wheel and/or tire to be authentic without matching the road wheels or tires.

a. Painted Wheels

Judge the wheel for color and condition of paint.

b. Wire Wheels

Judge the wheel for color and condition of paint or chrome. Judge the spokes, the rim and the center hub. The inside of a splined hub **is not** judged.

c. Spare Tire

Where full sized spares are present and as verified by Appendix B or the Owner's Manual, the spare tire should be of identical brand, **tread pattern, speed rating** and size **as the** tires mounted on the road wheels. (2013 AGM)

Note: Acceptable tread wear may be determined by observing the tread wear indicator bands or by using a coin or other device to measure that the most shallow tread groove is at least 1/16" deep.

d. Spare Tire Remains in Boot

The spare tire must be displayed inside the boot. The Boot Judge **may not** request that the spare be removed to inspect the compartment; however, the Entrant may have to loosen and raise or tip the spare tire in order for the Judge to judge the jack and jack handle behind it. The Judge may also request that the spare tire cover be removed to judge the tire and the wheel.

e. Spare Tire Cover

Judge the spare tire cover, for material, correct design, color and fittings.

4. Battery

(Batteries are not judged in Driven Division.)

The Entrant should be asked to remove the protective cover from the battery for judging. Judge the battery configuration with respect to its location, style, cover, the positions and type of its terminals, the battery hold-down and the battery cable ends.

Note a: Lucas and other batteries that were original equipment are considered expendable and may be replaced with a battery of any brand provided it is in the same location and orientation and has the same voltage and configuration as the original.

Note b: Configuration in this instance refers to "maintaining the original type and placement of battery terminals." "Size" was expressly deleted from the rule.

Note c: In 1994 the Protest Committee ruled that "fluted or cylindrical sided" (Gates-Optima style) batteries were non-authentic.

F. ENGINE COMPARTMENT

(Judged in Champion Division for condition, cleanliness and authenticity. Judged in Special Division for condition and cleanliness only. Not judged in Driven Division.)

Despite the work involved in maintaining and preparing an engine compartment for concours judging, its overall cleanliness and condition should be excellent.

1. Plated and Painted Fasteners, Caps, Covers, Piping, Handles, etc.

Judge the chrome, cadmium, and plated nuts, bolts, gas lines, exhaust covers, oil and transmission dip stick handles, valve or camshaft covers, radiator and overflow tank caps, hydraulic lines, fuel and air piping, air conditioning metal tubing, hose clamps, etc. Check for non-standard plating or removal of original light plating or paint finishes. Much of the standard gold/yellow and silver cadmium plating was quite coarse and its surface appeared somewhat granular. Normal cleaning and polishing should, at best, only produce a satin granular finish. High-gloss mirror-finish cadmium plating is non-authentic.

2. Engine Compartment Peripheral Equipment and Panels

Judge the authenticity of the firewall, radiator shell, fan shrouds, splash pans and panels, air filter housings, battery trays, fender valances and bonnet insulating blankets. Check for the presence of correct firewall plugs, covers, and grommets. Be aware that the factory painted over certain engine compartment panel sealants that had been liberally applied outside the limits of the designated seam.

3. Engine Basic Components and Belt-driven Accessories

a. Engine Head and Block

Judge the engine head and block for correct application, size, and finish. Check for coolant, oil, or fuel leaks. Judge all visible components: oil filter, air pumps, power steering pumps, compressors, etc. Is the paint on the head an authentic color? If necessary, refer **to the Head Color Table in Chapter VI or** to the appropriate model-specific Judging Guide for a listing of head colors. Are the correct number and types of belts present? (2013 AGM)

b. Carburetors, Fuel Injection, and Fuel and Air Filters

Check that the carburetors are the correct models and configuration for the Entry. Are the correct manufacturer's identifying tags in place? Are the correct air cleaners, associated ducting, and decals present?

Note: SU Carburetor (triangular) Float Bowl tags should not appear on XK 120 or XK 140 H6 carburetors. The tags should be considered optional on XK 150's and other HD carburetor-equipped Jaguars. (2013 AGM)

c. Porcelainized and Non-Porcelainized Exhaust Manifolds

Judge porcelain-coated manifolds for, blisters, crazing, or rust. All post-war models, up through 1969, are believed to have originally had porcelain coated exhaust manifolds. (Please consult the applicable model-specific Judging Guide for possible exceptions.) Judge the manifold covers and crossovers. A plain coarse finish or a light coat of rust is authentic on factory non-painted or non-porcelainized manifolds.

Note: When referring to exhaust manifolds, the British term "enamel" equates to the North American term "porcelain".

Preservation Class - Exhaust Manifolds

Re-porcelainized exhaust manifolds will receive Non-Authentic deductions. Original porcelain coated manifolds will receive deductions in proportion to the amount of coating that is missing.

d. Down Pipes

A plain dark finish or light coat of rust is acceptable on mild steel down pipes. Stainless steel down pipes should **not** appear polished; they may have moderate discoloration or be darkened to resemble mild steel on those models, which were not originally equipped with stainless steel.

e. Chassis and Frame Assemblies

Judge visible portions of the chassis and/or frame assemblies for the correct color and finish. Chassis that have a high gloss powder-coated finish are non-authentic.

4. Cooling System and Air Conditioning Components

a. Radiator and Heater Hoses, Tubing, and Clamps

Judge all hoses and hose clamps. Original molded or pre-formed curved hoses **should not** be replaced with universal ribbed flex hoses. (Hoses must be black and clean, with no visible cracking.) Stockinet covering is **not** required. Original type air conditioning hoses **should not** have their original swaged end fittings replaced by hose clamps. All hose clamps should be as original with the correct finish, adjusting band, shape and style of the adjusting screw head (see Chapter VI. Heading I. Note e.)

b. Radiator Fans and Shroud

Judge the radiator cooling fan(s), fan motor(s), fan mountings, and shrouds. Are the fan pulley and fan belt the same size and style as the original?

c. Radiator Core, Radiator, and Expansion Tanks

Judge the radiator core, expansion tanks, hoses and coolant piping. Cores of original style and material may be difficult to obtain, nevertheless, non-authentic deductions must be assigned for replacements that do not exactly match the original. Judge thermostat housings, radiator caps, and drain spigots.

5. Generators, Alternators, Regulators, Relays, Wiring, and Battery

a. Spark Plugs, Ignition Wires, and Distributor Cap

If spark plugs are visible, check that they are all the same type and brand and that they have the correct connectors. Pay particular attention to spark plug wires, wire separators, guides, connectors, fasteners, conduits, and harness routing. Check the ignition coil, the coil mounting, distributor cap, and plug wire connections to the cap.

b. Generators and Alternators

Judge generators and alternators for correct type, finish, mountings, protective covers or heat shields, wire terminal boots, pulleys, labels, and identification tags. Pre-'65 Jaguars had generators, **not** alternators.

6. Preservation Class - Expendable Items

Non-Authentic deductions will not be assigned for mechanical components such as generators, alternators, and compressors that have been replaced; however, the replacements must be identical to the original.

a. Regulators, Relays, Fuse, and Junction Boxes

Judge voltage regulators for correct models and the correct numbers and types of terminals, covers, and securing clips. Judge the fuse boxes, relays, and junction boxes for correct covers, finish, hold-downs, terminals, and decals.

b. Wiring

Judge the insulating materials, harness coverings, connectors, and terminals. Observe whether later blade-style or "Lucar" connectors have been substituted on models that did not originally have them.

c. Battery (Batteries are **not judged in Driven Division.)**

Judge the battery configuration with respect to its location and its permanent cover, if originally fitted. Judge the style and location of the battery terminals, the battery tray, the battery hold-down hardware and the battery cable ends. Original batteries may be replaced with batteries of any brand provided they are the same voltage and configuration as the original.

Note: Battery configuration refers to "maintaining the original type and location of battery terminals"

Note: In 1994 the Protest Committee ruled that "fluted or cylindrical sided" (Gates-Optima) batteries are non-authentic.

7. Data Plates

As originally fitted, the Jaguar Cars Ltd. vehicle data plate **is exclusive to each Entry** and lists the original Chassis, Body, Engine, and Gear Box serial numbers. In acknowledgement of the uniqueness of data plates, **Judges should not assess condition deductions for original data plates provided they retain their original shape and all of the stamped numbers are legible.** All data plates and their fasteners should be checked for authenticity.

8. Steering Columns, Linkage, and Racks

Judge visible portions of steering columns, linkage, and racks for correct mountings, protective boots, clamps, etc. Assess **no deductions** for the mounting bushing color or composition.

9. Brake Master Systems

Judge the master cylinders, reservoirs, hoses, vacuum tanks, accumulators, and booster devices. Look for correct pedal linkages, protective boots, and brake light switches.

Notes:

Chapter VI.
Judges' Guide for Scoring Non-Authenticity
(Non-Authenticity is not Judged in Special Division)

A. INTRODUCTION

1. Purpose

The guide has been developed to promote standardization within the JCNA Concours program. It provides lists of **mandatory** deductions for non-authentic items found during the judging process.

2. Jaguar Authenticity

By the strictest of concours presentation standards, the most authentic Jaguars are those configured with the stock and optional extra equipment, offered by Jaguar Cars Ltd. for the model, including any unique factory-supplied equipment that may have been required by the country for which the car was prepared.

3. Configuration Allowed

JCNA Concours Entries will be allowed to be configured with any items, listed in the relevant Jaguar Cars Ltd. Parts Book, and applicable to the model, year, chassis and engine number of the vehicle, subject to the following exception:

There may be *no fewer* emission control devices and elements on each Entry, than Jaguar Cars Ltd. originally authorized for the model, year and country for which the car was initially prepared.

4. Authenticity Documentation

Authentic parts, options, and configurations are only those listed and/or illustrated in:

- a. Official Jaguar Cars Ltd. - Parts Books, Service Manuals and Owner's Manuals;
- b. Jaguar Cars Inc. and Jaguar Canada Inc. Sales Literature and Accessory Brochures;
- c. Official JCNA model-specific Judging Guides.

These, or other Jaguar Cars Ltd. or Jaguar Cars Inc. (see Note below) publications, are the only ones acceptable for documenting authenticity (see Appendix C.)

Note: Please observe that a definite distinction is being made between **Jaguar Cars Ltd.** (located in England), **Jaguar Cars Inc.** (located in USA) and **Jaguar Canada Inc.**

5. Jaguar Cars Inc. Accessories - Moderation of the Standard

- a. Beginning in the early 1970s Jaguar Cars Inc. (USA) began formally offering their own collection of accessories to North American customers, accessories that, mostly, were NOT being offered by Jaguar Cars Ltd. or British Leyland Ltd. North American dealers frequently installed such items prior to or following a sale and have continued to do so since that time.
- b. Many original and follow-on owners of Jaguars will not be aware that certain items or accessories on their vehicles were not installed as original equipment and/or were not planned for installation on that model by Jaguar Cars Ltd.
- c. Because many of the accessories were NOT supplied by Jaguar Cars Ltd., **by the strictest standards, they are non-authentic**. However, because of their prevalence in North America and the circumstances of their installation, some have been accepted by JCNA in the past and will continue to be allowed **without deduction** for the foreseeable future (see Chapter VI, Heading A, Rule 5d, Notes).
- d. Unusual components, configurations or accessories, will be scored as non-authentic unless the Entrant can document that they were offered by Jaguar Cars Ltd., Jaguar Cars Inc. or Jaguar Canada Inc., for that specific model, chassis or engine number.

Notes:

- i. The Jaguar Cars Inc. and Jaguar Canada Inc. accessories being referred to include the following. They are addressed in the component areas of this chapter:
 - Bonnet Mounted Leapers/Mascots (See Note b)
 - Head Lamps and Fog Lamps
 - XJS JaguarSport Products
 - Side Protective Moldings
 - Door Edge Protectors
 - Sunshades
 - Wheel Nuts
 - Gearshift Knobs(The JCNA model-specific Judging Guides will also advise which items and configurations are acceptable.)
- ii. Most notable among the accessories, offered by Jaguar Cars Inc. and Jaguar Canada Inc. but NOT by Jaguar Cars Ltd., are bonnet-mounted Leapers/Mascots. Between 1970 and 1994 Jaguar Cars Ltd. discontinued leapers on all models. During that period, NO official Jaguar Cars Ltd. publications listed leapers/mascots in any production model Parts Books. At the same time, North American dealers responded to customer's demands and, upon request and otherwise, installed leapers on Series 1, 2 and 3 XJ6 and XJ40 Style Saloons. In 1994, X300 model saloons, exported overseas, were the first to be offered with the Jaguar Cars Ltd. redesigned "safety" leapers. **Leapers were never officially offered for XK 120s, XK 140s, E-Types or XJSs and should be judged as non-authentic when present.**

6. Replacement Parts

Replacement parts, regardless of the manufacturer, are considered authentic only if they meet the exact specifications and appearance of the original item or material.

Exception: Replacement parts, still available from Jaguar Cars under their original Part Number but now having a different color or configuration than the original, will be accepted as authentic.

7. Original Brand Names and Logos

Parts and accessories which, when properly installed, normally allowed the manufacturer's cast, engraved or imprinted name or logo to be plainly and easily observed, are considered non-authentic if the original brand name or logo is missing. Decals, stick-on labels and metal tags are judged separately and may not affect the authenticity of the **item** to which they're attached.

8. Display of Accessories

The fact that some accessories are officially offered, by Jaguar Cars Inc., Jaguar Canada Inc. or Jaguar Cars Ltd., does not make them appropriate to be in place during judging at a JCNA concours. To avoid related deductions, non-permanent accessories protecting the car's original equipment, such as floor mats, seat covers, steering wheel wraps, etc. should be removed prior to presenting the Entry for judging. The judge shall also request that the Entrant remove all non-factory accessories such as stuffed animals before judging commences. Such items, if left in place, will be considered non-authentic and assigned an appropriate deduction.

9. Safety Equipment

Certain countries, states and provinces require specific safety equipment on vehicles registered there. Entrants are expected to install whatever items, such as seat belts, that are required to legally operate their cars in the countries, states or provinces where they are registered. Such "safety" items will not be judged as non-authentic; however, the Entrant may be asked to document the requirement. The installation of such items should be neat and clean, and accomplished with care and in good taste.

10. Component Legitimacy

JCNA Judges may **ONLY** base their deductions on the non-authenticity of the component or accessory being examined, **NOT** on their personal understanding of the item's legality or illegality under any local, state, provincial, federal, or international law or regulation.

B. NON-AUTHENTICITY

1. Non-Authenticity

- a. Any items, **not** listed in the relevant Jaguar Cars Ltd. Parts Book, as applicable to the model, year, chassis and engine number of the vehicle, will be considered to be **non-authentic**.

- b. Any part that is missing or that is the wrong style, type, model, size, configuration, shape, match, color, finish, material or pattern, or is wrongly positioned, is considered **non-authentic**.
- c. Devices or elements **missing**, from among those Jaguar Cars Ltd. originally installed to meet the emission control requirements of the country for which the model was initially prepared, will be considered non-authentic.

2. Better than original

Many cars may be restored to a level that their "fit and finish" are superior to original factory standards. **These cars should be given neither deductions nor extra credit for this achievement.** Older Jaguars whose "fit and finish" approximates original factory standards (known to be less than perfect) should **not** be given deductions for acknowledged production shortcomings.

3. Plated surfaces

Metal surfaces should appear as original, e.g. cadmium should not be replaced with chrome. Brass fittings that were originally lightly plated with nickel or cadmium should not have their plating removed by buffing or polishing to expose the base metal.

4. Over-restoration

Smoothing and bright polishing of originally unplated, uncoated, or unpainted metal components (such as early aluminum cam covers and manifolds) is allowed but will be given no extra credit. **A component, whose original paint, plating or coating of zinc, nickel, cadmium, yellow chromate, etc., or whose original sand-cast-like coarse finish, has been removed through polishing, or other processes, shall be assigned a non-authentic deduction.**

C. ASSIGNING NON-AUTHENTICITY PENALTIES

1. Basis of Points Allocated Each Item

The number of deduction points, allocated to each listed component, is based on the characteristics of that component, including:

- a. Size
- b. Importance to the design
- c. Restoration effort required
- d. Uniqueness or rarity

2. Noting the Discrepancy and Informing the Entrant

During the judging process, the Judge should make mental and/or written notes of those items believed to be non-authentic and, where appropriate, confirm findings with team members. As judging of the Entry nears completion, each Judge must **inform the Entrant** of any non-authenticity findings. The Entrant may then offer documentation to prove the authenticity of any of the items cited by the Judge (see Chapter IV, Heading G. Rule 6).

3. Entering the Discrepancy and Assigning the Deduction

Items proven to the Judge's satisfaction to be **authentic** should **NOT** be entered on the score sheet. Items that the Judge determines to be **non-authentic** shall be entered in the proper area of the score sheet and assigned the required point deductions. **The Entrant must initial each non-authentic deduction** (see Chapter IV, Heading G. Rule 6).

4. Use only the exact deduction listed for the discrepancy.

If the exact item is not listed, Judges should base their deduction on a similar item found on the list.

5. Maximum Total Deductions for Non-Authenticity

The total of non-authenticity deductions for items within a component area (Exterior, Interior, etc.) shall not exceed the maximum deduction indicated: Interior 200; Exterior 200; Engine 200; Boot 100. These maximums are not based on the total deductions possible for each component area, but are a measure of the relative importance of that component's authenticity toward the overall score.

D. USING THIS GUIDE

1. Listings and Penalties

The item listings have been expanded and include items previously omitted. The guide is to be used by all Judges for scoring non-authenticity penalties. **DO NOT** use deduction point values other than those listed. Where no Maximum Deduction is listed, there IS NO maximum. If more than one of the listed items is found to be non-authentic, the total number found should be multiplied times the listed mandatory deduction for each, to determine the total deduction for the discrepancy.

2. Items Excluded From Judging

Do NOT judge:

- a. Front or rear suspension components
- b. Brake drums, discs, or calipers
- c. The underside of the vehicle.
- d. Inner sidewalls of road tires are not judged.** (2013 AGM)

3. Notes

Notes associated with specific items are intended to answer routine questions and are an **important** part of the guide.

E. ITEMS COMMON TO ALL COMPONENT AREAS

Items listed in this section are common to all areas/components of the vehicle. The deductions apply to the listed items regardless of their relative size, quantity or location.

ITEM	Missing or wrong style, plating, finish, model, color, shape, size, type, material or configuration.	Maximum deduction for each of the four component areas
1. Misc. Latches, Clips & Hardware	0.50 ea	4.0
2. Nuts, Bolts, Screws & Washers	0.50 ea	4.0
3. Rubber Mounting Pads & Seals	0.50 ea	4.0
4. Rubber Weather Strip	0.50 ea Length	4.0
5. Data Plates and Small Decals	0.50 ea	4.0

F. EXTERIOR

Maximum deduction 200 points

ITEM	Not a factory color or a documented special order color.	NOTE
Paint Finish	20.0	a

Note:

Paint: No deduction for type of paint. Colors must be reasonably close to production standards for year and model. Metallic colors or two-tone color schemes must adhere to factory standards. Non-production colors must be documented, by the car's JDHT certificate or an equivalent document, as having been an original color factory-applied to the Jaguar.

ITEM	Missing or wrong style, plating, finish, model, color, shape, size, type, material or configuration	Max. Deduct.	NOTE
1. Antennas	2.0		a
2. Back-up Lights Assemblies	2.0 ea		
3. Badges & Emblems	2.0 ea		b
4. Batteries, XK 140 & XK 150 batteries are excluded from judging	----		
5. Body Plugs	0.5 ea		
6. Bonnet (Basic Structure only)	10.0		c
7. Bonnet, E-Type only	20.0		
8. Boot Lid (Basic Structure only)	8.0		c
9. Brake & Turn Signal Assemblies	2.0 ea		
10. Bumper Overriders	2.0 ea		
11. Bumper Spring Bars	4.0 ea		

ITEM	Missing or wrong style, plating, finish, model, color, shape, size, type, material or configuration	Max. Deduct.	NOTE
12. Bumper Valences	2.0 ea		
13. Bumpers per Assembly (Less Overriders)	6.0 ea	12.0	
14. Chassis/Body Stance/Ride Height	5.0 ea End		d
15. Clear Bras	4.0 ea	4.0	
16. Curb Feelers	2.0 ea		
17. Door Edge Protectors	1.0 ea		e
18. Door Handles, Boot Lid Handles and Locks	2.0 ea	8.0	
19. Doors	8.0 ea		c
20. Driving/Fog Light Assemblies	3.0 ea		b
21. Exhaust or Tailpipe Tips/Ext./Assemblies	3.0 ea		
22. Exhaust Resonators	4.0 ea		
23. Fenders	8.0 ea	12.0	c
24. Grille, Primary	8.0		
25. Grille, Secondary and Grille Bars	4.0		
26. Gutters	3.0 ea		
27. Head Light Assemblies	4.0 ea	10.0	f
28. Hood/Envelope Cover	4.0		
29. Leaper	3.0		g
30. License Plate Holders/Brackets/Supports	2.0		
31. License Plate Frames	1.0		h
32. Light Lenses	1.0 ea		
33. Luggage Racks	4.0		i
34. Mud Flaps (Except authorized Jaguar accessories)	2.0 ea		
35. Pin Striping (aka Body Stripes or Coach Lines)	0.5 ea Panel	1.0	j
36. Piping, Fender and Panel	2.0 ea Section		
37. Racing Stripes, Large Decals & Film Appliqués	6.0 ea	12.0	
38. Rear View Mirrors	2.0 ea		
39. Rocker Panels	6.0 ea		
40. Roof Vinyl or Fabric Covering	8.0		k
41. Side Curtains	3.0 ea		
42. Side Curtain Storage Pouch	2.0 ea		
43. Side Marker Light Assemblies	2.0 ea		
44. Side Protective Moldings (Except authorized Jaguar Cars Ltd. or Inc. accessories)	2.0 ea Side		l
45. Spats	6.0 ea		
46. Sun Roof	6.0		m
47. Tires	2.0 ea	8.0	n

ITEM	Missing or wrong style, plating, finish, model, color, shape, size, type, material or configuration	Max. Deduct.	NOTE
48. Tonneau	4.0		
49. Top, OTS/DHC (Hardtop in place is equal to Missing)	10.0		o
50. Top, OTS/DHC Binding	2.0 ea		
51. Top, OTS/DHC Pin Beading or Molding	4.0 ea Section		p
52. Top, OTS/DHC Rear Window	4.0		
53. Trim, Exterior	4.0 ea Section		
54. Turn Signal & Brake Light Assemblies	2.0 ea		
55. Wheel Arch Trim or Beading	2.0 ea		
56. Wheel Hubcaps	2.0 ea		
57. Wheel Knock Offs	2.0 ea		
58. Wheel Lug Nuts	1.0 ea	10.0	
59. Wheel Trim	2.0 ea		q
60. Wheels	6.0 ea	20.0	
61. Window Glass & Tinting	1.5 ea Pane	6.0	r
62. Window Glass Decorative Etching	1.5 ea Pane	6.0	
63. Windshield Stanchions	4.0 ea		
64. Windshield Washer Jets	1.0 ea		
65. Windshield Wipers Arms	1.0 ea		

Notes:

- a. **Antennas.** No deduction for factory installed antennas or neatly installed antennas associated with radios, cell phones, emergency communications or factory offered global positioning navigation systems. Flush-fitting retractable electric antennas were not fitted prior to 1970.
- b. **Badge Bars and Driving and Fog Lights.**
 1. An Owner may install Jaguar car badge bars and driving or fog lights as long as they and their installation are in keeping with the quality and vintage of the Jaguar. No extra points are to be given or deducted for the presence of these items; however, all installed driving and fog lamps must be functional.
 2. **Badges. Badges must represent JCNA, JCNA affiliates or other Jaguar or automobile associations.** (2013 AGM)
 3. **Grille-Mounted Badges. Grille-Mounted Badges are NOT allowed on Champion Division Entries. A maximum of two (2) grille-mounted badges are allowed, on Driven Division Entries.** (2013 AGM)
- c. **Bonnet, Boot Lid, Doors and Fenders.** Observe that the component is made of the same material as the original (steel, aluminum, fiberglass, etc.), that its shape is the same as the original (flares, curvature, air scoops, louvers, etc.), and that it belongs on that specific

model. This does not include trim, bumpers, lights, handles or other items attached to the basic structure.

- d. Chassis/Body Posture and Ride Height:** This deduction should be applied to cars whose front, rear, or overall posture or ride height is **MARKEDLY** higher or lower than specification. *(This problem is most often seen on cars that have been re-sprung or whose torsion bars are seriously misadjusted.)*
- e. Door Edge Protectors** These vertically mounted stainless or anodized black protectors were offered by Jaguar Cars Inc. for 1979-1992 XJ and 1976-1992 XJS models. If door edge protectors are installed on other models the Entrant must document that Jaguar Cars Ltd., Jaguar Cars Inc. or Jaguar Canada Inc. offered them, for that specific model, or they will be considered non-authentic. Where authorized, the protectors should be installed on all doors.
- f. Headlights:** Entries are allowed to have any style and/or size headlamps, offered by Jaguar Cars Ltd., Jaguar Cars Inc. or Jaguar Canada Inc. for the specific model, regardless of the country to which the car was originally delivered.
- g. Leaper:** Leapers are non-authentic on all XK 120s, XK 140s, E-Types and XJSs. Leapers are "non-authentic but allowed" on all 1970-1994 Saloons. "Safety" leapers introduced on 1994, X300 model saloons and subsequent are considered authentic.
- h. License Plate Frames:** Plain license plate frames or those advertising current or past Jaguar dealerships, JCNA, JCNA Affiliates, or promoting the Jaguar marque are accepted. Frames may be of any material. All other Champion Division license plate frames will be scored as non-authentic unless the Entrant can document that Jaguar Cars Ltd., Jaguar Cars Inc., or Jaguar Canada Inc. offered them for that specific model and Model Year. Driven Division frames are only judged for condition and cleanliness.
- i. Luggage Racks:** Only luggage racks offered as factory optional equipment are allowed for Champion Division entries. Driven Division entries are allowed either factory or appropriate vintage after-market racks. All racks must be neatly mounted in the prescribed location on the vehicle.
- j. Body Stripes (Coach Lines).** Where offered, factory applied and authentic optional body stripes (Coach Lines) consist of one or two narrow, closely spaced stripes complimenting or contrasting to the body color (see applicable Judging Guides and Factory Brochures for additional details). Body stripe (Coach Line) embellishments such as initials, monograms, leapers, scrolls, etc. are non-authentic.

FACTORY APPLIED AND/OR AUTHORIZED PIN/BODY STRIPES
(Subject to Change with Documentation)
(2013 AGM)

MODEL YEAR	MODEL	PIN STRIPES	NOTE	REFERENCE
	MK VII, VIII, IX	NO		
	2.4, 3.4, MK2, S-TYPE	NO		
	420, 240, 340	NO

All authentic body stripes are applied as tape, NOT painted.

Note: The configuration listed for these particular models has been difficult to authenticate. Entrants with those models are encouraged to provide official documentation validating the body/pin stripe configuration of their Entries. (2013 AGM)

- k. Roof Covering:** XJ6C & XJ12C and certain pre-war coupes have a vinyl roof covering.
- l. Side Protective Moldings:** These protective accessories were offered by dealers in North America, beginning in September of 1977, for the XJ6/12 and the XJ-S. Mounted along the side of the body, the moldings consist of metal extrusions with vinyl inserts, capped at each end by chrome finishers and attached with rivets or adhesive. The moldings were

available in white, black, silver, blue, dark brown, caramel brown, green, or red. Side moldings on earlier models (pre-1977) will be considered non-authentic.

1. Circa 1988, one-piece adhesive side moldings were made available in colors, which complemented the paint codes for XJS, Series III V12 VDP, and XJ40. They came in wide or narrow widths; however, the narrow width was not available for XJS in Canada.
 2. In 1995 the XJS was offered with either the wide or narrow moldings in both the US and Canadian markets. The X300 had factory-applied moldings.
- m. Sunroofs:** Folding “Webasto-type” vinyl sunroofs, were offered to the North American market for MK 2, 3.8S, E-Type, 420, and MK10/420G. (Webasto is the name commonly associated with these sunroofs, however, there was more than one Webasto source/company. Product differences, if any, have yet to be determined.) Only the “Webasto-type” folding vinyl sunroofs will be considered authentic. Sliding metal or glass-type sunroofs must have been installed by the factory or by a factory authorized agent at the time of delivery. In the early 1980s, the North American market XJ-S was offered with an electric retracting sunroof, installed by Hess and Eisenhardt. Research into the sunroof issue is continuing. While the information provided here is valid, more model and model year detail is being sought.
- n. Tires (Notes n. 1 and n. 2 below apply to **Champion Division Entries only**):** There shall be no penalties taken for the Owner's preference of white or black sidewall cosmetics. **Redline side walls were never offered by Jaguar Cars and will be considered non-authentic.** (Redline tires may be reversed to show their black side only.) Any brand is acceptable. The standard industry tire sizes, appearing on the tire sidewalls, are acceptable proof of correct size without further measurement. (Original tire sizes are listed in Appendix B)
1. **Tire Construction:** Tires are considered expendable. Replacement tires must be the same (or equivalent) size and construction (bias/radial) as originally found on the car when delivered by the Jaguar factory or offered by Jaguar Cars as optional equipment. To retain authenticity, if the year and model Jaguar was originally delivered exclusively with bias ply tires, they may only be replaced with bias ply tires. If suitable radial ply tires were **not** available, at the time of delivery of the Jaguar, the car should not be retrofitted with radial tires. (XK 120, XK 140 and XK 150 cars should only be fitted with bias ply tires. Series 1 E-Types may be fitted with either 185x15 radials or 6.40x15 bias ply tires.)
 2. **Tire Size:** Tire size must match the original or an equivalent Alpha Numeric, Eurometric or P-Metric size. (Original sizes are shown in Appendix B) Size must be consistent with the original profile for the car to maintain its proper stance and appearance.
 3. **Tire Speed Ratings:** Tires on Champion **and Driven** Division cars less than 15 years old must have original speed ratings or speed ratings equal to or superior to the original (see Appendix B). (2013 AGM)

- o. Top, Side Curtains, Tonneau & Boot Cover:** No hardtops, either factory optional or aftermarket, except as fitted to the XJS Cabriolet, are acceptable for judging.
- p. Pin Beading:** Pin beading is the narrow, chrome plated, half-round trim found on early (MK and XK) convertibles, and drop heads. It is called pin beading because, when properly attached, hidden pins on its backside hold it in place. Screws, or other visible substitute fasteners, used to hold pin beading in place, are non-authentic.
- q. Wheels:** Wheels must be the correct factory size, type, finish, and style for the model. Ace Discs & Rimbellishers are permitted if they were offered by the factory for the specific model. Bolt-on wire wheels are non-authentic. Wire wheels should have the same number of spokes as the original. **Chrome plated wheels, not offered as a Jaguar factory option, must be scored as non-authentic in Champion Division.**
- r. Window Glass:**
 - 1. Champion Division:** Any window glass that meets the requirements of the original specifications for form, fit, function, and factory tint is acceptable. Triplex or other brand and safety markings are NOT judged.
 - 2. Driven Division:** Shiny or mirrored tinting, graphics or logos in the tinting, tinted film on the front windscreen or excessively dark tinting shall receive deductions as non-authentic. The tint should allow the interior of the vehicle to be clearly visible when looking in from approximately one foot away.

Notes:

- a. **Batteries:** XK120 batteries are located behind the seats and will be judged in **Champion Division only**. FHC's and DHC's have a hinged panel, which the Entrant should unfasten and tip forward for the batteries to be inspected. The separate battery cover on the XK 120 OTSs should be unfastened and either tipped forward or removed for battery inspection. The Bakelite battery covers should **not** be removed. Lucas and other original equipment batteries may be replaced with batteries made by any manufacturer provided they are of like voltage and appearance, and their terminals are in the same positions as on the original. Replacement batteries do not have to be identical to the original in size but they must fit in the location originally intended. "Fluted or cylindrical sided" (Gates-Optima type) batteries are considered non-authentic.
- b. **Consoles:** Include individual panels for switches, radios, ashtrays, air conditioning, A/C outlets, overhead lighting, navigation, trip computers, etc.
- c. **Electronic Telephones, Alarm Systems and Radar Detectors:** No deduction for neatly installed telephones, alarm systems or their accessories authorized by the factory, Jaguar Cars Inc. or Jaguar Canada Inc. Radar detectors were offered by all dealers on XJS for a period and were also installed by Jaguar Cars Ltd.; they were contained in a special case and stowed in the void above the steering column nacelle. All other radar detectors, NOT provided by either Jaguar Cars Ltd. or Jaguar Cars Inc., will be considered non-authentic.
- d. **Instruments:** Instruments added to those originally supplied are non-authentic.
- e. **Knobs and Switches:** Include those on the dash and elsewhere for the control of mirrors, seats, A/C, lights and windows, plus gear shift knobs. Extra switches mounted on the face of the dash or instrument panel are non-authentic.
- f. **Non-Factory Accessories:** Items such as after-market compasses, clocks, medallions, stuffed animals and similar mementos or charms will receive a non-authentic deduction.
- g. **Radios, CD or Tape Players and Speakers:**
 - 1. **Champion Division** - No deduction for neatly installed radios of correct vintage, using original or authentic mountings and original speaker housings and grilles.
 - 2. **Driven Division** - Entries are allowed contemporary radios, tape, or CD players installed in the original radio mounting space, utilizing the original speaker locations and external housings and grilles, without deduction.
- h. **Seat Belts:** Seat belts are considered safety equipment and may be added/installed in those models that were not originally equipped with them. The type of installation and equipment should be in keeping with the vintage of the Jaguar. Replacement, non-standard hardware, belts or retractors will be judged as non-authentic.
- i. **Seat Covers:** Accessory seat covers, such as sheepskin, must be removed allowing the Judge to examine the seat upholstery.

- j. Steering Wheels:** Steering wheels with non-original wrapping are considered non-authentic. Wrapping may be removed before judging. Original type steering wheels whose dimensions are other than as supplied at time of production are considered non-authentic

Notes:

- a. Batteries:** Lucas and other original equipment batteries may be replaced with batteries made by any manufacturer provided they are of like voltage and appearance, and their terminals are in the same positions as on the original. Replacement batteries do not have to be identical to the original in size but they must fit in the location originally intended. “Fluted or cylindrical sided” (Gates-Optima type) batteries are considered non-authentic

- b. Spare Tire:** (Champion Division only) The spare tire must match the road wheel tires' size, sidewall and tread pattern. Certain recent model Jaguars are equipped with low profile, space-saving spare tires and wheels. Where present (in Champion and Special Division) they should only be inspected for cleanliness and condition. When more detailed information becomes available, it will appear in Appendix B.
- c. Spare Wheel:** (Champion Division only) The spare wheel must be the correct type and match the road wheels (see "**b. Spare Tire**", above).
- d. Tool Kit:** The tool kit is optional for US models produced after 1968; however, if the Entrant displays a tool kit, it may be judged.
- e. Tool Kit Spare Spark Plug:** The spare spark plug, provided as part of certain tool kits, should be identical to the original (brand and type).

- b. Add-on Items and Accessories:** Extra cooling fans, carburetors, headers, horns, or other items that were not factory-available for the model are non-authentic.
- c. Engine Block, Head & Carburetors or Fuel Injectors:** Only those items that were factory available for the model are allowed.

Cylinder Head Color Table

Model/Engine Size	Documented Color	Acceptable Observed Variation
XK 120; C-Type; D-Type	Natural Aluminum	(No colors listed)
XK 140	Natural Aluminum	(No colors listed)
XK 140 - C-Type Head	Red ¹	
XK 150 - 3.4L & 3.8L	Light Blue ²	Light Blue-Green
XK 150S - 3.4L & 3.8L	Gold ²	Old Gold - Pumpkin
MK I - 2.4L	Silver ²	Natural Aluminum
MK I - 2.4L Stage 3 tuning & 3.4L	Light Blue ²	Light Blue-Green
MK 2 - 2.4L & 3.4L	Light Blue ¹	Light Blue-Green
MK 2 - 3.8L	Dark Blue ¹	Dark Metallic Blue
S-type - 3.4L	Light Blue ³	Light Blue-Green
S-type - 3.8L	Dark Blue ³	Dark Metallic Blue
MK VII; MK VIIM	Natural Aluminum	(No colors listed)
MK VIIM - C-Type Head	Red	
MK VIII	Light Blue ²	Light Blue-Green
MK IX - 3.8L	Dark Blue ²	Dark Metallic Blue
MK 10 - 3.8L & 4.2L	Gold ³	
420; 420G - On	Natural Aluminum	(No colors listed)
Series 1 E-type - 3.8L to ~ R2512	Pumpkin ⁴	Old Gold - Pumpkin
Series 1 E-type - 3.8L from ~R2512	Gold ⁴	
Series 1 E-type - 4.2L thru ~ 1966 and possibly early 1967 (See Note)	Gold ⁴	
Series 1 E-type, later 1967 and On	Natural Aluminum	(No colors listed)

1. Applicable Service Manuals

2. Service Bulletins #271, #272, B.1 & B.5

3. Service Manual Supplements

4. JCNA Series 1 E-type Judge's Guide

Note: The highest E-type engine number observed to date is 7E10192-9 but there may be higher. (2013 AGM)

- d. Exhaust Manifolds:** See applicable Judging Guides for proper manifold coating. The British terms "black enameled or vitreous enamel" are the equivalent of the North American term "porcelain". MKV exhaust manifolds were NOT porcelain coated. All XK 120, XK 140 and XK 150 and Series 1 E-Type exhaust manifolds were porcelain coated.

- e. **Hose Clamps:** Hose clamps must match the original including the material, the finish, the configuration of the adjustable band, and the shape and style of the adjusting screw head. All pre-1975 hose clamps should have round head, straight-slot adjusting screws; their adjusting bands should be grooved, not perforated. (Hex-headed clamp adjusting screws did not appear until approximately 1975. Brand name is not judged. Clamp bands must be the appropriate length (size) for the application; clamps with MORE than approximately one inch of the band showing beyond the adjusting screw will receive a non-authentic deduction.
- f. **Hoses:** Hoses must be the same size and shape as the original. Hoses reinforced with Kevlar or other synthetic materials are acceptable. Where applicable, the original stockinette covering is not required.
- g. **Aftermarket Ignition:** No deduction for aftermarket electronic ignition systems using all stock components and showing only a “black box” mounted unobtrusively.
- h. **Spark Plugs:** There is no deduction for the make or type of spark plugs; however, all installed spark plugs, which are normally visible, must match.

NOTES:

- (1) The S.S. I Coupe was re-styled during 1932.
- (2) This was the last side-valve engined car produced by the Company.
- (3) These and all new models, up to and including the Mark V, had o.h.v. pushrod engines.
- (4) The XK 120 and all subsequent Jaguars have had overhead camshaft engines.
- (5) Several of the D-types were subsequently run with 2.4, 3.8, or 3.9-liter engines.
- (6) Models also produced in Daimler variants.
- (7) Due to non-compliance with California Air Resources Board regulations, 1991 XJ-S models could not be sold there and 1990 models with identical Classic Collection specs and features were substituted.
- (8) Descriptive Terminology, e.g. "XK 120C" taken from factory literature.

Notes:

Appendix B

Original Equipment Tire and Wheel Information for SS & Jaguar Cars

The following information is based on the best data available and is for use in judging. Some non-North American and International models may not be included. This information may be superseded either by the tire and wheel data contained in the Owner's Manual for a specific model Jaguar or by the Tire Recommendation Plate attached to the car. Recommendations for additions or corrections to this appendix are encouraged and may be sent to the Chairman of the Judge's Concours Rules Committee (the address can be found in the Clubs, JCNA Committees Section of the *Jaguar Journal*). A copy of the page(s) of the applicable Owner's Manual, or a photo of the Tire Recommendation Plate, specifying the tire size and/or wheel description, should accompany all submissions.

(Notes below referring to tire judging exceptions will be moved to Chapter V or VI during the next revision.)

General: Tires are considered expendable. Replacement tires must be the same (or equivalent) size and construction (bias/radial) as originally found on the car when delivered by the Jaguar factory or offered by Jaguar Cars as optional equipment. **See exceptions in Chapter VI.** In order to ensure that the car will maintain the proper stance and original appearance, replacement tires must maintain the same aspect ratio as the OEM. The size molded into the tire will be accepted as proof of currently exhibited size (example: 6.40 x 15 or 185 x 15). Sidewall or stripe/color or width is currently optional. Universal Tire Company, Lancaster, PA, British Wire Wheel, Fresno, CA or Coker Tire, Chattanooga, TN are sources for hard to find tires.

Notes:

1. 4.75 x 18 tires deleted from manufacturer's listings in Oct.89.
2. 6.70 x 16 newly available from Dunlop.
3. In May 1963, Service Bulletin M.7 stated that Dunlop SP tires (a radial tire) are suitable for use on MK2 Jaguars; all MK2's may therefore be equipped with either bias ply or radial tires of the prescribed size.
4. In light of a Jaguar Service Bulletin, stating that 185 x 15 tires were a proper replacement for Series 1 E-Type tires, delegates to the 1997 AGM voted that either 6.40 x 15 or 185 x 15 size tires would be considered authentic for Series 1 E-Types. Further, that 185/70 x 15 tires, (purchased prior to 1997) shown on Series 2 E-Types, would also be considered authentic.
5. During 1972-1974, the tire industry experienced near-chaos as it changed industry standards and nomenclature. The original equipment Dunlop ER7015VR is available through several manufacturers in either the original size or equivalent: P205/70VR15
1. For cars manufactured, beginning in the late 1990's, there is a sticker on the driver's door jamb specifying the correct tire size as specified by the manufacturer.

Acknowledgments: Original list and sizes compiled by the Northwest Regional Jaguar Clubs. Footnote research by Ed Miller. The list was originally formatted for JCNA by Dick Howe. Additional vintage tire information was provided by Phillip Pollock of Vintage Tire Supplies Ltd., Middlesex, England. Updated and reformatted for the 1997 6th Reordered Edition. Tire and wheel information listed after model year 2001 updated by Jaguar Cars. Reformatted and edited by Stew Cleave and Dick Cavicke, with the help of the JCRC, Gregory Andrachuk, and Doug Dwyer for Edition 8.1 per the 2004 AGM.

TIRE SPEED RATINGS (The following is provided courtesy of The Tire Rack www.tirerack.com)

Over the years, tire speed rating symbols have been marked on tires in one of the three ways shown in the following examples:

225/50SR16; 225/50SR16 89S or 225/50R16 89S

Early tires had their speed rating symbol shown "within" the tire size, such as **225/50SR16**. Tires using this designation were **not** to have been produced after 1991:

225/50SR16 - 112 mph; **225/50HR16** - 130 mph; **225/50VR16** - in excess of 130 mph.

Beginning in 1991, the speed rating symbol denoting the fixed maximum speed capability was shown only in the speed rating portion of the tire's service description, such as **225/50R16 89S**. Common speed rating symbols, maximum speeds and typical applications are shown below:

N 87 mph, Temporary Spare Tires	T 118 mph, Family Sedans & Vans
P 93 mph	U 124 mph
Q 99 mph, Studless & Studdable Winter Tires	H 130 mph, Sport Sedans & Coupes
R 106 mph, H.D. Light Truck Tires	V 149 mph, 240 Sport Sedans, Coupes & Sports Cars
S 112 mph, Family Sedans & Vans	

When **Z**-speed rated tires were first introduced, they were thought to reflect the highest tire speed rating that would ever be required, in excess of 149 mph. While **Z**-speed rated tires are capable of speeds in excess of 149 mph, how far above 149 mph was not indicated. That ultimately caused the industry to add **W** and **Y** speed ratings to identify tires that met the needs of new vehicles that have extremely high top-speed capabilities:

W 168 mph, Exotic Sports Cars; **Y** 186 mph, Exotic Sports Cars.

While a **Z**-speed rating still often appears in the tire size designation, such as **225/50ZR16 91W**, the **Z** in the size signifies a maximum speed capability in excess of 149 mph; the **W** in the service description indicates the tire's 168 mph, maximum speed.

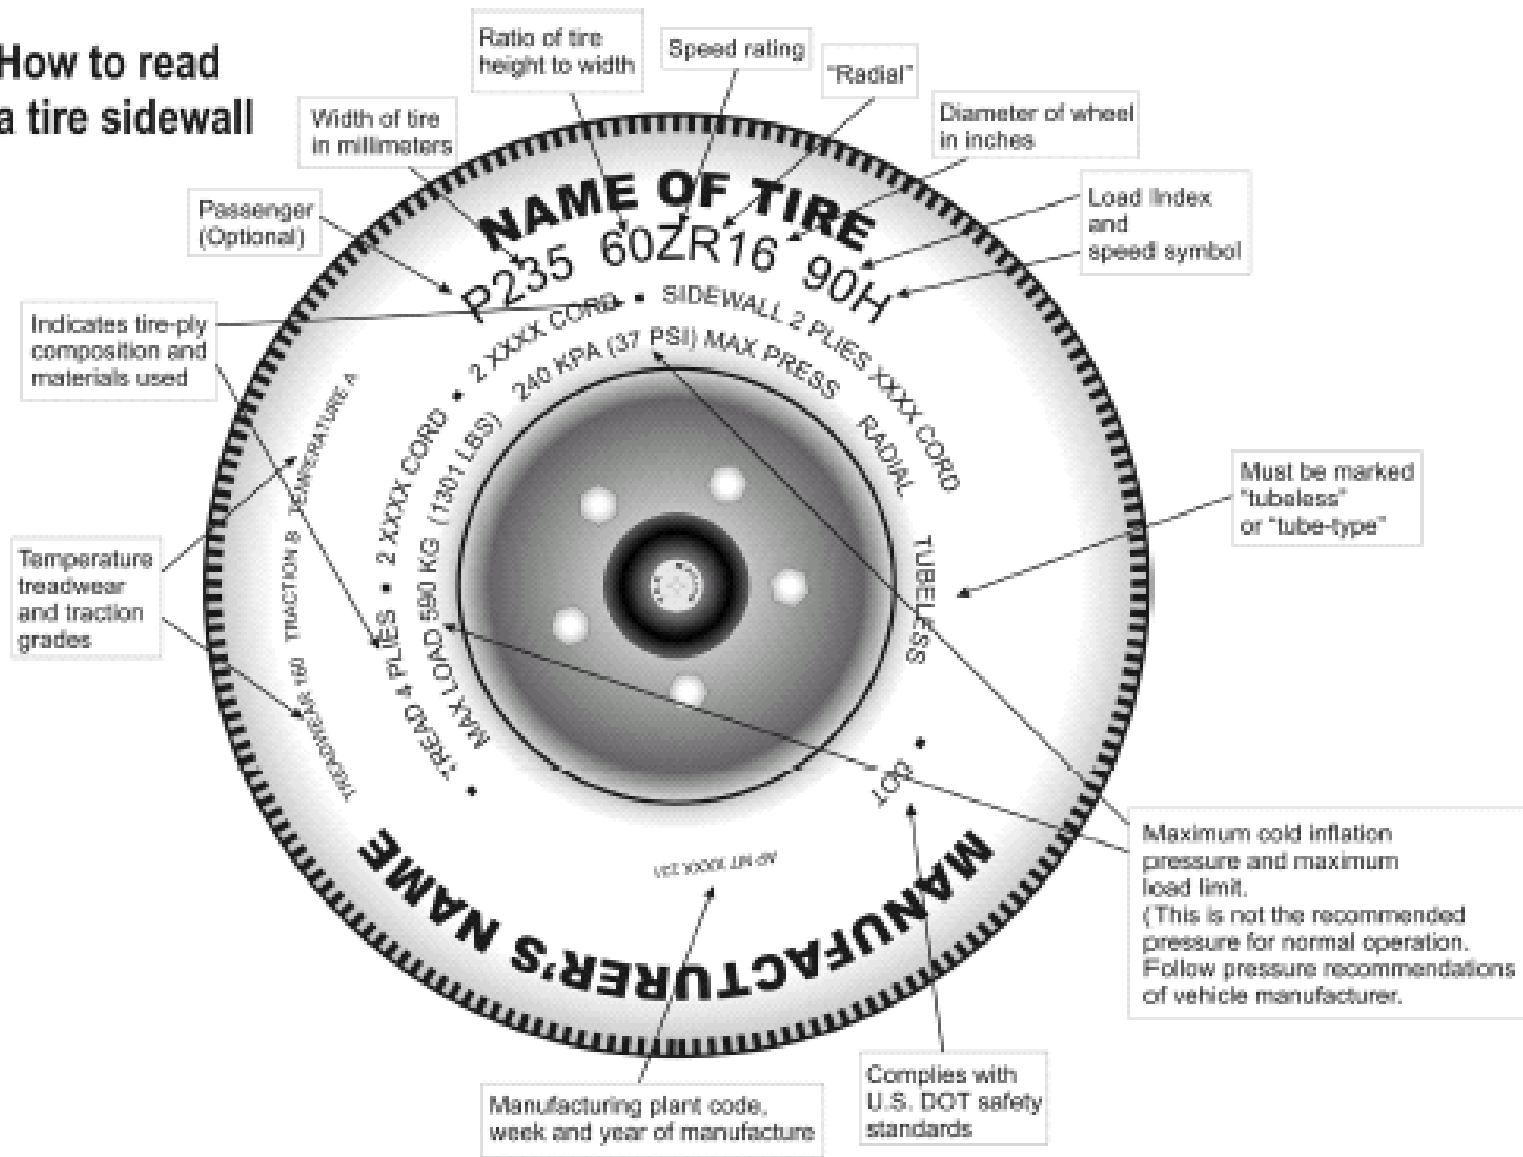

225/50ZR16 in excess of 149 mph; **205/45ZR17 88W** 168 mph; **285/35ZR19 99Y** 186 mph.

Recently, when the **Y**-speed rating indicated in the service description is enclosed in parenthesis, such as **285/35ZR19 (99Y)**, the top speed of the tire has been tested in excess of 186 mph, indicated by the service description as shown below:

285/35ZR19 99Y 186 mph; **285/35ZR19 (99Y)** in excess of 186 mph.

How to read a tire sidewall

Appendix C Official Publications for Documenting Authenticity

**Table C-1
Jaguar Cars Documents for validating feature and component authenticity**

JAGUAR CARS DOCUMENTS ¹	REQUIRED BY JUDGES AT CONCOURS ²
1. Jaguar Cars Service Manuals	No
2. British Leyland Repair Operation Manuals	No
3. Jaguar Cars Spare Parts Catalogues	No
4. Jaguar Cars Service and Parts Bulletins	No
5. Jaguar Operating, Maintenance and Service Handbooks (Owner's Manuals)	Champion Division only (Recommended for Driven Division)
6. Official Jaguar Cars Sales and Accessories Documents	No
7. Jaguar Daimler Heritage Trust Certificates	Preservation Class only

Notes:

- 1 All documents presented should apply to the specific Year and Model entered. This includes all eligible Daimlers and their applicable publications if and where titles differ.
- 2 While most publications are not required, Entrants are encouraged to have whatever documents they may need to validate any unusual features found on their Entries.

**Table C-2
JCNA Official Judging Guides for validating feature and component authenticity**

JCNA OFFICIAL JUDGING GUIDES ¹	CURRENT EDITION ²
1. Series 1 E-Type	Original, March 2003, updated 3/20/05
2. Series 2 E-Type	Original, March 2004, updated April '06
3. Mark 2	Original, February 2005, updated 4/8/05
4. Series 1.5 E-Type	Original, March 2006
5. Series 3 V-12 E-Type	Original, March 2007, updated May '07
6. XJS - 1976 – 1991	Original, March 2007
7. Jaguar Air Conditioning 1955-1971	Original, March 2008

Notes:

- 1 The Chief Judge must have a complete file of current JCNA Judging Guides available at the Concours site for use by either Judges or Entrants during the course of Judging.
- 2 Please check the JCNA web site at www.jcna.com for possible updates or revisions to these guides throughout the year.

Appendix D

Official JCNA Concours d'Elegance Competition Classes

Champion Division Classes

- C1A: Classics (Pre-XK engine) Tourer and OTS: Swallow, SS & SS Jaguar (1927-51)
- C1B: Classics (Pre-XK engine) DHC and Saloons: Swallow, SS & SS Jaguar (1927-51)
- C2: XK 120 (1948-54)
- C3: XK 140 (1955-57)
- C4: XK 150 (1957-61)
- C5: E-Types, Series 1 (1961-67)
- C6: E-Types, Series 1.5 (1968) and Series 2 E-Types (1968-71)
- C7: E-Types, Series 3 (1971-75)
- C8: Early Large Saloons: MK VII, MK VIII, MK IX, MK 10, 420G, (1950-70)
- C9: Early Small Saloons: MK 1 (2.4 & 3.4), MK 2 Series (2.4, 3.4, 3.8 liter, Daimler V8), 240, 340; S-Type 3.4S, 3.8S, & Jaguar and Daimler 420 (1955-69)
- C10: XJ6/12 Series 1 Saloons (1968-73) **Note 1**
- C11: XJ6/12 Series 2 Saloons and Coupes (1973-79) **Note 1**
- C12: Series III XJ6, XJ6 Sovereign and XJ6 VDP (1979-87); Series III V12 and V12 VDP (1979-92) **Note 1**
- C13: XJ6 (XJ40) Sedans (1987-94), XJ12 (XJ40) (1993-94); XJ6/12/R, (X300) (1995-97) **Note 1**
- C14: XJ8/R Sedans (X308) (1998-2003), XJ8/R Sedans (X350 Alloy) (2004-2009) **Note 1**
- C15A: XJ-S/SC (1976 - 1991 Pre-Facelift) Coupe, Cabriolet, H&E Convertible, Convertible, XJR-S Le Mans, XJR-S Jaguar Sport.
- C15B: XJS (1991 - 1996 Facelift) Coupe, Convertible, XJR-S Jaguar Sport.
- C16A: XK8 Coupe and Conv. (1996-2006), XKR (1999-2006)
- C16B: XK and XKR Coupe and Conv. (2007-On)
- C17: S-TYPE Sedans (1999-2008)
- C18: X-TYPE Sedans and Estate Wagon (2002-2008)
- C19A: Preservation Class (more than 35 years old)
- C19B: Preservation Class (20 to 35 years old)
- C20: XF Sedans (2008-On)
- C21: XJ Sedan (2010 [as 2011 model year] – On)
- C22: F-TYPE (2013-On) 2013 AGM**

Note 1: Majestic, Daimler, Daimler Double Six, Daimler Sovereign, and Daimler Majestic models are eligible for Champion Division Classes 10, 11, 12, and 13 according to their years, engines, and body styles.

Driven Division Classes

- D1: All Classics (Pre-XK engine) and XK 120, XK 140, XK 150
- D2: E-Types (1961-67)
- D3: E-Types Series 1.5 (1968) and Series 2 E-Types (1968-71)
- D4: Series 3 E-Types (1971-75)
- D5: Early Large Saloons: MK VII, MK VIII, MK IX, MK 10, 420G, (1950-70); Early Small Saloons: MK 1 (2.4 & 3.4), MK 2 Series (2.4, 3.4, 3.8 liter, Daimler V8), 240, 340; S-Type 3.4S, 3.8S, & Jaguar and Daimler 420 (1955-69)
- D6: XJ6/12 Series 1 & 2, Saloons and Coupes (1968-79); Series III XJ6, XJ6 Sovereign and XJ6 VDP (1979-87); Series III V12 and V12 VDP (1979-92) **Note 1**
- D7: XJ6 (XJ40) Sedans (1987-94); XJ12 (XJ40) (1993-94); XJ6/12/R, (X300) (1995-97) **Note 1**
- D8A: XJ-S/SC (1976 - 1991 Pre-Facelift) Coupe, Cabriolet, H&E Convertible, Convertible, XJR-S Le Mans, XJR-S Jaguar Sport.
- D8B: XJS (1991 - 1996 Facelift) Coupe, Convertible, XJR-S Jaguar Sport.
- D9A: XK8 Coupe and Conv. (1996-2006), XKR (1999-2006)
- D9B: XK and XKR Coupe and Conv. (2007-On)
- D10: XJ8/R Sedans (X308) (1998-2003), XJ8/R Sedans (X350 Alloy) (2004-2009) **Note 1**
- D11: S-TYPE Sedans (1999-2008), X-TYPE Sedans and Estate Wagons (2002-2008)
- D12: XF Sedans (2008-On)
- D13: XJ Sedan (2010 [as 2011 model year] – On)
- D14: F-TYPE (2013-On)** (2013 AGM)

Note 1: Majestic, Daimler, Daimler Double Six, Daimler Sovereign, and Daimler Majestic models are eligible for Driven Division Classes 6, 7 and 10 according to their years, engines, and body styles.

Special Division Classes

- S1: Factory-produced and prepared Competition Jaguars, Factory-sponsored Competition and Limited Production Jaguars
- S2: Production Jaguars privately prepared and modified for competition
- S3: Modified
- S4: Replica (non-production, Jaguar powered)

Appendix E
Jaguar Approved Accessories

JCNA Concours Rule Book

As this is a 52 page appendix, it is not included in this printing but should be downloaded directly from JCNA.com, then go to the concours page.

Glossary of Terms

Authentic	An item of very similar or identical material and identical configuration to that of the original. See “Original” below.
Chip	A small defacing in the paint finish, as caused by a stone or door ding. A chip will often reveal metal underneath.
Cleanliness	The state or degree of being free of dirt, grease, dust, water spots, lint, wax residue, road tar, finger-prints or other impurities.
Concours d’Elegance	<p>Pronunciation: kōⁿ-kür-dā-lā-’gāⁿs</p> <p>French term meaning “parade of elegance” originating in Paris around the beginning of the twentieth century. European couture houses showcased fashion collections in combination with exquisite custom coachwork on automobiles of the day. Usually the cars were expensive, being adorned with custom coachwork. In many cases they were one-of-a-kind. Both the cars and the fashion were judged and awards given based on beauty, style and design. The event grew in popularity and spread around Europe, with similar premier events in Italy and England, both of which had World class automotive and fashion industries.</p> <p>World War II resulted in the cessation of concours. In the 1950s and 60s Concours D’Elegance reappeared in Paris and soon began to appear in countries around the world including the United Kingdom, Italy, Australia, Philippines and the United States.</p> <p>Some sources go back to pre-automotive days and cite exclusive participation by nobility showing their carriages; hence Concours d’Elegance is sometimes referred to as the “sport of kings”.</p>
Coach line	Pin-stripe along the waistline of the body
Cracked/Crazed	A narrow split, partial fracture or separation of a piece or part that is normally considered one unit. In body panels, a separation of a panel(s) that is normally welded, brazed, or leaded together to form a single unit.
Creases/Wrinkles	A line, mark or ridge caused by looseness or folding of a fabric, leather, or vinyl. Creases and wrinkles are usually found in cloth hoods, side curtains, leather seats, door panels, carpet, and headliners.
Cushion	The lower portion of the seat upon which one actually sits on, as opposed to the squab or portion one’s back rests against.
Customized	A change in shape or appearance of a section of the Jaguar.
Curb Side	The side nearest to the curb for right-hand drive cars.

Near Side	The side nearest to the curb for right-hand drive cars. (See Off Side)
Damaged wheel/spoke	A wheel or spoke that is bent or broken is considered damaged. A wheel that has hit an obstacle with sufficient force to cave in the edge of the rim is damaged.
Delamination	The separation or splitting apart of layers of laminated wood. The steering wheel and other items of interior trim on many Jaguars may be of laminated wood. It sometimes separates due to age and exposure to heat and light from the sun.
Dent	A slight or significant depression, indentation or hollow in a surface made by a blow or other pressure, not a part of the original design of the component.
Different Type/Make	It is a JCNA rule that tires are considered expendable items and may be replaced by a make other than those originally furnished on the Jaguar, but that they must be of the original size (see Appendix B). Different Type/Make is defined as tires fitted onto a Jaguar that have been produced by different manufacturers, or are of styles that differ one from another. For example, the entry that has two Dunlop, a Firestone and a Goodyear tire fitted on the road wheels, and a Goodrich on the wheel in the boot should be penalized under the Different Type/Make category. Alternatively, some may be radial tires while others are bias tires, or there may appear a mix of blackwall and whitewall or red line tires. Any mixture as described above is subject to penalty under the Different Type/Make deduction.
Discolored/Cloudy	A change in color, darker or lighter, variegated, streaked, or opaque instead of transparent.
DHC - Drop Head Coupe	A car fitted with a cloth top that is padded internally to provide shape when erect and incorporating a head-lining. The cloth top remains exposed when folded down around the back of the seats and is still visible above the exterior of the car. The metal framework around the windshield is also body paint color as opposed to a complete chrome frame like the OTS models.
Entrant	The Entrant is the person who registers the Jaguar for the concours. The Entrant, or an immediate family member, must be prepared to present any documentation required for proof of authenticity requested by a judge.
Faded/Fading	A finish that has become less distinct, has lost color or brilliance or has become dull in appearance. In paint, a finish that has lost its color intensity and become dull is considered faded. In soft materials, such as canvas, hoods, side curtains,

leather or vinyl fading is indicated by a general loss of strength of color.

FHC -Fixed Head Coupe

A Jaguar fitted with a metal roof and windshield that are not removable. Roll-up windows are also fitted in the doors.

Frayed/Loose Bindings

A fabric, leather, or vinyl component that is ragged or worn on the edges, where the material is unraveling, or stitching is loose or missing must be penalized.

JCNA

Jaguar Clubs of North America, founded on January 16, 1958, exists to promote and encourage a spirit of mutual interest and assistance among owners of Jaguar automobiles, to assist in the formation of local Jaguar owners' clubs and to charter these groups, to provide a means for the exchange of information concerning Jaguar automobiles and to publish periodic bulletins and magazines containing material of interest to members.

Less than Legal Tread

As the determination of legal tread depth may vary from state to state, for judging purposes legal tread shall mean that the cord of the tire cannot be seen when the tire is viewed from the side at a 45 degree angle of the tread surface.

Lifting/Peeling

The separation of a finish, such as paint or chrome, from the base metal. This usually occurs in small to large sheets or flakes. This process leaves the metal bare.

Loose

An item not connected, restrained, bound, glued or attached where it is intended to be is considered loose. This generally pertains to fabrics, leathers, vinyl, or wood that has become unglued from its base material, but may also be applied to components made of other materials in other situations.

Missing

An item originally installed whose removal has not been camouflaged.

Modified

Changing one component for another, or the adding of components, or departing from the original specifications.

Non-Authentic

A part, component, finish, color or material is considered to be non-authentic if it is not a genuine Jaguar item for the particular year and model of the Jaguar being presented. THE ITEM MUST BE AS IT WAS SPECIFIED AND INTENDED TO LEAVE THE FACTORY BY JAGUAR CARS. Replacement parts, regardless of manufacturer, are acceptable only if they meet the exact specifications of the original item or material. The Judge must use common sense when judging for non-authenticity. Any item added or missing which is not genuine as verified by Jaguar literature is non-authenticity.

Non-Standard	A Jaguar not necessarily built by the Jaguar company, but an Entry that satisfies the requirements of a Class within a Special Division.
Off / OFF	Provided for, as in “well off”. Used to describe a one-of-a kind automobile, as in a “one off”. Used in Jaguar Parts Catalogues to denote the quantity of an item, as in “4-OFF”
Off Side	The side furthest from the curb for right-hand drive cars. (See Near Side)
OTS - Open Two Seater	A car fitted with a cloth top that is stowed behind the seats.
Original	A component that was installed by Jaguar Cars at the time of the vehicle’s manufacture.
Paint Flaws	Flaws found in paint finishes. Orange peel is a roughness to the finish similar to the skin of an orange. The most common cause is excessive paint being applied at low air pressure. Fisheye is a tiny crater in the paint surface where the paint has actually gathered around the hole, forming a small "volcano" or cone shaped flaw. Fisheye is the result of improper preparation of the surface being painted. Blushing is paint that has a white or chalky appearance caused by the lack of thinner in the paint or excessive humidity during application. Alligator paint is a series of connected cracks in the paint finish that is the result of paint being applied too thickly, or where thinner of the wrong drying time has been used. Deductions for paint flaws need not be limited those listed above.
Paint Overspray	A thin film of paint or undercoating or their residue(s) on adjacent surfaces not requiring paint or undercoating. This flaw is the result of inadequate masking, poor painting procedure and/or inadequate cleaning of adjacent surfaces after painting. Overspray usually observed on chrome or rubber parts. Overspray may also be found on nearby painted elements of different color, e.g. an Entrant painted the radiator shell without proper protection and small specks of black paint are seen on other painted panels in the engine compartment.
Personalized	A car built by the Jaguar company, which has been modified or customized to suit the owner's individual tastes.
Pitted/Pits	A small hollow or series of hollows in a finished surface. Pitting is most commonly found in chrome and bright metal.
Poor Fit	Excessive misalignment of the interfacing of components or parts, e.g., doors, bonnet, bootlid or hood. The improper shape of an item, e.g. leather seats not filled with the proper amount of stuffing, and appearing to fit the frame poorly. Or, stitching of seams may not be aligned properly, resulting in pulling between sections. Poor fit may also result from overstuffing of padded or upholstered components.

Poor Rubber Seal	A rubber seal that is cracked, splitting, exhibiting a chalky appearance or is in otherwise poor condition. New British (NB) rubber pieces do have a tendency to exhibit minute cracks.
Pozidrive®	A screw head similar to a Phipps® head specially designed for automotive assembly using power driven tools to prevent the driver from slipping out of the fastener. Identified by slashes scribed between the slots that receive the driver.
Privateer	Someone who races non-factory sponsored racecars at national or international circuits.
Replica	A vehicle whose builder attempted to faithfully reproduce all characteristics of the original.
Ripple	An undulation in a normally flat surface.
Rust	The reddish-brown/yellowish coating formed on metal by oxidation due to exposure to moisture and air. Rust is generally the result of rupture of the protective coating and subsequent exposure of the metal to the air.
Scratch	A mark in the finish caused by a sharp or ragged object. Scratches left by waxing or polishing do not meet this definition.
<u>Smoothing</u>	<p><u>As used in this Rule Book, Smoothing of a finish refers to the removal of casting or manufacturing blemishes (found primarily on aluminum or aluminum alloy items) that the factory did not take the time to correct.</u></p> <ol style="list-style-type: none"> a. <u>Items (such as cam covers and carburetor air inlet ducts/horns) whose surfaces were mostly smooth and polished, from the factory, but which had minor blemishes, from mold seams or rough areas caused by mold or casting imperfections, may have those defects "smoothed" and polished, to match the original surface finish of the main portion of the item, without penalty.</u> b. <u>Items that were cast in molds that produced a coarse or grainy-textured finish (such as sand-cast carburetor domes and the E-type clutch and brake pedal suspension housings) SHOULD NOT have their original overall rough texture removed.</u>

Squab	The upright portion of the seat, the seat's back. Squabs have visible fronts and backs.
Stain	A discoloring, soiling or spotting of a surface.
Tears/Holes	A pulling apart, puncturing, or separating by force of a soft material is a tear. Holes are a hollow or void in a normally continuous surface.
Trust/Trustee	A Trust/Trustee who is a member of JCNA may show, in the name of the trust, Jaguars belonging to the trust, however, the trust must be a JCNA member.
TWR Tom Walkinshaw Racing	A Jaguar Cars Ltd. sponsored Scottish racing team based at Kidlington, Oxfordshire. The team fielded Jaguar powered cars in both the ETC and WSC championship race series in Europe.
YCCC - Yellow Chromate Conversion Coating	A coating applied after plating to prevent white oxidation of cadmium-plated parts. The coating exhibits a golden tint whose luster is dependent on the luster of the base metal prior to plating. The coating became common in the late '60s and dissipates over time, especially when exposed.
Worn	Exhibiting the effects of use and wear.

Deducts for missing or non-authentic items must be initialed by the Entrant or Family member		.

Using Special Operation Verification Teams:

If a separate Operation Verification Team suspects a non-authentic item, the team is to list the item in the non-authentic box.

The Primary Judging Team shall examine the item and take appropriate action.

This sheet shall be placed with the other score sheets for review by the Primary Judging Team and submitted to the score keepers together with the other score sheets.

Quick Field Reference Deduction Guide

Judges' Guide for Scoring Non-Authenticity

(Non-Authenticity is not Judged in Special Division)

E. ITEMS COMMON TO ALL COMPONENT AREAS

Items listed in this section are common to all areas/components of the vehicle. The deductions apply to the listed items regardless of their relative size, quantity or location.

ITEM	Missing or wrong style, plating, finish, model, color, shape, size, type, material or configuration.	Maximum deduction for each of the four component areas
1. Misc. Latches, Clips & Hardware	0.50 ea	4.0
2. Nuts, Bolts, Screws & Washers	0.50 ea	4.0
3. Rubber Mounting Pads & Seals	0.50 ea	4.0
4. Rubber Weather Strip	0.50 ea Length	4.0
5. Data Plates and Small Decals	0.50 ea	4.0

F. EXTERIOR

Maximum deduction 200 points

ITEM	Not a factory color or a documented special order color.	NOTE
Paint Finish	20.0	a

Note:

Paint: No deduction for type of paint. Colors must be reasonably close to production standards for year and model. Metallic colors or two-tone color schemes must adhere to factory standards. Non-production colors must be documented, by the car's JDHT certificate or an equivalent document, as having been an original color factory-applied to the Jaguar.

EXTERIOR (cont'd)			
ITEM	Missing or wrong style, plating, finish, model, color, shape, size, type, material or configuration	Max. Deduct.	NOTE
1. Antennas	2.0		a
2. Back-up Lights Assemblies	2.0 ea		
3. Badges & Emblems	2.0 ea		b
4. Batteries, XK 140 & XK 150 batteries are excluded from judging	----		
5. Body Plugs	0.5 ea		
6. Bonnet (Basic Structure only)	10.0		c
7. Bonnet, E-Type only	20.0

63. Windshield Stanchions	4.0 ea		
64. Windshield Washer Jets	1.0 ea		
65. Windshield Wipers Arms	1.0 ea		

Notes:

- a. Antennas:** No deduction for factory installed antennas or neatly installed antennas associated with radios, cell phones, emergency communications or factory offered global positioning navigation systems. Flush-fitting retractable electric antennas were not fitted prior to 1970.
- b. Badge Bars and Driving and Fog Lights**
 - 1.** An Owner may install Jaguar car badge bars and driving or fog lights as long as they and their installation are in keeping with the quality and vintage of the Jaguar. No extra points are to be given or deducted for the presence of these items; however, all installed driving and fog lamps must be functional.
 - 2. Badges. Badges must represent JCNA, JCNA affiliates or other Jaguar or automobile associations.** (2013 AGM)
 - 3. Grille-Mounted Badges: Grille-Mounted Badges are NOT allowed on Champion Division Entries. A maximum of two (2) grille-mounted badges are allowed, on Driven Division Entries.** (2013 AGM)
- c. Bonnet, Boot Lid, Doors and Fenders:** Observe that the component is made of the same material as the original (steel, aluminum, fiberglass, etc.), that its shape is the same as the original (flares, curvature, air scoops, louvers, etc.), and that it belongs on that specific model. This does not include trim, bumpers, lights, handles or other items attached to the basic structure.
- d. Chassis/Body Posture and Ride Height:** This deduction should be applied to cars whose front, rear, or overall posture or ride height is MARKEDLY higher or lower than specification. *(This problem is most often seen on cars that have been re-sprung or whose torsion bars are seriously misadjusted.)*
- e. Door Edge Protectors:** These vertically mounted stainless or anodized black protectors were offered by Jaguar Cars Inc. for 1979-1992 XJ and 1976-1992 XJS models. If door edge protectors are installed on other models the Entrant must document that Jaguar Cars Ltd., Jaguar Cars Inc. or Jaguar Canada Inc. offered them, for that specific model, or they will be considered non-authentic. Where authorized, the protectors should be installed on all doors.
- h. Headlights:** Entries are allowed to have any style and/or size headlamps, offered by Jaguar Cars Ltd., Jaguar Cars Inc. or Jaguar Canada Inc. for the specific model, regardless of the country to which the car was originally delivered.
- i. Leaper:** Leapers are non-authentic on all XK 120s, XK 140s, E-Types and XJSs. Leapers are "non-authentic but allowed" on all 1970-1994 Saloons. "Safety" leapers introduced on 1994, X300 model saloons and subsequent are considered authentic.
- j. License Plate Frames:** Plain license plate frames or those advertising current or past Jaguar dealerships, JCNA, JCNA Affiliates, or promoting the Jaguar marque are accepted. Frames may be of any material. All other Champion Division license plate frames will be scored as non-authentic unless the Entrant can document that Jaguar Cars Ltd., Jaguar Cars Inc., or Jaguar Canada Inc. offered them for that specific model and Model Year. Driven Division frames are only judged for condition and cleanliness.
- k. Luggage Racks:** Only luggage racks offered as factory optional equipment are allowed for Champion Division entries. Driven Division entries are allowed either factory or appropriate vintage after-market racks. All racks must be neatly mounted in the prescribed location on the vehicle.

- l. Body Stripes (Coach Lines).** Where offered, factory applied and authentic optional body stripes (Coach Lines) consist of one or two narrow, closely spaced stripes complimenting or contrasting to the body color (see applicable Judging Guides and Factory Brochures for additional details). Body stripe (Coach Line) embellishments such as initials, monograms, leapers, scrolls, etc. are non-authentic.
- m. Roof Covering:** XJ6C & XJ12C and certain pre-war coupes have a vinyl roof covering.
- n. Side Protective Moldings:** These protective accessories were offered by dealers in North America, beginning in September of 1977, for the XJ6/12 and the XJ-S. Mounted along the side of the body, the moldings consist of metal extrusions with vinyl inserts, capped at each end by chrome finishers and attached with rivets or adhesive. The moldings were available in white, black, silver, blue, dark brown, caramel brown, green, or red. Side moldings on earlier models (pre-1977) will be considered non-authentic.
 1. Circa 1988, one-piece adhesive side moldings were made available in colors, which complemented the paint codes for XJS, Series III V12 VDP, and XJ40. They came in wide or narrow widths; however, the narrow width was not available for XJS in Canada.
 2. In 1995 the XJS was offered with either the wide or narrow moldings in both the US and Canadian markets. The X300 had factory-applied moldings.
- o. Sunroofs** Folding “Webasto type” vinyl sunroofs, were offered to the North American market for MK 2, 3.8S, E-Type, 420, and MK10/420G. (Webasto is the name commonly associated with these sunroofs, however, there was more than one Webasto source/company. Product differences, if any, have yet to be determined.) Only the “Webasto-type” folding vinyl sunroofs will be considered authentic. Sliding metal or glass-type sunroofs must have been installed by the factory or by a factory authorized agent at the time of delivery. In the early 1980s, the North American market XJ-S was offered with an electric retracting sunroof, installed by Hess and Eisenhardt.

Research into the sunroof issue is continuing. While the information provided here is valid, more model and model year detail is being sought.

- p. Tires: (Notes n. 1 and n. 2 below apply to Champion Division Entries only):** There shall be no penalties taken for the Owner's preference of white or black sidewall cosmetics. **Redline side walls were never offered by Jaguar Cars and will be considered non-authentic.** (Redline tires may be reversed to show their black side only.) Any brand is acceptable. The standard industry tire sizes, appearing on the tire sidewalls, are acceptable proof of correct size without further measurement. (Original tire sizes are listed in Appendix B)
 - 1. Tire Construction:** Tires are considered expendable. Replacement tires must be the same (or equivalent) size and construction (bias/radial) as originally found on the car when delivered by the Jaguar factory or offered by Jaguar Cars as optional equipment. To retain authenticity, if the year and model Jaguar was originally delivered exclusively with bias ply tires, they may only be replaced with bias ply tires. If suitable radial ply tires were **not** available, at the time of delivery of the Jaguar, the car should not be retrofitted with radial tires. (XK 120, XK 140 and XK 150 cars should only be fitted with bias ply tires. Series 1 E-Types may be fitted with either 185x15 radials or 6.40x15 bias ply tires.)
 - 2. Tire Size:** Tire size must match the original or an equivalent Alpha Numeric, Eurometric or P-Metric size. (Original sizes are shown in Appendix B) Size must be consistent with the original profile for the car to maintain its proper stance and appearance.

3. Tire Speed Ratings: Tires on Champion **and Driven** Division cars less than 15 years old must have original speed ratings or speed ratings equal to or superior to the original (see Appendix B). (2013 AGM)

- o. Top, Side Curtains, Tonneau & Boot Cover:** No hardtops, either factory optional or aftermarket, except as fitted to the XJS Cabriolet, are acceptable for judging.
- p. Pin Beading:** Pin beading is the narrow, chrome plated, half-round trim found on early (MK and XK) convertibles, and drop heads. It is called pin beading because, when properly attached, hidden pins on its backside hold it in place. Screws, or other visible substitute fasteners, used to hold pin beading in place, are non-authentic.
- q. Wheels:** Wheels must be the correct factory size, type, finish, and style for the model. Ace Discs & Rimblishers are permitted if they were offered by the factory for the specific model. Bolt-on wire wheels are non-authentic. Wire wheels should have the same number of spokes as the original. **Chrome plated wheels, not offered as a Jaguar factory option, must be scored as non-authentic in Champion Division.**
- r. Window Glass:**
 - 1. Champion Division:** Any window glass that meets the requirements of the original specifications for form, fit, function, and factory tint is acceptable. Triplex or other brand and safety markings are NOT judged.
 - 2. Driven Division:** Shiny or mirrored tinting, graphics or logos in the tinting, tinted film on the front windshield or excessively dark tinting shall receive deductions as non-authentic. The tint should allow the interior of the vehicle to be clearly visible when looking in from approximately one foot away.

Notes:

- a. Batteries:** XK120 batteries are located behind the seats and will be judged in **Champion Division only**. FHC's and DHC's have a hinged panel, which the Entrant should unfasten and tip forward for the batteries to be inspected. The separate battery cover on the XK 120 OTSs should be unfastened and either tipped forward or removed for battery inspection. The Bakelite battery covers should **not** be removed. Lucas and other original equipment batteries may be replaced with batteries made by any manufacturer provided they are of like voltage and appearance, and their terminals are in the same positions as on the original. Replacement batteries do not have to be identical to the original in size but they must fit in the location originally intended. "Fluted or cylindrical sided" (Gates-Optima type) batteries are considered non-authentic.
- b. Consoles:** Include individual panels for switches, radios, ashtrays, air conditioning, A/C outlets, overhead lighting, navigation, trip computers, etc.
- c. Electronic Telephones:** Alarm Systems and Radar Detectors: No deduction for neatly installed telephones, alarm systems or their accessories authorized by the factory, Jaguar Cars Inc. or Jaguar Canada Inc. Radar detectors were offered by all dealers on XJS for a period and were also installed by Jaguar Cars Ltd.; they were contained in a special case and stowed in the void above the steering column nacelle. All other radar detectors, NOT provided by either Jaguar Cars Ltd. or Jaguar Cars Inc., will be considered non-authentic.

- d. Instruments:** Instruments added to those originally supplied are non-authentic.
- e. Knobs and Switches:** Include those on the dash and elsewhere for the control of mirrors, seats, A/C, lights and windows, plus gear shift knobs. Extra switches mounted on the face of the dash or instrument panel are non-authentic.
- f. Non-Factory Accessories:** Items such as after-market compasses, clocks, medallions, stuffed animals and similar mementos or charms will receive a non-authentic deduction.
- g. Radios, CD or Tape Players and Speakers:**
 - 1. Champion Division:** No deduction for neatly installed radios of correct vintage, using original or authentic mountings and original speaker housings and grilles.
 - 2. Driven Division:** Entries are allowed contemporary radios, tape, or CD players installed in the original radio mounting space, utilizing the original speaker locations and external housings and grilles, without deduction.
- h. Seat Belts:** Seat belts are considered safety equipment and may be added/installed in those models that were not originally equipped with them. The type of installation and equipment should be in keeping with the vintage of the Jaguar. Replacement, non-standard hardware, belts or retractors will be judged as non-authentic.
- i. Seat Covers:** Accessory seat covers, such as sheepskin, must be removed allowing the Judge to examine the seat upholstery.
- j. Steering Wheels:** Steering wheels with non-original wrapping are considered non-authentic. Wrapping may be removed before judging. Original type steering wheels whose dimensions are other than as supplied at time of production are considered non-authentic.

Notes:

- a. Batteries:** Lucas and other original equipment batteries may be replaced with batteries made by any manufacturer provided they are of like voltage and appearance, and their terminals are in the same positions as on the original. Replacement batteries do not have to be identical to the original in size but they must fit in the location originally intended. “Fluted or cylindrical sided” (Gates-Optima type) batteries are considered non-authentic
- b. Spare Tire** (Champion Division only) The spare tire must match the road wheel tires' size, sidewall and tread pattern. Certain recent

model Jaguars are equipped with low profile, space-saving spare tires and wheels. Where present (in Champion and Special Division) they should only be inspected for cleanliness and condition. When more detailed information becomes available, it will appear in Appendix B.

- c. Spare Wheel** (Champion Division only) The spare wheel must be the correct type and match the road wheels (see "**b. Spare Tire**", above).
- d. Tool Kit** The tool kit is optional for US models produced after 1968; however, if the Entrant displays a tool kit, it may be judged.
- e. Tool Kit Spare Spark Plug:** The spare spark plug, provided as part of certain tool kits, should be identical to the original (brand and type).

Cylinder Head Color Table

Notes:

- a. **Batteries:** Lucas and other original equipment batteries may be replaced with batteries made by any manufacturer provided they are of like voltage and appearance, and their terminals are in the same positions as on the original. Replacement batteries do not have to be identical to the original in size but they must fit in the location originally intended. "Fluted or cylindrical sided" (Gates-Optima type) batteries are considered non-authentic.
- b. **Add-on Items and Accessories:** Extra cooling fans, carburetors, headers, horns, or other items that were not factory-available for the model are non-authentic.
- c. **Engine Block, Head & Carburetors or Fuel Injectors:** Only those items that were factory available for the model are allowed.
- d. **Exhaust Manifolds:** See applicable Judging Guides for proper manifold coating. The British terms "black enameled or vitreous enamel" are the equivalent of the North American term "porcelain". MKV exhaust manifolds were NOT porcelain coated. All XK 120, XK 140 and XK 150 and Series 1 E-Type exhaust manifolds were porcelain coated.
- e. **Hose Clamps:** Hose clamps must match the original including the material, the finish, the configuration of the adjustable band, and the shape and style of the adjusting screw head. All pre-1975 hose clamps should have round head, straight-slot adjusting screws; their adjusting bands should be grooved, not perforated. (Hex-headed clamp adjusting screws did not appear until approximately 1975. Brand name is not judged. Clamp bands must be the appropriate length (size) for the application; clamps with MORE than approximately one inch of the band showing beyond the adjusting screw will receive a non-authentic deduction.
- f. **Hoses:** Hoses must be the same size and shape as the original. Hoses reinforced with Kevlar or other synthetic materials are acceptable. Where applicable, the original stockinette covering is not required.
- g. **Aftermarket Ignition:** No deduction for aftermarket electronic ignition systems using all stock components and showing only a "black box" mounted unobtrusively.
- h. **Spark Plugs:** There is no deduction for the make or type of spark plugs; however, all installed spark plugs, which are normally visible, must match.

Model/Engine Size	Documented Color	Acceptable Observed Variation
XK 120; C-Type; D-Type	Natural Aluminum	(No colors listed)
XK 140	Natural Aluminum	(No colors listed)

2014 Judge's Concours Rule Book Test

Revised April 12, 2014

Name: _____ JCNA Number: _____

Date: _____ Your Club: _____

Chief Judge Administering Test: _____

This is an open-book test based on the 2014 Edition of the JCNA Rule Book. It is intended to expose Judges and prospective Judges to important portions of the Rule Book content. Page references for the answers are provided.

Circle the correct answer or answers for each question. Bold Year after the question indicates the year the question was last updated in the Judges Test.

1. What is the foremost purpose of the JCNA Concours?
 - a) To allow a forum for restorers and detailers to compare each other's work
 - b) To encourage the Owners of Jaguars to preserve, maintain, and present their Jaguars in as clean and authentic a condition as possible.
 - c) To show the public other ways to spend their money besides boats and RV's

Ch I, Page I-1

2. Which of the following statements are correct? **2012**
 - a) Trailering to the Concours site is allowed for all divisions (with certain restrictions)
 - b) Champion Division Entries may be trailered directly to their assigned parking positions and be offloaded
 - c) All Entries must be driven, under their own power, to their assigned parking positions in the judging area
 - d) Entries failing operation (under rule c above) are ineligible for the day's Concours competition and shall not be judged

Ch II, Page II-1

3. Which statement is **true** for Preservation Class Entries **2013**
 - a) They must be presented with a JDHT Certificate.
 - b) They may not show any evidence of having been restored.
 - c) They should receive a deduction for a new authentic distributor.
 - d) They must be at least 30 years old.

Ch II, Page II-5

4. Driven Division Entries may be towed or trailered to a JCNA Concours if? **2012**
 - a) The Entry does not meet local safety or emissions regulations
 - b) The Entry is not in running condition
 - c) The Entry does not have a current registration
 - d) The enroute weather looks bad
 - e) The Entry is at least 35 years old

Ch II, Page II-6

5. Driven Division Entries are allowed certain authenticity exceptions without penalty including?

- a) Luggage racks
- b) Mud flaps
- c) Bolt-on wire wheels
- d) Custom paint
- e) Radar detectors
- f) Chrome wheel arches
- g) Spoilers

Ch II, Pages II-6 and II-7

6. To be eligible for Special Division Class S2, each Entrant must present the Chief Judge which of the following: **2013**

- a) A document indicating participation in formal solo race activity
- b) Documented race history or a Racing Logbook for the Entry
- c) Proof that the Entry meets and has passed the existing road or track wheel-to-wheel race competition safety requirements of a **currently recognized** road-race sanctioning body

Ch II, Page II-9

7. Entries in Special Division Class S3, Modified, are required to have a minimum of 40 points of non-authentic judged items to qualify. Which of the following items qualify as non-authentic to meet the minimum requirements to enter that class? **2013**

- a) Numerous incorrect hoses, aftermarket hose clamps and US-brand fasteners
- b) Competition exhaust headers and Weber carburetors
- c) Bolt-on wire wheels
- d) Disc brakes in place of the original drum-type brakes

Ch II, Page II-9

8. All persons assigned as Judges at JCNA Concours must be current members of a JCNA club or Members at Large (MAL's). **2013**

- a) True
- b) False

Ch III, III-4

9. How do JCNA Certified Judges maintain their certification? **2013**

- a) Judge at a minimum of 2 JCNA sanctioned concours every 3 years
- b) Receive annual briefings and/or correspondence describing all rule changes that affect judging
- c) Retake and pass the Judges Test at least once every three years

Ch III, Page III-5

10. Which of the following is/are **true** for Judging Teams? **2013**

- a) Judging Teams should be assigned according to their expertise, but when there is no clear expert, more than one Judge may be assigned to the same component
- b) Thorough judging requires team members to share their authenticity knowledge
- c) More than one Judge may not be assigned to the same component.
- d) An Apprentice Judge who has undergone classroom training and testing may be used as a non-certified member of a Judging Team

Chapter III, Page III-7

11. How many Certified Judges required for each Champion Division Judging Team? **2013**

- a) All must be certified
- b) At least two
- c) Only one

Ch III, Page III-7

12. What is the responsibility of the Judging Team Leader?

- a) Introduce the team to the Entrant
- b) Ensure that team scoring sheets are properly completed with all information
- c) Verify that all deductions are legible and appropriately entered

Ch. III, Page III-8

13. Can a Judge change the component they judge from one vehicle to the next within the class the team is judging?

- a) Yes, if they realize they have judged the car in the past
- b) No, they must judge same area for each vehicle in that class
- c) Yes, only if the Judging Team Leader assists in that judging area
- d) Yes, if someone has more experience with a specific model year

Ch. III, Page III-8

14. Dedicated Operation Verification (OV) Teams must refer non-authenticity deductions to the Primary Judging Team. For which of the following discrepancies may the OV team make deductions?

- a) Neither the high nor low beam filaments work in one headlamp
- b) When the headlights are turned on, they work but the original lamps have been replaced with "Ultra-Xenon Diamond Blue" bulbs, or something similar
- c) When the horns are operated, only one horn works
- d) When the horns are operated, both horns work, but both sound the same note

Ch. III, Page III-9

15. During Operation Verification (OV) an Entry is found to have an inoperative light or a system of lights. The Entrant is allowed?

- a) 15 minutes to attempt to correct the malfunction
- b) To seek assistance from a member of the Judging or OV Team to fix the problem, while judging of the class is still in progress
- c) 15 minutes to drive the car to and from the nearest service station to purchase a new bulb or component
- d) To obtain help from anyone, except as in b) above

Ch. III., Page III-9

16. All of the following statements regarding score sheets are **correct**, except?
- a) Examine headings before judging to determine that all information is complete
 - b) Cross out non-judged sections
 - c) Fill in all the blanks, including a line-through or slash where no deductions are made, excepting those boxes with a bold outline that are only for scorekeepers.
 - d) To minimize errors, place a dash line in front of decimal points
 - e) The Team Leader should total and recheck scores before submitting sheets to the Scrutinizer and Scoring Committee

Ch III, Page III-11 and III-12

17. When judging cleanliness and condition how should the Judge indicate the locations and nature of any discrepancies? **2013**
- a) Make notes on the back of the score sheet
 - b) Review them with the Entrant while discussing non-authentic discrepancies
 - c) Write a note in the margin of the score sheet
 - d) Using the “C&C Deduction Locations” box, list the score sheet line numbers and briefly describe each of the major C&C discrepancies and their locations.

Ch. III, Page III-12

18. If a Judging Team is uncertain that an Entrant is the legal owner or legally entitled to the Entry, they may request that the Entrant’s ownership or entitlement be proven by presenting either the Entry’s title or registration? **2013**
- a) True
 - b) False

Ch. IV, Page IV-1

19. In response to being informed that a feature or item appears to be non-authentic, the Entrant must be allowed the opportunity to present documentation proving authenticity. Accepted proof sources include? **2013**
- a) Enthusiast magazines
 - b) Parts supplier brochures
 - c) Score sheets from prior JCNA concours
 - d) Commercial restoration guides and model reference books
 - e) Jaguar Parts Books, Jaguar Service Bulletins, official Jaguar Cars sales literature and JCNA-approved Judging Guides

Ch IV, Page IV-2; Ch VI, Page VI-1; Appendix C, Tables C-1 and C-2.

20. In order for JCNA Concours scores to be meaningful, Judges throughout North America must? **2013**
- a) Assure that the best Entry in each class gets 100 points
 - b) Always overlook or excuse “en route” damage
 - c) Attend a Judges’ School every year
 - d) Judge each entry on the basis of the established JCNA standard

Ch V, Page V-1

21. The ultimate goal of JCNA Concours judging is to? **2013**
- a) Maximize Concours participation
 - b) Minimize complaints and protests
 - c) Make the event as much fun as possible
 - d) Complete all judging within time allotted on judging schedule
 - e) Achieve a level of standardization and model expertise such that any given Entry, judged by any JCNA affiliate in North America, would receive an identical score

Ch V, Page V-1

22. Authenticity is determined by judging individual components for?
- a) Original materials or authentic replacement materials
 - b) Correct fasteners (e.g. bolts, screws, latches, etc.) of the correct size and type
 - c) Correct patterns, shapes, fit and positioning
 - d) Correct colors, finishes and plating
 - e) Correct applicability to the model

Ch. V, Page V-1

23. An item judged to be non-authentic and which is also dirty or in poor condition may be assessed both authenticity and C&C deductions? **2013**

- a) True
- b) False

Ch. V, Page V-1

24. When original parts fail and “as-original” replacement parts are not available? **2013**
- a) “Almost correct”, “safer than original” and/or items presented as “the best that can currently be obtained” should not be penalized
 - b) Except for replacement parts, still available from Jaguar Cars under their original Part Number, items that do not meet the exact specifications and appearance of the original are non-authentic
 - c) Cars that still have the correct original part may be given “bonus points”

Ch V, Page V-1; Ch VI, Page VI-4

25. Which of the following would be deductible as paint finish discrepancies? **2013**
- a) Marks on boot and bonnet support rods where they attach to their retaining clips
 - b) Brake drums stained by dust and grease
 - c) Paint scraped because the bonnet rubs against the wing/fender
 - d) Paint damage on shut panel striker where door latch normally makes contact
 - e) Obvious paint chip or scratch repair

Ch. V, Pages V-2 and V-4

26. Which of the following are judged during operational verification? **2013**
- a) Backup lights, brake lights and dome light
 - b) Driving lights, hazard lights and fog lights
 - c) Headlights, horns and parking brake
 - d) Parking, tail and side lights, license plate lights and turn signals

Ch. V, Pages V-3 and V-4

27. The driver's door makes contact with the door sill and has made scrape marks on the sill plate. Should you accept this as normal contact wear? **2012**
- a) Yes - This contact happens following normal use.
 - b) No - This is not a normal contact area and is the result of wear or mis-alignment

Ch. V, Pages V-2 and V-4

28. Tonneaus and boot envelopes, for certain OTS, convertibles and DHC's, must be displayed for judging. What should the Judge look for? **2012**
- a) Applicability for the model
 - b) Cleanliness and condition
 - c) Correct material and style
 - d) Correct fasteners and zipper configuration.

Ch. V, Page V-6

29. Which of the following cars receives a non-authentic deduction for a bonnet-mounted leaper?
- a) XK 140
 - b) E-type series III
 - c) XJ6 series I
 - d) XJS
 - e) All of the above

Ch. V, Page V-6

30. Complete tire judging should include? **2013**
- a) The use of Appendix B, the Owner's Manual or the Entry's Tire Data Plate
 - b) Deductions for weather checking, excessive tread wear, and blemishes
 - c) The Exterior Judge verifies that all road tires are of matching brand, type, and profile
 - d) Judging of inner sidewalls

Ch V, Pages V-7 and V-8

31. Which of the following are **correct** regarding license plate frames? **2013**
- a) Those advertising current or past Jaguar dealers, JCNA or affiliates are allowed
 - b) Judging criteria are identical in Champion and Driven Divisions
 - c) A plain license plate frame of any material is allowed
 - d) Only politically correct frames are allowed

Ch. V, Page V-8

32. All new Jaguars, exported to the North American market, were delivered with hardware and/or provisions for mounting a front license plate. If the model was originally delivered with a separate front license mounting device, that device must be displayed for judging either on or off the car. **2012**

- a) True
- b) False

Ch. V, Page V-8

33. Which statements are **correct** regarding overmats, footwell rugs and/or aftermarket floormats? **2013**
- a) Factory-fitted overmats shall be presented for judging outside the Entry
 - b) Non-authentic mats are not judged but they must be removed
 - c) If non-authentic mats are not removed or, if factory-fitted mats are missing, they will be assigned non-authentic deductions.
 - d) Mats are removed in order for the Judge to properly examine the carpeting

Ch. V, Page V-9

34. If the Owners Manual must be referenced or examined for any reason, it should only be handled by the Entrant. **2013**

- a) True
- b) False

Ch V, Page V-13

35. Triangular SU carburetor float bowl tags are required on all XK150 and other HD carburetor-equipped Jaguars. **2013**

- a) True
- b) False

Ch V, Page V-15

36. Which of the following statements **correctly** relates to the Jaguar Cars Ltd. engine compartment Data Plate?

- a) It's exclusive to each Entry
- b) It lists the original Chassis, Body, Engine, and Gear Box serial numbers
- c) Judges should not assess condition deductions for the original data plate provided it retains its original shape and all the stamped numbers are legible

Ch V, Page V-17

37. Certain engine compartment aluminum components and fittings were “sand cast” which resulted in a coarse finish over all of their surfaces. Removal of that coarse finish and polishing is acceptable within the “smoothing” allowed by JCNA “over-restoration” guidance. **2012**

- a) True
- b) False

Ch. VI, Page VI-4 and Glossary Page 5

38. The minimum deduction for all non-authentic nuts, bolts, screws, and washers is? **2012**

- a) Up to the Judge’s personal assessment of their importance
- b) 0.1 times the number of discrepancies
- c) 0.5 points each with a maximum of 4.0 points
- d) The same as the C&C deductions

Ch. VI, Page VI-6

39. Which of the following statements are **true** regarding grille-mounted badges? **2013**

- a) All grille badges are considered non-authentic
- b) Any grille badges on Champion Division Entries are non-authentic
- c) There is no limit to the number of grille badges mounted on Driven Division Entries
- d) Badges must represent JCNA, JCNA affiliates or other Jaguar or auto associations

Ch. VI, Page VI-8

40. Which of the following statements are **false** regarding Pin/Body stripes? **2013**
- a) Pin stripes documented to have been dealer-applied are always authentic
 - b) Growlers and/or leaper emblems were frequently included in factory pin stripes
 - c) All 1991 through 1996 XJS had factory pin stripes
 - d) When the factory ran out of pin stripe tape, the stripes were painted

Ch. VI, Pages VI-9, VI-10 and VI-11

For questions 41 through 50, how many points do you deduct for (unless otherwise stated, assume Champion Division): (See Ch. VI, Judges' Guide for Scoring Non-Authenticity and Score Sheet #1 Operation Verification.)

41. Custom Pin striping on bonnet, boot and all wings and doors on an XJ6 Saloon: _____.
Ch VI, Page VI-7
42. A Champion Division Entry's 4 road wheels are determined to be the wrong size or type, _____ each, for a maximum of: _____. Ch VI, Page VI-8
43. The same Entry's spare wheel is determined to be the wrong size or type; in consultation with the Exterior Judge it is confirmed to match the exterior wheels; it should be given a deduction of: _____, Ch VI, Pages VI-16 and VI-17.
44. The (2) seat frames are the wrong color: _____. Ch VI, Page VI-14. **2013**
45. A standard XK150 has an engine with a gold cylinder head: _____, Ch VI, Pages VI-18 and VI-20. **2013**
46. The original radiator has been replaced by after-market oversized extra-core unit: _____. Ch VI, Page VI-18, **2012**
47. A 1964 E-type Champion Division Entry has the wrong cam covers and distributor. Deduct a total of: _____. Ch VI, Page VI-17
48. An engine compartment with 15 wrong hose clamps, _____ each, for a maximum of: _____. Ch VI, Page VI-18 and Page VI-21
49. A car has two headlights; one works on both high and low beam, the other does not work at all. How long to fix it _____? If not fixed, what is the deduction? _____ Score Sheet #1, Operation Verification.
50. A car has 4 turn signal lamps – only one of them works and it is dim. How long to fix it _____? If not fixed, what is the deduction? _____ Score Sheet #1, Operation Verification.
