

Dear Jaguar Owner:

The Jaguar North American Archives, based at Jaguar North American headquarters, issues certificates with build data from the original factory records. This service is available to all Jaguar owners for vehicles at least five years old. Information is available on SS and SS Jaguar cars from 1931 and all Jaguar cars. Partial records are available on Swallow and Daimler cars. Please note that we do not have information on any car beyond what is on the factory records.

The enclosed form (click on link to open and print from your browser) must be completed by the owner and returned to us with payment and proof of ownership in the applicant's name. Proof can be a copy of the title, vehicle registration or a notarized bill of sale. Only one proof is needed. We must have proof of ownership before doing the research and we can only issue a certificate in the name of the actual owner.

Requests for vehicle information are handled in the order received. It will take 2-3 weeks to process your request after we receive the completed form. A preliminary report will be sent to you that we will ask you to verify before we print the final certificate. Certificates are attractive, 9x12" color documents suitable for framing.

The charge is \$50 per vehicle inquiry. Members of the Jaguar Clubs of North America pay \$35. These fees are used to support the full range of Archives research services. Please read the form and make sure it is completed before sending it.

Sincerely,

Michael L. Cook
