

NB-3d JCNA Entrant Numbers and Score Entries

There has been an ongoing problem with entrant scores and JCNA numbers for entrants who have multiple cars entered in the same class in a concours. There is no way to tell one car from another. For both the slalom and rally where scores are for the driver or navigator, and not the car, there is no way to tell who is driving the car.

The JCNA scoring software will handle extensions up to three characters.

For the 2014 competition season, it will be the Entrant's responsibility to assign a unique JCNA approved suffix for each entry as follows:

Concours Entrants with more than one car entered **IN THE SAME CLASS** will need to designate a special JCNA approved suffix to their JCNA number for each car, such as: SW00-0000-**C1** for their first car and SW00-0000-**C2** for their second car, etc.

As slalom scores are for the driver and not the car, each driver (husband, wife, children) will need to designate their own JCNA approved suffix as follows: SW00-0000-**S1** (husband), SW00-0000-**S2**, (wife), SW00-0000-**S3** (Child), etc.

Rally Drivers and Navigators each have their own class so a husband (driver) and wife (navigator) would not have a problem.

However, if both the husband and wife drove or navigated in separate cars, they will each have to specify a separate JCNA approved suffix to their JCNA number as follows: SW00-0000-**R1**, SW00-0000-**R2**, etc.

This unique JCNA approved suffix "C1, C2", must remain with the car and "S1, S2, R1 or R2" with the entrant during the entire concours season.

Again, it will be entirely the entrant's responsibility to provide a consistent JCNA approved suffix for their cars and people. It will be the club's responsibility to enter the information in the JCNA scoring system correctly.

If a car is sold and replaced with a car **IN THE SAME CLASS**, that JCNA approved suffix may no longer be used for that competition season. Entrants with newly purchased cars entering in the **SAME CLASS** will need to assign a different JCNA approved suffix as well.

A place will be needed on each registration form for the JCNA number and JCNA approved suffix.

Clubs will also need to add the following warning to their registration forms

During the course of the year, if you have entered more than one car **IN THE SAME CLASS**, it is your responsibility to append a unique JCNA approved identifier to your JCNA number to make sure standings are recorded accurately. Example: for concours: SW00-0000-C1, slalom SW00-0000-S1, rally SW00-0000-R1. Failure to do so may result in invalidated scores.

Note: The "J" for certified judges is not part of the JCNA number when recording scores.

The following text will need to be added to the On Line Scoring System page

New for 2014:

Concours: For entrants with more than one car **IN THE SAME CONCOURS CLASS**, the person entering the scores must include the appropriate JCNA approved suffix as provided for the entrant. If a car is sold, that suffix may no longer be used for that competition season. Entrants with newly purchased cars entering **IN THE SAME CONCOURS CLASS** would need to assign a different JCNA approved suffix as well.

SW00-0000-**C1** for the first car, SW00-0000-**C2** for the second car, etc.

Slalom: As slalom scores are for the driver and not the car, each driver (husband, wife, children) need to designate their own JCNA approved suffix as follows: SW00-0000-**S1** (husband) , SW00-0000-**S2**, (wife), SW00-0000-**S3** (Child), etc.

Rally: Rally Drivers and Navigators each have their own class so a husband (driver) and wife (navigator) would not have a problem.

However, if both the husband and wife drove or navigated in separate cars, they will each have to specify a separate JCNA approved suffix to their JCNA number as follows: SW00-0000-**R1**, SW00-0000-**R2**, etc.

Note: The “J” for certified judges is not part of the JCNA number when recording scores.

The use of personal initials will not work because somewhere there is bound to be a couple who both have the same initials.

The problem of initials will also not work for a single person who has two identical cars in the same class at the same concours. If that person indicates his first car as ...000-C1 and the second car as ...000-C2, there will not be any confusion as to which car is being scored.
