

Tool Loan Program Report for 2019 JCNA AGM

The JCNA tool loan program is now in its 7th year of operation without incident and with the loss of only one tool during that time (shipping issue, not a return issue). During that time, hundreds of factory tools have been successfully loaned, helping keep our pride and joys on the road.

Due to the changing situation and other concerns, all tools kept at Coventry West (both JCNA and Coventry Foundation holdings), an MOU between the organizations was executed and all tools were moved to the care of the Foundation (see photos).

With the transfer of all tools from Coventry West (thanks for hosting all these years) the tools are kept in a better facility, and due to consolidation and inventory, it was discovered we have almost 100% coverage from 1938 to 2010.

As well as hard tools, there are many diagnostic tools available now. Hopefully, we might get a volunteer to update the PDF to reflect the many tools that were added.

Foundation tools are loaned to JCNA members without any additional cost. It is hoped that at some near future date, the Foundation may send a redundant set to a facility on the West Coast to further increase service (and reduce shipping) for JCNA members.
