

CR-4a Publications Report – George Camp

Publications:

Publications continue to do well but we have saturated a lot of the market. We (JCNA) continue to give away to the world (non-members) many of our most requested books. I have asked several times that members only are able to download books but that has yet to be accomplished although all agreed to that action. Please!

Sales in publications were boosted this year by a large donation from Jaguar of unwanted material from the Jaguar archives. Thanks to Jaguar and they have promised to send a second load. Many members still do not know about this sale as the clubs do not allow E mail blasts and do not post information (some do). Please encourage folks to sign up for shoppe news. They get the bargains on rare materials.

JCNA continues to need an official judging guide for many models but the most needed are the XK120/XK140/XK150.
