4. JCRC Issues Pending.

a. Judge's Test update - Test will be updated following AGM.

b. Possible Chief Judge Test - Under consideration

5. Awards Issues:

- The general proliferation of perfect scores, the unbelievable percentage of 100 and 10 point scores at some relatively small shows, and the monotony of repeat winners, continue to generate complaints, general embarrassment and a lack of credibility for the JCNA awards program. While JCRC strives to make the rules as clear and as detailed as practical, in practice, individual club judging does not produce standardized scoring. The current method of determining the North American Champions, by treating these questionable results as equal, is erroneous.
- It is widely agreed that, in order for cars to justifiably merit endorsements as JCNA North American Class Champions, Entries in each class must have been judged side-by-side by the same team of Judges.
- The awards program needs to be fixed.
- JCRC is interested in improving the credibility of the North American awards but the JCRC directive does not include oversight of the JCNA competition awards programs.

6. JCRC Membership: SE and SC Region Directors need to confirm the continued JCRC membership of George Camp and Rufus Coburn.
