

CR-11 Protest Committee Report - Knick Curtis

We had two protests this year, see the details below. In addition we had two protests about the overturned results because of Judging Team discrepancies and one other about Judges inappropriate actions. These latter three did not fall into our venue, but discussions were carried out with all parties involved, with letters from me stating that these issues were not in our jurisdiction.

Protest 1

Randy Smalley, SDJC Concours, 7/14/13. Class C05, 1962 E-Type OTS. Protest was about a deduction for welding seam discrepancy on header tank. After conversations with the Judges and various comparisons of same including pictures, the points were returned as it was determined there was a wide range of quality of same.

Protest 2

Greg Horner, IJC Concours 7/20/13. Class C15A-01, 1990 XJS. Entrant received a deduction for incorrect "Coach Lines" (pinstriping). Points were returned to entrant on basis of JCNA Judging manual which showed these to in fact be correct.

This report respectfully submitted.

Knick Curtis

Chairman JCNA Protest Committee
