

CR-4c Tool Loan Program – George Camp

The tool loan program continues to function but not at the level it should. It does serve to enlist new members and as it is a no cost program it continues. A lot of work by Dick Maury has resulted in a full inventory and cataloging of the hundreds of tools that were donated to the Foundation. Those tools along with other donations make JCNA the largest comprehensive repository of factory tools anywhere. If you have not looked please see the tool loan program. We continue to need to obtain an additional copy of J7 (JD7) wire wheel hub puller. We have one and attempts to have Bosch Service Solutions to obtain the original drawings or produce an additional copy or two have failed. Any leads?
